CHAPTER 3
RULES OF ORIGIN AND ORIGIN PROCEDURES

Section A : Rules of Origin

Article 3.1 : Origin Criteria

1. For the purposes of this Agreement, a good imported into the territory of a Party shall be deemed to be originating and eligible for preferential tariff treatment if it conforms to the origin requirements under any one of the following:

(a) a good which is wholly obtained or produced entirely in the territory of the exporting Party as set out and defined in Article 3.2;

(b) a good not wholly obtained or produced in the territory of the exporting Party, provided that the good is eligible under Article 3.3 or 3.4 or 3.5 or 3.6; or

(c) a good which is produced entirely in the territory of the exporting Party exclusively from originating materials.

2. Except as provided for in Article 3.6, the conditions for acquiring originating status set out in this Chapter must be fulfilled without interruption in the territory of the exporting Party.

Article 3.2 : Wholly Obtained or Produced Goods

Within the meaning of subparagraph 1(a) of Article 3.1, the following goods shall be considered to be wholly obtained or produced in the territory of a Party:

(a) plants and plant products grown and harvested there;

(b) live animals born and raised there;

(c) goods obtained from live animals referred to in subparagraph (b);

(d) goods obtained from hunting or trapping within the land territory, or fishing or aquaculture conducted within the internal waters or within the territorial sea of that Party;

(e) minerals and other naturally occurring substances, not included in subparagraphs (a) through (d), extracted or taken from the soil, waters, seabed or beneath the seabed in that Party;

(f) products of sea-fishing and other marine products taken by vessels registered with the Party and entitled to fly its flag, and other products taken by the
Party or a person of that Party, from the waters, seabed or beneath the seabed outside the territorial seas of the Party, provided that the Party has the rights to exploit\(^1\) the natural resources of such waters, seabed and beneath the seabed under international law\(^2\);

\[\text{(g)}\] goods produced and/or made on board factory ships registered with a Party and entitled to fly its flag, exclusively from products referred to in subparagraph (f);

\[\text{(h)}\] goods taken from outer space provided that they are obtained by the Party or a person of that Party;

\[\text{(i)}\] articles collected from there which can no longer perform their original purpose nor are capable of being restored or repaired and are fit only for the disposal or recovery of parts of raw materials, or for recycling purposes;

\[\text{(j)}\] waste and scrap derived from:

\[\text{(i)}\] production there; or

\[\text{(ii)}\] used goods collected there, provided that such goods are fit only for the recovery of raw materials; and

\[\text{(k)}\] goods obtained or produced in the territory of the Party solely from goods referred to in subparagraphs (a) through (j).

**Article 3.3 : Not Wholly Obtained or Produced Goods**

1. For the purposes of subparagraph 1(b) of Article 3.1, goods which are not wholly obtained, as provided for in Annex 3-A, shall be deemed to be originating when the conditions set out in the Annex 3-A are satisfied.

2. The formula for calculating the regional value content (hereinafter referred to as ‘‘RVC’’) will be either\(^3\):

   (a) **Direct / Build-Up Method**

---

\(^1\) The Parties understand that for the purposes of determining the origin of products of sea-fishing and other products, “rights” in this subparagraph include those rights of access to the fisheries resources of a coastal state, as accruing from agreements or other arrangements concluded between a Party and the coastal state at the level of governments or duly authorized private entities.

\(^2\) “International law” in this subparagraph refers to generally accepted international law such as the United Nations Convention on the Law of the Sea.

\(^3\) The Parties shall be given the flexibility to adopt the method of calculating the RVC, whether it is the build-up or the build-down method.
VOM
RVC = ------------------------ x 100%
FOB

VOM means value of originating materials, which includes the value of originating material cost, labor cost, overhead cost, profit and other costs, where:

(i) material cost is the value of originating materials, parts or goods that are acquired or self-produced by the producer in the production of the good;

(ii) labor cost includes wages, remuneration and other employee benefits;

(iii) overhead cost is the total overhead expense; and

(iv) other costs are the costs incurred in placing the good in the ship or other means of transport for export including, but not limited to, domestic transport costs, storage and warehousing, port handling, brokerage fees and service charges.

or

(b) Indirect / Build-Down Method

FOB - VNM
RVC = ------------------------ x 100%
FOB

VNM means value of non-originating materials, which shall be:

(i) the CIF value at the time of importation of the materials, parts or goods; or

(ii) the earliest ascertained price paid for the materials, parts or goods of undetermined origin in the territory of the Party where the working or processing has taken place.

3. For the purposes of paragraph 1 and the relevant Product Specific Rules set out in Annex 3-A, the rules requiring that the materials that are used have undergone a change in tariff classification, or a specific manufacturing or processing operation, shall apply only to non-originating materials.

4. When an originating good is used in the subsequent production of another good, no account shall be taken of the non-originating materials contained in the originating good for the purposes of determining the originating status of the subsequently produced good.
Article 3.4 : Product Specific Rules

For the purposes of Article 3.1, goods which satisfy the Product Specific Rules provided in Annex 3-A shall be considered to be originating in the territory of the Party where working or processing of the goods has taken place.

Article 3.5 : Treatment for Certain Goods

Notwithstanding Articles 3.1, 3.3 and 3.4, certain goods shall be considered to be originating even if the production process or operation has been undertaken in the Gaeseong Industrial Complex located in the Korean Peninsula, on materials exported from a Party and subsequently re-imported to that Party provided that the conditions set out in Annex 3-B are fulfilled.

Article 3.6 : Accumulation

Unless otherwise provided for in this Chapter, a good originating in the territory of a Party, which is used in the territory of the other Party as material for a finished good eligible for preferential tariff treatment, shall be considered to be originating in the territory of the latter Party where working or processing of the finished good has taken place.⁴

Article 3.7 : Non-Qualifying Operations

1. Notwithstanding any provision in this Chapter, a good shall not be considered to be originating in the territory of a Party if the following operations are undertaken, exclusively by itself or in combination, in the territory of that Party:

   (a) preserving operations to ensure that the good remains in good condition during transport and storage;

   (b) changes of packaging, breaking-up and assembly of packages;

   (c) simple⁵ washing, cleaning, removal of dust, oxide, oil, paint or other coverings;

   (d) ironing or pressing of textiles;

   (e) simple⁵ painting and polishing operations;

---

⁴ The Parties agree to review this Article three years from the date of entry into force of this Agreement, taking into due consideration the economic integration agreements in force in the Asia Pacific region at the time of such review.

⁵ “Simple” generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.
(f) husking, partial or total bleaching, polishing and glazing of cereals and rice;
(g) operations to color sugar or form sugar lumps;
(h) simple¹ peeling, stoning, or un-shelling⁶;
(i) sharpening, simple grinding or simple cutting;
(j) sifting, screening, sorting, classifying, grading, or matching;
(k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
(m) simple mixing⁷ of products, whether or not of different kinds;
(n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
(o) simple⁵ testing or calibrations; or
(p) slaughtering of animals⁸.

2. A good originating in the territory of a Party shall retain its initial originating status, when exported from the other Party, where operations undertaken have not gone beyond those referred to in paragraph 1.

Article 3.8 : Direct Transport

1. Preferential tariff treatment shall be applied to a good satisfying the requirements of this Chapter and which is transported directly between the territories of the Parties.

2. Notwithstanding paragraph 1, a good of which transport involves transit through one or more non-Parties, other than the territories of the Parties, shall be considered to be transported directly, provided that:

---

⁶ For greater certainty, this subparagraph shall not apply to HS 0801.32.

⁷ “Simple mixing” generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity. However, “simple mixing” does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

⁸ “Slaughtering” means the mere killing of animals and subsequent processes such as cutting, chilling, freezing, salting, drying or smoking, for the purposes of preservation for storage and transport.
(a) the transit is justified for geographical reason or by consideration related exclusively to transport requirement;

(b) the good has not entered into trade or consumption there; and

(c) the good has not undergone any operation other than unloading and reloading or any operation required to keep it in good condition.

**Article 3.9 : De Minimis**

1. A good that does not undergo a change in tariff classification shall be considered as originating if:

   (a) for a good, other than that provided for in Chapters 50 through 63 of the Harmonized System, the value of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the FOB value of the good; and

   (b) for a good provided for in Chapters 50 through 63 of the Harmonized System, the weight of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the total weight of the good, or the value of all non-originating materials used in the production of the good that do not undergo the required change in tariff classification does not exceed 10 percent of the FOB value of the good;

   and the good specified in subparagraphs (a) and (b) meets all other applicable criteria set out in this Chapter for qualifying as an originating good.

2. The value of non-originating materials referred to in paragraph 1 shall, however, be included in the value of non-originating materials for any applicable RVC requirement for the good.

**Article 3.10 : Treatment of Packaging and Packing Materials**

1. (a) If a good is subject to the RVC criterion as set out in Article 3.3 and Annex 3-A, the value of the packaging and packing materials for retail sale shall be taken into account in the determination of its origin, where the packaging and packing materials are considered to be forming a whole with the good.

   (b) If a good is subject to a criterion other than the RVC criterion as set out in Article 3.3 and Annex 3-A, the packaging and packing materials for retail sale shall, if classified together with the packaged good, be disregarded in determining whether all the non-originating materials used in the production of the good satisfy the applicable requirements set out in Article 3.3 and Annex 3-A.
2. Packing materials and containers for transportation of a good shall not be taken into account in determining the origin of the good.

**Article 3.11 : Accessories, Spare Parts and Tools**

The origin of accessories, spare parts, tools, and instructional or other informational materials presented with a good shall not be taken into account in determining the origin of the good, provided that such accessories, spare parts, tools, and instructional or other informational materials are classified with the good and their customs duties are collected with the good by the importing Party.

**Article 3.12 : Neutral Elements**

In order to determine whether a good originates, it shall not be necessary to determine the origin of the following which might be used in its production and not incorporated into the good:

(a) fuel and energy;
(b) tools, dies and moulds;
(c) spare parts and materials used in the maintenance of equipment and buildings;
(d) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
(e) gloves, glasses, footwear, clothing, safety equipment and supplies;
(f) equipment, devices and supplies used for testing or inspecting the good; and
(g) any other good that is not incorporated into the good but of which use in the production of the good can reasonably be demonstrated to be a part of that production.

**Article 3.13 : Identical and Interchangeable Goods or Materials**

1. The determination of whether identical and interchangeable goods or materials are originating can be made by the use of generally accepted accounting principles of inventory management practiced in the territory of the exporting Party.

2. Once a decision has been taken on the inventory management method, that method shall be used throughout the fiscal year.

**Section B : Origin Procedures**
Article 3.14: Certificate of Origin

1. Goods originating in a Party shall, on importation into the other Party, benefit from the preferential tariff treatment under this Agreement on the basis of a Certificate of Origin, a form of which appears in Annex 3-C.

2. Notwithstanding paragraph 1, originating goods within the meaning of this Chapter, in the cases specified in Article 3.17, may benefit from preferential tariff treatment without any Certificate of Origin referred to in paragraph 1.

3. A Certificate of Origin shall be issued by the issuing authority of the exporting Party on application by the producer or exporter or, under its responsibility, by its authorized representative. The Certificate of Origin shall:

   (a) be in a printed A4 size paper and be in the format of Attachment 1 of Annex 3-C. For multiple items declaration, the Parties may use the format of Attachment 2 of Annex 3-C as additional pages to the Certificate of Origin;

   (b) comprise one original and two copies. The original copy shall be forwarded by the producer or exporter to the importer for submission to the customs authority of the importing Party. The duplicate shall be retained by the issuing authority of the exporting Party. The triplicate shall be retained by the producer or exporter;

   (c) be completed in the English language and may cover one or more goods under one consignment;

   (d) be manually or electronically signed, stamped and printed;

   (e) include the description, quantity, and weight of the good, corresponding to the consignment to be exported; and

   (f) have a unique serial reference number given by the issuing authority.

4. A Certificate of Origin shall be issued prior to or on the date of shipment, or within three working days from the date of shipment. In exceptional cases where a Certificate of Origin has not been issued prior to or on the date of shipment, or within three working days from the date of shipment due to involuntary errors, omissions or other valid causes, a Certificate of Origin may be issued retroactively but no later than one year from the date of shipment, bearing the words “ISSUED RETROACTIVELY.”

5. The producer or exporter of a good, or its authorized representative applying for the issuance of a Certificate of Origin, shall be prepared to submit at any time, upon request of the issuing authority of the exporting Party issuing the Certificate of Origin, all appropriate

---

9 For greater certainty, “three working days” shall include the date of shipment itself.
documents proving the originating status of such good in accordance with domestic legislation as well as the fulfilment of the other requirements of this Chapter.

6. In the event of theft, loss or destruction of a Certificate of Origin, the producer or exporter may apply to the issuing authority for a certified true copy of the original to be made out on the basis of the export documents in its possession bearing the endorsement of the words “CERTIFIED TRUE COPY” in box 12 of a Certificate of Origin. This copy shall bear the date of issuance of the original Certificate of Origin. The certified true copy of a Certificate of Origin shall be issued no later than one year from the date of issuance of the original Certificate of Origin.

7. Neither erasures nor superimpositions shall be allowed on a Certificate of Origin. Any alteration shall be made by striking out the erroneous materials and making any addition required. Such alterations shall be approved by an official authorized to sign a Certificate of Origin and certified by the issuing authority. Unused spaces shall be crossed out to prevent any subsequent addition. Alternatively, a new Certificate of Origin may be issued to replace the erroneous Certificate of Origin. The issuing authority shall specify the date of issuance of the originally issued Certificate of Origin in the new Certificate of Origin.

**Article 3.15: Issuing Authority**

1. Each Party shall maintain an updated register of the names and seals of its issuing authority.

2. Each Party shall notify the other Party of the names and the impressions of seals of its issuing authority.

3. Any change to the register shall be notified to the other Party, and shall enter into force 15 days after the date of notification or on a later date indicated in such notification.

4. The issuing authority of each Party shall ensure that:

   (a) the description, quantity, and weight of the good, as specified, correspond to the consignment to be exported; and

   (b) a Certificate of Origin has a unique serial reference number given by the issuing authority.

**Article 3.16: Claims for Preferential Tariff Treatment**

1. Each Party shall provide that an importer may make a claim for preferential tariff treatment based on a Certificate of Origin.

2. Each Party may require that an importer who claims preferential tariff treatment for a good imported into its territory:

   (a) declare in the importation document that the good is an originating good;
(b) have in its possession at the time the declaration referred to in subparagraph 2(a) is made, a Certificate of Origin as described in Article 3.14; and

(c) provide, upon request of the customs authority of the importing Party, the Certificate of Origin, supporting documents such as invoices, the through bill of lading issued in the territory of the exporting Party, and other documents as required in accordance with the domestic laws and regulations of the importing Party.

3. A Certificate of Origin shall be valid for one year after the date of its issuance.

4. Each Party shall provide that, where a good was originating when it was imported into its territory, but the importer did not gain preferential tariff treatment at the time of importation, that importer may, no later than one year after the date of importation, make a claim for preferential tariff treatment and apply for refund of any excess duties paid as a result of the good not having been accorded preferential tariff treatment, on presentation to the importing Party of:

   (a) a Certificate of Origin; and

   (b) any other documentation as the importing Party may require.

Article 3.17: Waiver of Certificate of Origin

A Party shall provide that a Certificate of Origin shall not be required where the customs value of the importation does not exceed 600 U.S. dollars FOB or such higher amount as the importing Party may establish, unless the importing Party considers the importation to be part of a series of importations carried out or planned for the purposes of evading compliance with the Party’s domestic laws and regulations governing claims for preferential tariff treatment under this Agreement.

Article 3.18: Record Keeping Requirements

1. For the purposes of the verification process, the producer or exporter applying for the issuance of a Certificate of Origin shall, subject to the domestic laws and regulations of the exporting Party, keep its supporting records for application for not less than five years from the date of issuance of the Certificate of Origin.

2. The importer shall keep records relevant to the importation in accordance with the domestic laws and regulations of the importing Party.

3. The application for Certificates of Origin and all documents related to such application shall be retained by the issuing authority for not less than five years from the date of issuance.

4. The information related to the validity of a Certificate of Origin shall be furnished
upon request of the importing Party by an official authorized to sign a Certificate of Origin and certified by the appropriate government authorities.

5. Any information communicated between the Parties shall be treated as confidential in accordance with Article 4.6 (Confidentiality) and shall be used for the purposes of the validation of Certificates of Origin only.

**Article 3.19 : Treatment of Minor Discrepancies and Errors**

1. Where the origin of a good is not in doubt, the discovery of minor discrepancies, between the statements made in a Certificate of Origin and those made in the documents submitted to the customs authority of the importing Party for the purposes of carrying out the formalities for importing the good shall not *ipso facto* invalidate the Certificate of Origin, if it does in fact correspond to the good submitted.

2. Upon discovering minor errors in a Certificate of Origin that do not affect the originating status of the goods, the customs authority of the importing Party shall notify the importer of the errors that make the Certificate of Origin unacceptable.

3. The importer shall submit the appropriate correction of the Certificate of Origin or a new Certificate of Origin issued to replace the erroneous Certificate of Origin according to paragraph 7 of Article 3.14 within 30 days following the date of receipt of the notification.

4. If the importer fails to submit the correction or the new Certificate of Origin within the period referred to in paragraph 3, the competent authority of the importing Party may proceed to conduct verification under Article 3.21.

5. For multiple items declared under the same Certificate of Origin, a problem encountered with one of the items listed shall not affect or delay the granting of preferential tariff treatment and customs clearance of the remaining items listed in that Certificate of Origin.

**Article 3.20 : Non-Party Invoice**

The importing Party shall not reject a Certificate of Origin only for the reason that the invoice was issued in the territory of a non-Party.

**Article 3.21 : Verification**

1. The importing Party may request the issuing authority of the exporting Party to conduct a retroactive check at random or when the importing Party has a reasonable doubt as to the authenticity of the document or as to the accuracy of the information regarding the true origin of the good in question or of certain parts thereof, subject to the following procedures:

---

10 For Korea, for the purposes of origin verification under this Article, “the issuing authority” refers to the customs authority in accordance with its customs laws and regulations.
the request of the importing Party for a retroactive check shall be accompanied with the Certificate of Origin concerned and shall specify the reasons and any additional information suggesting that the particulars given on the said Certificate of Origin may be inaccurate, unless the retroactive check is requested on a random basis;

(b) the issuing authority of the exporting Party shall, upon receipt of the origin verification request from the customs authority of the importing Party, promptly provide an acknowledgement of receipt of the request to the requesting authority by email or fax;

(c) the issuing authority of the exporting Party receiving the request for a retroactive check shall promptly respond to the request and provide the result within six months after receipt of the request. Otherwise, the importing Party may deny preferential tariff treatment to the good subject to the retroactive check;

(d) the customs authority of the importing Party may suspend provision of preferential tariff treatment while awaiting the result of verification. However, it may release the good to the importer subject to any administrative measures deemed necessary, provided that they are not held to be subject to import prohibition or restriction and there is no suspicion of fraud; and

(e) the issuing authority of the exporting Party shall promptly transmit the results of the verification process to the importing Party which shall then determine whether or not the subject good is originating. The entire process of the retroactive check, including the process of notifying the issuing authority of the exporting Party of the result of determination on whether or not the good is originating, shall be completed within 10 months. While the process of the retroactive check is being undertaken, subparagraph 1(d) shall be applied.

2. The customs authority of the importing Party may request an importer for information or documents relating to the origin of an imported good in accordance with its domestic laws and regulations before requesting the retroactive check pursuant to paragraph 1.

3. If the importing Party is not satisfied with the outcome of the retroactive check, it may, under exceptional circumstances, request verification visits to the exporting Party.

4. Prior to conducting a verification visit pursuant to paragraph 3:

(a) an importing Party shall deliver a written notification of its intention to conduct the verification visit simultaneously to:

(i) the producer or exporter whose premises are to be visited;
(ii) the issuing authority of the Party in the territory of which the verification visit is to occur;

(iii) the customs authority of the Party in the territory of which the verification visit is to occur; and

(iv) the importer of the good subject to the verification visit;

(b) the written notification mentioned in subparagraph 4(a) shall be as comprehensive as possible and shall include, *inter alia*:

(i) the name of the customs authority issuing the notification;

(ii) the name of the producer or exporter whose premises are to be visited;

(iii) the proposed date of the verification visit;

(iv) the coverage of the proposed verification visit, including reference to the good subject to the verification; and

(v) the names and designation of the officials performing the verification visit.

(c) an importing Party shall obtain the written consent of the producer or exporter whose premises are to be visited;

(d) when a written consent from the producer or exporter is not obtained within 30 days from the date of receipt of the notification pursuant to subparagraph 4(a), the notifying Party may deny preferential tariff treatment to the good referred to in the Certificate of Origin that would have been subject to the verification visit; and

(e) the issuing authority receiving the notification may postpone the proposed verification visit and notify the importing Party of such intention within 15 days from the date of receipt of the notification. Notwithstanding any postponement, any verification visit shall be carried out within 60 days from the date of such receipt, or a longer period as the Parties may agree.

5. The Party conducting the verification visit shall provide the producer or exporter, whose good is subject to such verification, and the relevant issuing authority with a written determination of whether or not the good subject to such verification qualifies as an originating good.

6. Any suspended preferential tariff treatment shall be reinstated upon written determination referred to in paragraph 5 that the good qualifies as an originating good.

7. The producer or exporter shall be allowed 30 days from the date of receipt of the written determination to provide in writing comments or additional information regarding the
eligibility of the good for preferential tariff treatment. If the good is still found to be non-originating, the final written determination shall be communicated to the relevant issuing authority within 30 days from the date of receipt of the comments or additional information from the producer or exporter.

8. The verification visit process, including the actual visit and the determination under paragraph 5 whether the good subject to such verification is originating or not, shall be carried out and its results shall be communicated to the relevant issuing authority within a maximum period of six months from the first day the initial verification visit was conducted. While the process of verification is being undertaken, subparagraph 1(e) shall be applied.

Article 3.22: Denial of Preferential Tariff Treatment

Except as otherwise provided in this Chapter, the importing Party may deny a claim for preferential tariff treatment or recover unpaid duties in accordance with its domestic laws and regulations, where the good does not meet the requirements of this Agreement.

Article 3.23: Implementation of Direct Transport

For the purposes of implementing Article 3.8, where transportation is effected through the territory of one or more intermediate countries, other than those of the exporting Party and the importing Party, the following shall be produced to the relevant government authorities of the importing Party:

(a) a through bill of lading issued in the territory of the exporting Party;
(b) a Certificate of Origin;
(c) a copy of the original commercial invoice in respect of the good; and
(d) other relevant supporting documents, if any, as evidence that the requirements of Article 3.8 are complied with.

Article 3.24: Transitional Provision for Goods in Transit or Storage

The provisions of this Agreement may be applied to goods which comply with the provisions of this Chapter and which, on the date of entry into force of this Agreement, are either in transit, in temporary storage in customs warehouses or in free zones in the Parties, subject to the submission to the customs authorities of the importing Party, within 12 months of that date, of a Certificate of Origin issued retrospectively together with the documents showing that the goods have been transported directly in accordance with Articles 3.8 and 3.23.

Article 3.25: Implementation
The Parties agree to review the origin certification system aside from Certificate of Origin three years from the date of entry into force of this Agreement, taking into due consideration the development of the domestic implementation procedures in the approved exporter system.

ANNEX 3-B

TREATMENT FOR CERTAIN GOODS

1. Origin Conferring

(a) “Certain goods” referred to in Article 3.5 as reflected in the lists referred to in paragraph 7 and any subsequent amendments, which are reimported as the goods that do not undergo any process beyond operations within the territory of the reimporting Party for export as set out in Article 3.7 shall be deemed to be originating in the territory of the Party, provided that the total value of non-originating input\(^1\) does not exceed 40 percent of the FOB price of the final good for which originating status is claimed.

(b) Except as otherwise provided for in this Annex, relevant rules in this Chapter shall be applied, *mutatis mutandis*, to the origin conferring of the goods to which Article 3.5 applies.

2. Specific Procedures for the Implementation of Article 3.5

(a) Certificate of Origin for goods covered by Article 3.5 shall be issued by the issuing authority\(^2\) of the exporting Party in accordance with Section B of this Chapter.

(b) The issuing authority of the exporting Party shall indicate in the Certificate of Origin that the good is covered by Article 3.5.

(c) Except as otherwise provided for in this Annex, the relevant Articles in Section B of this Chapter shall be applied, *mutatis mutandis*, to the goods to which Article 3.5 applies.

(d) Korea shall assist the customs authority of Viet Nam to conduct verification on goods covered by Article 3.5 in accordance with the relevant Articles in Section B of this Chapter.

3. Special Safeguard

(a) When a Party determines that there is an increase of importation of a good covered by Article 3.5 into the territory of that Party in such quantities and under such conditions as to cause, or threaten to cause, serious injury to its domestic industry, that Party shall be free to suspend the application of Article 3.5 to such a good for such a period of time as it may consider necessary to prevent or remedy such injury or threat to cause injury to the

---

\(^1\) "Total value of non-originating input" shall mean the value of any non-originating materials added inside as well as any materials added and all other cost accumulated outside Korea and Viet Nam, including transport costs.

\(^2\) For Korea, for the purposes of this Annex, “issuing authority” means the Korean Customs Authority.
domestic industry of the Party.

(b) A Party that intends to suspend the application of Article 3.5 pursuant to subparagraph (a) shall notify the other Party two months in advance of the start of the suspension period and afford the other Party an opportunity to exchange views with it in respect of the proposed suspension.

(c) The period mentioned in subparagraph (a) may be extended provided that the Party that has taken the action of suspension has determined that the suspension continues to be necessary to prevent or remedy injury.

(d) In critical circumstances, where delay would cause damage which would be difficult to repair, the suspension of the application of Article 3.5 under subparagraph (a) may be taken provisionally without two-month advance notification to the other Party, on the condition that the notification shall be made before such suspension takes effect.

(e) When a Party has made a determination mentioned in subparagraph (a) and the requirements set out in subparagraph (b) are fulfilled, the Party concerned may suspend the application of Article 3.5 unilaterally and unconditionally, including as follows:

(i) there shall be no obligation to prove that there is serious injury;

(ii) there shall be no obligation for advance consultation;

(iii) there shall be no limit to the duration or frequency of suspension; and

(iv) there shall be no obligation for compensation.

4. Annual Review

(a) The Parties shall review the implementation and operation of Article 3.5 in the Joint Committee. For this purpose:

(i) the exporting Party shall provide the Joint Committee with a brief factual report on the operation of Article 3.5, including export statistics of each good listed in paragraph 7 to the importing Party during the previous one-year period; and

(ii) the importing Party shall provide, upon request of the Joint Committee, information pertaining to the denial of claims for preferential tariff treatment, if any, including the number of Certificates of Origin not accepted, and reasons for the denial.

(b) The Joint Committee may request such additional information as it may consider necessary for its review of the implementation and operation of Article 3.5 from the exporting Party.
(c) Taking into account the result of the review provided for in subparagraph (a), the Joint Committee may make recommendations as it may consider necessary.

5. Dispute Settlement

Any dispute concerning the interpretation, implementation or application of this Annex shall not be subject to the procedures and mechanism as set out in Chapter 15 (Dispute Settlement).

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement, and to this end, Articles 4.2(a) and 4.2(b) of the Safeguards Agreement are incorporated into and made a part of this Agreement, mutatis mutandis.
4. Each Party shall ensure that its competent authorities complete any such investigation within one year of the date of initiation.

5. Neither Party may apply a safeguard measure:

   (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

   (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or

   (c) beyond the expiration of the transition period, except with the consent of the other Party.

6. Neither Party may apply a safeguard measure more than once against the same good.

7. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a safeguard measure, the customs duty rate shall be the rate that, according to the Party’s Schedule to Annex 2-A (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

**Article 7.3 : Provisional Measures**

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. Before a Party’s competent authorities may make a preliminary determination, the Party shall publish a public notice setting out how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall provide interested parties at least 20 days after the date it publishes the notice to submit evidence and views regarding the application of a provisional measure. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.

3. The applying Party shall notify the other Party before applying a safeguard measure on a provisional basis, and shall initiate consultations after applying the measure.
4. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 2 and 3 of Article 7.2.

5. The Party shall promptly refund any tariff increase if the investigation described in paragraph 2 of Article 7.2 does not result in a finding that the requirements of Article 7.1 are met. The duration of any provisional measure shall be counted as part of the period described in subparagraph 5(b) of Article 7.2.

Article 7.4 : Compensation

1. No later than 30 days after it applies a safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation through consultations under paragraph 1 within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the safeguard measure.

3. The applying Party’s obligation to provide compensation under paragraph 1 and the other Party’s right to suspend concessions under paragraph 2 shall terminate on the date the safeguard measure terminates.

4. Any compensation shall be based on the total period of application of the provisional safeguard measure and of the safeguard measure.

5. The right of suspension referred to in paragraph 2 shall not be exercised for the first 24 months during which a safeguard measure is in effect, provided that the safeguard measure has been applied as a result of an absolute increase in imports and that the safeguard measure conforms to the provisions of this Agreement.

Article 7.5 : Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if such imports are not a substantial cause of serious injury or threat thereof.

2. Upon request of the other Party, the Party intending to take safeguard measures shall promptly provide written notification of all pertinent information on the initiation of a
safeguard investigation, the preliminary determination and the final finding of the investigation.

3. Neither Party may apply, with respect to the same good, at the same time:

   (a) a safeguard measure; and

   (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

Section B : Anti-dumping and Countervailing Duties

Article 7.6 : General Provisions

1. Except as otherwise provided for in this Agreement, each Party retains its rights and obligations under the WTO Agreement with regard to the application of anti-dumping and countervailing duties.

2. The Parties shall ensure, immediately after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and interested parties shall be allowed sufficient time to make their comments.

3. The Parties shall observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

   (a) when dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the Anti-Dumping Agreement regardless of the comparison bases under Article 2.4.2 of the Anti-Dumping Agreement, all individual margins, whether positive or negative, should be counted toward the average;

   (b) if a decision is taken to impose an anti-dumping duty pursuant to Article 9.1 of the Anti-Dumping Agreement, the Party taking such a decision may apply the ‘lesser duty’ rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry; and

   (c) the investigating Party shall request an exporter or producer in the territory of the other Party for the timely response to its questionnaires. When the investigating Party finds major deficiency in information in a questionnaire response from relevant exporter or producer received before the deadline or requires clarifications for the purposes of investigation, the investigating Party shall demand missing information or request clarification of information concerning the answers to the questionnaires. This procedure shall not be used
Article 7.7: Notification and Consultations

1. Upon receipt by a Party’s competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and no later than 15 days before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting or other similar opportunities regarding the application, consistent with the Party’s domestic laws and regulations.

2. Upon receipt by a Party’s competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to consult with its competent authorities regarding the application.

Article 7.8: Undertakings

1. After a Party’s competent authorities initiate an anti-dumping or countervailing duty investigation, the Party shall transmit to the other Party’s embassy or competent authorities written information regarding the Party’s procedures for requesting its authorities to consider an undertaking on price including the timeframes for offering and concluding any such undertaking if practicable.

2. In an anti-dumping investigation, where a Party’s authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the Party shall afford due consideration, and adequate opportunity for consultations, to exporters of the other Party regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of anti-dumping duties, through the means provided for in the Party’s domestic laws, regulations and procedures.

3. In a countervailing duty investigation, where a Party’s authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration, and adequate opportunity for consultations, to the other Party and exporters of the other Party, regarding proposed undertakings on price, which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, through the means provided for in the Party’s domestic laws, regulations and procedures.

Article 7.9: Investigation after Termination Resulting from a Review

The Parties agree to examine, with special care, any application for initiation of an anti-dumping investigation on a good originating in the other Party and on which anti-dumping measures have been terminated in the previous 12 months as a result of a review. Unless this...
pre-initiation examination indicates that the circumstances have changed, the investigation shall not proceed.

**Article 7.10 : Cumulative Assessment**

When imports from more than one country are simultaneously subject to anti-dumping or countervailing duty investigation, a Party shall examine, with special care, whether the cumulative assessment of the effect of the imports from the other Party is appropriate in light of the conditions of competition between the imported goods and the conditions of competition between the imported goods and the like domestic goods.

**Section C : Committee on Trade Remedies**

**Article 7.11 : Committee on Trade Remedies**

1. The Parties hereby establish a Committee on Trade Remedies (hereinafter referred to as the “Committee”), comprising representatives at an appropriate level from relevant agencies of each Party who have responsibility for trade remedies matters, including anti-dumping, subsidies and countervailing measures, and safeguards issues.

2. The functions of the Committee shall include:

   (a) enhancing a Party’s knowledge and understanding of the other Party’s trade remedies laws, regulations, policies and practices;

   (b) overseeing the implementation of this Chapter;

   (c) improving cooperation between the Parties’ authorities having responsibility for matters on trade remedies;

   (d) providing a forum for the Parties to exchange information on issues relating to anti-dumping, subsidies and countervailing measures and safeguards;

   (e) providing a forum for the Parties to discuss other relevant topics of mutual interest including:

      (i) international issues relating to trade remedies, including issues relating to the WTO Doha Round Rules negotiations; and

      (ii) practices by the Parties’ competent authorities in anti-dumping and countervailing duty investigations such as the application of “facts available” and verification procedures; and

   (f) cooperating on any other matter that the Parties agree as necessary.
3. The Committee shall meet at least once a year and may meet more frequently as the Parties may agree.

Section D : Definitions

Article 7.12 : Definitions

For the purposes of this Chapter:

**safeguard measure** means a measure described in Article 7.1;

**serious injury** means a significant overall impairment in the position of a domestic industry;

**substantial cause** means a cause that is important and not less than any other cause;

**threat of serious injury** means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

**transition period** means the ten-year period following the date this Agreement enters into force, except that for any good for which the Schedule to Annex 2-A (Reduction or Elimination of Customs Duties) of the Party applying the safeguard measure provides for the Party to eliminate its tariffs on the good over a period of more than ten years, **transition period** means the tariff elimination period for the good set out in that Schedule.
CHAPTER 8
TRADE IN SERVICES

Article 8.1 : Scope

1. This Chapter shall apply to measures by a Party affecting trade in services. Such measures include measures in respect of:

   (a) the purchase or use of, or payment for a service;

   (b) the access to and use of, relating to the supply of a service, services which are required by a Party to be offered to the public generally; and

   (c) the presence, including commercial presence, in its territory of a service supplier of the other Party.

2. For the purposes of this Chapter, measures by a Party means measures taken by:

   (a) central or local governments or authorities; and

   (b) non-governmental bodies in the exercise of powers delegated by central or local governments or authorities.

3. This Chapter shall not apply to:

   (a) a service supplied in the exercise of the governmental authority within the territory of each Party;

   (b) measures affecting air traffic rights, however granted, or measures affecting services directly related to the exercise of air traffic rights, other than measures affecting:

       (i) aircraft repair and maintenance services;

       (ii) the selling and marketing of air transport services; and

       (iii) computer reservation system services;

   (c) cabotage in maritime transport services;

   (d) subsidies or grants provided by a Party, or to any conditions attached to the receipt or continued receipt of such subsidies or grants, except as provided for in Article 8.16; or

   (e) measures affecting natural persons seeking access to the employment market of a Party and measures regarding citizenship, residence or employment on a permanent basis.
4. Nothing in this Chapter shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in a manner to nullify or impair the benefits\(^1\) accruing to the other Party under the terms of a specific commitment.

5. Articles 8.2 through 8.4 shall not apply to laws, regulations or requirements governing the procurement by government agencies of services purchased for governmental purposes and not with a view to commercial resale or with a view to use in the supply of services for commercial sale.

**Article 8.2 : National Treatment**

In the sectors inscribed in its Schedule of Specific Commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party in respect of all measures affecting the supply of services, treatment no less favorable than that it accords, in like circumstances, to its own services and service suppliers.

**Article 8.3 : Most-Favored-Nation Treatment**

1. If, after this Agreement enters into force, a Party enters into any agreement on trade in services with a non-Party in which it provides treatment to services or service suppliers of that non-Party more favorable than that it accords, in like circumstances, to services or service suppliers of the other Party under this Agreement, the other Party may request consultations to discuss the possibility of extending, under this Agreement, treatment no less favorable than that provided under the agreement with the non-Party. The requested Party shall enter into consultations with the requesting Party bearing in mind the overall balance of benefits.

2. The treatment, as set out in paragraph 1, shall not include any preferential treatment accorded to services or service suppliers under:

   (a) any existing bilateral, regional or international agreements with any non-Party; or

   (b) any bilateral or plurilateral agreement among ASEAN Member States.

**Article 8.4 : Market Access**

---

\(^1\) The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying or impairing benefits under a specific commitment.
1. With respect to the market access through the modes of supply of trade in services defined in Article 8.20, a Party shall accord services and service suppliers of the other Party treatment no less favorable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments.²

2. In sectors where market access commitments are undertaken, the measures which a Party shall not adopt or maintain either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule of Specific Commitments, are defined as:

(a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

(b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;³

(d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

Article 8.5 : Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Article 8.2 or 8.4, including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party’s Schedule of Specific Commitments.

² If a Party undertakes a market access commitment relating to the supply of a service through the mode of supply referred to in subparagraph (a) of “trade in services” defined in Article 8.20 and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allowing such movement of capital. If a Party undertakes a market access commitment relating to the supply of a service through the mode of supply referred to in subparagraph (c) of “trade in services” defined in Article 8.20, it is thereby committed to allowing related transfers of capital into its territory.

³ This subparagraph does not cover measures of a Party which limit inputs for the supply of services.
Article 8.6 : Schedules of Specific Commitments

1. Each Party shall set out in a Schedule the Specific Commitments it undertakes under Articles 8.2, 8.4, and 8.5. With respect to sectors where such commitments are undertaken, each Schedule shall specify:

   (a) terms, limitations and conditions on market access;
   (b) conditions and qualifications on national treatment;
   (c) undertakings relating to additional commitments;
   (d) where appropriate, the timeframe for implementation of such commitments; and
   (e) the date of entry into force of such commitment.

2. Measures inconsistent with Article 8.2 shall be inscribed in the column relating to Article 8.2, and measures inconsistent with Article 8.4 shall be inscribed in the column relating to Article 8.4.

3. The Schedules of Specific Commitments shall be annexed to this Chapter and shall form an integral part thereof.

Article 8.7 : Transparency

Further to Chapter 14 (Transparency):

(a) each Party shall establish or maintain appropriate mechanisms for responding to inquiries from the other Party regarding its regulations of general application relating to the subject matter of this Chapter;

(b) if, consistent with paragraphs 2 and 4 of Article 14.1 (Publication), a Party does not publish in advance, and provide opportunity for comment on, regulations of general application it proposes to adopt relating to the subject matter of this Chapter, it shall, upon request in writing by the other Party, address in writing, to the extent possible, the reasons for not doing so; and

(c) in accordance with its domestic laws and regulations, each Party shall allow a reasonable period of time between publication of final regulations of general application relating to the subject matter of this Chapter and their effective date.

Article 8.8 : Domestic Regulation
1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. (a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, upon request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorization is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under its domestic laws and regulations, inform the applicant of the decision concerning the application. Upon request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

4. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Joint Committee shall, through appropriate bodies it may establish, develop any necessary disciplines. Such disciplines shall aim to ensure that such requirements are, inter alia:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. (a) In sectors in which a Party has undertaken specific commitments, pending the entry into force of disciplines developed in these sectors pursuant to paragraph 4, the Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific commitments in a manner which:

(i) does not comply with the criteria outlined in subparagraph 4(a), (b) or (c); and

(ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.
(b) In determining whether a Party is in conformity with the obligation under subparagraph (a), account shall be taken of international standards of relevant international organizations applied by that Party.

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

**Article 8.9: Recognition**

1. For the purposes of fulfillment of its respective standards or criteria for the authorization, licensing or certification of service suppliers, each Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in the other Party. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement between the Parties or the relevant competent bodies or may be accorded autonomously.

2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in the other Party’s territory should be recognized.

3. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing or certification of service suppliers, or a disguised restriction on trade in services.

4. Each Party shall endeavor:

   (a) within 12 months from the date on which this Agreement enters into force, to inform the Joint Committee of its existing recognition measures and state whether such measures are based on the agreements or arrangements of the type referred to in paragraph 1;

   (b) to promptly inform the Joint Committee as far in advance as possible of the opening of negotiations on an agreement or arrangement of the type referred to in paragraph 1 in order to provide adequate opportunity to the other Party to indicate its interest in participating in the negotiations before they enter a substantive phase; and

---

4 The term "relevant international organizations" refers to international bodies whose membership is open to the relevant bodies of at least all Members of the WTO.
(c) to promptly inform the Joint Committee when it adopts new recognition measures or significantly modifies existing ones and state whether the measures are based on an agreement or arrangement of the type referred to in paragraph 1.

5. Wherever appropriate, recognition should be based on multilaterally agreed criteria. In appropriate cases, the Parties shall work in cooperation with relevant intergovernmental and non-governmental organizations towards the establishment and adoption of common international standards and criteria for recognition and common international standards for the practice of relevant services trades and professions.

Article 8.10 : Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party’s specific commitments under this Chapter.

2. Where a Party’s monopoly supplier competes, either directly or through an affiliated juridical person, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party’s specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has a reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorizing such supplier to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

   (a) authorizes or establishes a small number of service suppliers; and

   (b) substantially prevents competition among those suppliers in its territory.

Article 8.11 : Business Practices

1. The Parties recognize that certain business practices of service suppliers, other than those falling under Article 8.10, may restrain competition and thereby restrict trade in services.

2. Each Party shall, upon request of the other Party (hereinafter referred to as the “requesting Party”), enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed (hereinafter referred to as the “requested Party”), shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The requested Party shall also provide other information available to the requesting
Party, subject to its domestic laws and regulations and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

**Article 8.12 : Payments and Transfers**

1. Except under the circumstances envisaged in Article 8.13, a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

2. Nothing in this Agreement shall affect the rights and obligations of any Party who is a member of the International Monetary Fund (hereinafter referred to as “IMF”) under the Articles of Agreement of the International Monetary Fund, including the use of exchange actions which are in conformity with the Articles of Agreement of the International Monetary Fund, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.13 or upon request of the IMF.

**Article 8.13 : Restrictions to Safeguard the Balance of Payments**

1. Where a Party is in serious balance of payments and external financial difficulties or threat thereof, it may adopt or maintain restrictions on trade in services in accordance with Article XII of GATS.

2. Any restriction adopted or maintained under paragraph 1, or any changes therein, shall be promptly notified to the other Party.

**Article 8.14 : Denial of Benefits**

1. A Party may deny the benefits of this Chapter:

   (a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;

   (b) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

      (i) by a vessel registered under the laws and regulations of a non-Party; and

      (ii) by a person of a non-Party which operates or uses the vessel in whole or in part; and

5 For greater certainty, Annex 9-C (Transfers) shall apply to this Article.
2. A Party may deny the benefits of this Chapter to a service supplier that is a juridical person of the other Party:

   (a) if the juridical person is owned or controlled by a person or persons of a non-Party and the denying Party adopts or maintains measures with respect to the non-Party or a person or persons of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person; or

   (b) if the juridical person is owned or controlled by a person or persons of a non-Party or the denying Party and the juridical person has no substantial business activities in the territory of the other Party.

3. The denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party upon the other Party’s request.

Article 8.15: Consultations for Safeguard

In the event that the implementation of this Chapter causes substantial adverse impact to a service sector of a Party, the affected Party may request consultations with the other Party for the purposes of discussing any measure with respect to the affected service sector. Any measure taken pursuant to this Article shall be mutually agreed by the Parties. The other Party shall take into account the circumstances of the particular case and give sympathetic consideration to the Party seeking to take a measure.

Article 8.16: Subsidies

1. If subsidies or grants by a Party significantly affect trade in services committed under this Chapter, the other Party may request consultations with a view to an amicable resolution of this matter.

2. Pursuant to this Chapter, a Party shall, upon request by the other Party, provide information on subsidies related to trade in services committed under this Chapter to the other Party.

Article 8.17: Modification of Schedules

1. A Party may modify or withdraw any commitment in its Schedule of Specific Commitments, at any time after three years have elapsed from the date on which that commitment has entered into force, provided that:
(a) it notifies the other Party of its intention to modify or withdraw a commitment no later than three months before the intended date of implementation of the modification or withdrawal; and

(b) it enters into negotiations with the other Party to agree to the necessary compensatory adjustment.

2. In achieving a compensatory adjustment, the Parties shall ensure that the general level of mutually advantageous commitment is not less favorable to trade than that provided for in the Schedules of Specific Commitments prior to such negotiations.

Article 8.18 : Miscellaneous Provisions

Annexes 8-A through 8-D and all future legal instruments agreed pursuant to this Chapter shall form an integral part of this Agreement.

Article 8.19 : Renegotiation Based on the Negative List Approach

1. If, after the entry into force of this Agreement, a Party ratifies any agreement on trade in services adopting a negative list approach with a non-Party, or non-Parties, the other Party may request the former to renegotiate the Chapters with the Annexes relating to trade in services and investment based on a negative list approach.

2. Upon such request, and subject to each Party’s domestic procedures and requirements, the Parties shall enter into negotiations with an objective of concluding the negotiations within one year.

3. The Parties shall undertake the negotiations taking into account the overall balance of benefits between the Parties in the mutually agreed areas. At any event, the Parties shall not decrease the level of liberalization commitments of this Agreement at the negotiations.

4. Neither Party shall have recourse to Chapter 15 (Dispute Settlement) for any matter arising under this Article.

(b) Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual service consumers or any confidential or proprietary information in the possession of public entities.

(c) Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of the other Party and of financial instruments.

ANNEX 8-B

TELECOMMUNICATIONS

1. Scope

(a) This Annex shall apply to measures adopted or maintained by a Party affecting trade in public telecommunications transport networks and services.

(b) Except to ensure that service suppliers operating broadcast stations and cable systems have continued access to and use of public telecommunications transport networks or services, this Annex shall not apply to any measure relating to broadcast or cable distribution of radio or television programming.

(c) Nothing in this Annex shall be construed to:

(i) require a Party, or require a Party to compel any service supplier, to establish, construct, acquire, lease, operate, or provide telecommunications transport networks or services not offered to the public generally; or

(ii) require a Party to compel any service supplier exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications transport network.

2. Access and Use

(a) Each Party shall ensure that service suppliers of the other Party have access to and use of any public telecommunications transport network and service, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions, including those set out in subparagraphs (b) through (f).

(d) Notwithstanding subparagraph (c), a Party may take such measures as are necessary to ensure the security and confidentiality of messages, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

(e) Each Party shall ensure that no condition is imposed on access to and use of public telecommunications transport networks and services, other than as necessary to:

(i) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally;

(ii) protect the technical integrity of public telecommunications transport networks or services; or

(iii) ensure that service suppliers of the other Party do not supply services unless permitted pursuant to commitments in that Party’s Schedule of Specific Commitments.

3. Competitive Safeguards

(a) Each Party shall prevent suppliers of public telecommunications transport networks or services who, alone or together, are major suppliers in its territory, from engaging in or continuing anti-competitive practices.

(b) The anti-competitive practices referred to in this paragraph shall include:

(i) engaging in anti-competitive cross-subsidization;

(ii) using information obtained from competitors with anti-competitive results; and

(iii) not making available to other suppliers of telecommunications transport networks or services, in a timely fashion, technical information about essential facilities or commercially relevant information, which is necessary for such suppliers to provide public telecommunications transport networks or services.

4. Licensing Process

(a) When a Party requires a supplier of public telecommunications transport networks or services to have a license, the Party shall make publicly available:

(i) all the licensing criteria and procedures it applies;

(ii) the period it normally requires to reach a decision concerning an application for a license; and

(iii) the terms and conditions of all licenses in effect.

(b) Each Party shall ensure that, upon request, an applicant receives the reasons for the denial of a license.
5. **Interconnection**

(a) Each Party shall ensure that major suppliers in its territory provide interconnection to suppliers of public telecommunications transport networks or services of the other Party at any technically feasible point in the major supplier’s network. Such interconnection shall be:

(i) provided in a timely fashion, on terms and conditions (including technical standards and specifications), and at cost-oriented rates, that are reasonable (having regard to economic feasibility), non-discriminatory and transparent;

(ii) sufficiently unbundled, such that the supplier of public telecommunications transport networks or services seeking interconnection need not pay for network components or facilities that it does not require for the service to be provided;

(iii) of a quality no less favorable than that provided for the major supplier’s own like services, or for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates; and

(iv) provided upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

(b) Each Party shall ensure that the terms, conditions and rates (including technical standards and specifications) for interconnection between major suppliers in its territory and suppliers of public telecommunications transport networks or services of the other Party are able to be established (at least):

(i) through commercial negotiation; or

(ii) by reference to a set of standard terms, conditions and rates that the major supplier offers generally to other suppliers of public telecommunications transport networks or services, and that are approved or set out by a telecommunications regulatory body.

(c) Each Party shall ensure that the procedures for interconnection with major suppliers in its territory are published or otherwise made publicly available.

---

3 With respect to sub-subparagraphs (i) through (iii) of subparagraph (a), Korea may permit major suppliers to offer rates, terms, and conditions to non-facilities-based suppliers of public telecommunications transport services that are less favorable than those offered to facilities-based suppliers of public telecommunications transport networks or services. For greater certainty, Korea shall ensure that a non-facilities-based supplier of public telecommunications transport services may have recourse, as provided in paragraph 13, to the telecommunications regulatory body regarding disputes over such rates, terms, and conditions. Sub-subparagraph (iv) of subparagraph (a) does not apply to Korea with respect to non-facilities-based suppliers of public telecommunications transport services.
(d) Each Party shall ensure that suppliers of public telecommunications transport networks or services in its territory take reasonable steps to protect the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of public telecommunications transport networks or services obtained as a result of interconnection arrangements and only use such information for the purposes of providing these services.

6. Colocation

(a) Each Party shall ensure that major suppliers in its territory:

(i) provide to suppliers of public telecommunications transport networks or services of the other Party that are facilities-based suppliers in the territory of that Party, physical colocation of equipment necessary for interconnection; and

(ii) in situations where physical colocation referred to in sub-subparagraph (i) is not practical for technical reasons or because of space limitations, cooperate with suppliers of public telecommunications transport networks or services of the other Party that are facilities-based suppliers in the territory of that Party, to find and implement a practical and commercially viable alternative solution.

(b) Each Party shall ensure that major suppliers in its territory provide the physical colocation or practical and commercially viable alternative solution referred to in subparagraph (a) in a timely fashion and on terms and conditions (including technical standards and specifications), and at rates, that are reasonable (having regard to economic feasibility), non-discriminatory and transparent.

(c) Each Party may determine, in accordance with its domestic laws and regulations, the locations at which it requires major suppliers in its territory to

---

4 For Viet Nam, colocation may not be applied to essential telecommunications infrastructures such as submarine cable landing station, and international gateway. Essential telecommunications infrastructures would be stipulated by competent regulatory body. This obligation applies three years after the date it is duly reflected in Viet Nam’s domestic laws and regulations. This paragraph does not apply to Korea with respect to non-facilities-based suppliers of public telecommunications transport services.

5 Such solutions may include:

(a) permitting facilities-based suppliers to locate equipment in a nearby building and to connect such equipment to the major supplier’s network;

(b) conditioning additional equipment space or virtual colocation;

(c) optimizing the use of existing space; and

(d) finding adjacent space.
provide the physical colocation or the practical and commercially viable alternative solutions referred to in subparagraph (a).

7. **Leased Circuits Services**

Each Party shall, unless it is not technically feasible, ensure that major suppliers in its territory make leased circuits services (that are public telecommunications transport services) available to suppliers of public telecommunications transport networks or services of the other Party in a timely fashion and on terms and conditions (including technical standards and specifications), and at rates, that are reasonable (having regard to economic feasibility), non-discriminatory and transparent.

8. **Resale**

Each Party shall ensure that a major supplier in its territory does not impose unreasonable or discriminatory conditions or limitations on the resale of its public telecommunications transport networks or services.

9. **Number Portability**

Each Party shall ensure that suppliers of public telecommunications transport networks or services in its territory provide number portability for mobile phone services to the extent technically and economically feasible, and on reasonable terms and conditions.

10. **Telecommunications Regulatory Body**

   (a) Each Party shall establish or maintain, as part of its domestic legal framework, a telecommunications regulatory body.

   (b) Each Party shall ensure that every telecommunications regulatory body that it establishes or maintains is separate from, and not accountable to, any supplier of public telecommunications transport networks or services.

   (c) Each Party shall ensure that the functions and responsibilities of the telecommunications regulatory body or bodies, which shall include enforcement of the commitments set out in paragraph 5, and all of its decision making powers shall be set out in its domestic laws and regulations.

---

6 For Viet Nam, this obligation applies three years after the date it is duly reflected in Viet Nam's domestic laws and regulations. Korea may permit major suppliers to offer rates, terms, and conditions to non-facilities-based suppliers of public telecommunications transport services that are less favorable than those offered to facilities-based suppliers of public telecommunications transport networks or services. For greater certainty, Korea shall ensure that a non-facilities-based supplier of public telecommunications transport services may have recourse, as provided in paragraph 13, to the telecommunications regulatory body regarding disputes over such rates, terms, and conditions.

7 For Viet Nam, resale can be provided when a service supplier has a license to provide such service.

8 This obligation applies three years after the date it is duly reflected in Viet Nam's domestic laws and regulations.
(d) Each Party shall ensure that the decisions of, and the procedures used by, its telecommunications regulatory body or bodies are impartial with respect to all interested persons.

(e) Each Party shall ensure that any supplier of public telecommunications transport networks or services of the other Party that is aggrieved, or whose interests are adversely affected by a determination or decision of a telecommunications regulatory body of that Party, may obtain review of the determination or decision by an administrative, arbitral or judicial tribunal or authority or according to administrative, arbitral or judicial procedures. Where such procedures are not independent of the telecommunications regulatory body, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

11. Universal Service

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

12. Allocation and Use of Scarce Resources

(a) Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

(b) Each Party shall make publicly available the current state of allocated frequency bands but retains the right not to provide detailed identification of frequencies allocated or assigned for specific government uses.

(c) A Party’s measures allocating and assigning spectrum and managing frequency are not measures that are per se inconsistent with Article 8.4. Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications transport services, provided it does so in a manner consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

13. Resolution of Telecommunications Disputes

(a) Each Party shall ensure that suppliers of public telecommunications transport networks or services of the other Party may have timely recourse to its telecommunications regulatory body or dispute settlement body to settle disputes in accordance with its domestic laws and regulations.
(b) Each Party shall ensure that any supplier of public telecommunications transport networks or services aggrieved by a final determination or decision of its relevant telecommunications regulatory body may obtain an independent judicial review of such determination or decision in accordance with its domestic laws and regulations. Neither Party shall permit such review to constitute grounds for non-compliance with such determination or decision of the body unless the relevant judicial authority withholds, suspends or repeals such determination or decision.

14. Transparency

Further to Article 14.1 (Publication), each Party shall ensure that relevant information on conditions affecting access to and use of public telecommunications transport networks and services is publicly available, including:

(a) tariffs and other terms and conditions of service;
(b) specifications of technical interfaces with such networks and services;
(c) information on bodies responsible for preparing, amending, and adopting standards related measures;
(d) conditions applying to attachment of terminal or other equipment to public telecommunications transport networks; and
(e) notification, permit, registration, or licensing requirements, if any.

15. Relation to International Organizations and Agreements

The Parties recognize the importance of international standards for global compatibility and inter-operability of telecommunication networks and services and undertake to promote such standards through the work of relevant international bodies, including the International Telecommunication Union and the International Organization for Standardization.

(a) This Annex shall apply to measures affecting the movement of natural persons of a Party falling under the categories specified in Annex 8-D by the other Party into the territory of the other Party.

(b) This Annex shall not apply to measures affecting natural persons of a Party seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, residence or employment on a permanent basis.

(c) Nothing in this Annex shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in a manner to nullify or impair the benefits accruing to the other Party under this Annex.

(d) The sole fact that a Party requires natural persons of the other Party to obtain an immigration formality shall not be regarded as nullifying or impairing the benefits accruing to the other Party under this Annex, or as unduly impairing or delaying trade in goods or services or the conduct of investment activities under this Agreement.

2. Objective

The objective of this Annex is to provide for rights and obligations additional to those set out in this Chapter in relation to the movement of natural persons between the Parties for business purposes.

3. Application Procedures

(a) As expeditiously as possible after receipt of a complete application for an immigration formality, each Party shall make a decision on the application and inform the applicant of the decision including, if approved, the period of stay and other conditions.

(b) Upon request of an applicant, a Party in receipt of a complete application for an immigration formality shall promptly provide, without undue delay, information concerning the status of the application. Each Party shall notify the applicant for temporary entry, either directly or indirectly through his/her employer, of the outcome of the final determination, including the period of stay and other conditions. In the case of an incomplete application, the Party
shall notify the applicant of all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies.

(c) If an application is denied, each Party shall, to the maximum extent possible, inform the applicant of the reasons for such action in writing and without delay. The applicant will have the possibility of resubmitting, at its discretion, a new application.

(d) Any fees imposed in respect of the processing of an immigration formality shall be reasonable and in accordance with domestic laws and regulations of each Party, so as to avoid unduly impairing or delaying trade in goods or services or conduct of investment activities under this Agreement.

4. **Conditions and Limitations for the Movement of Natural Persons**

(a) Each Party shall set out, in Annex 8-D, its specific commitments with regard to the movement of natural persons of the other Party into its territory, which shall specify the conditions and limitations for entry and temporary stay, including length of stay, for each category of natural persons.

(b) Each Party shall ensure natural persons covered by a specific commitment referred to in subparagraph (a) above to be granted entry and temporary stay in accordance with the terms and conditions of the specific commitments set out in Annex 8-D, provided that the natural persons comply with immigration laws and regulations applicable to entry and temporary stay.

(c) The sole fact that a Party grants temporary entry to a natural person of the other Party pursuant to this Annex shall not be construed to exempt that natural person from meeting any applicable licensing or other requirements, to practise a profession or otherwise engage in business activities.

5. **Transparency**

(a) Each Party shall publish or otherwise make available to the other Party on the date of entry into force of this Agreement, information on application requirements and procedures relating to its specific commitments with respect to movement of natural persons of the other Party for the grant of entry into, temporary stay in or renewal thereof, the former Party.

(b) Each Party shall maintain or establish contact points or other mechanisms to respond to inquiries from the other Party regarding regulations affecting the movement of natural persons.

(c) In accordance with its domestic laws and regulations, each Party shall allow a reasonable period of time between publication of regulations affecting the movement of natural persons and their effective date.
(d) Within three months from the date of entry into force of this Agreement, the Parties shall exchange information on current procedures relating to the processing of applications for temporary entry.

(e) Each Party shall endeavor to promptly inform the other Party of the introduction of any new requirement and procedure, or change in any existing requirement and procedure referred to in subparagraph (a) that affects the effective application by natural persons of the other Party for the grant of entry into, initial temporary stay in or renewal thereof, the former Party.

6. Dispute Settlement

(a) A Party shall not have recourse to Chapter 15 (Dispute Settlement) regarding a refusal to grant temporary entry under this Annex unless:

(i) the matter involves a pattern of practice; and

(ii) the natural persons affected have exhausted all available domestic administrative remedies regarding the particular matter.

(b) The remedies referred to in sub-subparagraph (ii) of subparagraph (a) shall be deemed to be exhausted if a final determination in the matter has not been issued by the other Party within a reasonable period of time after the date of the institution of proceedings for the remedy, including any proceeding for review or appeal, and the failure to issue such a determination is not attributable to delays caused by the natural persons concerned.

7. Committee on Movement of Natural Persons

(a) The Parties hereby establish a Committee on Movement of Natural Persons (hereinafter referred to as the “Committee”) comprising representatives of each Party, including immigration officials. Unless otherwise agreed by the Parties, the Committee shall convene once a year.

(b) The Committee shall:

(i) establish procedures to exchange information on measures that affect the temporary entry of natural persons under this Annex;

(ii) consider the development of measures to further facilitate temporary entry of natural persons under this Annex;

(iii) consider the implementation and administration of this Annex;

(iv) share information, upon request of a Party and based on agreement between the Parties, on the issues relating to the entry and temporary stay of natural persons subject to respective domestic laws and regulations; and
(v) discuss any other issue of interest raised by a Party, as mutually agreed.

8. Cooperation

Recognizing that the Parties can benefit by sharing their diverse experience in developing and applying procedures related to visa processing, border security and administration of the natural persons, the Parties shall consider undertaking mutually agreed cooperation activities, subject to available resources, including by:

(a) providing advice on the development and implementation of electronic processing systems for visas;
(b) sharing information on the regulations and technology as well as experiences on the implementation of programs with respect to border security and administration of the natural persons; and
(c) cooperating in multilateral fora to promote processing enhancements, such as those listed in subparagraphs (a) and (b).

9. Definitions

For the purposes of this Annex:

immigration formality means a visa, permit, pass or other document or electronic authority granting a natural person of one Party entry into and temporary stay in, the territory of the other Party; and

movement of natural person means temporary entry into the territory of a Party by a natural person of the other Party without the intent to establish permanent residence.

Explanation on Financial Services

1. Financial sectors are basically re-classified according to the category of Annex 8-A. Therefore the order of sub-sectors is different from that of the commitment in GATS/SC/48/Suppl.3/Rev.1.

2. Specific statements in the sub-sectors apply only to existing domestic financial services.

7. FINANCIAL SERVICES

   All financial services are subject to the following provisions.

   (1) For prudential reasons within the context of paragraph 2(a) of Annex 8-A, Korea shall not be prevented from taking measures including requirements related to parent companies, the minimum capital requirement, minimum operating funds requirement, business worker’s license and approval for business activities.

   (2) A financial institution must be established for only one business defined in related law and thus cannot engage in other business activities regulated by other relevant laws.

   (3) Cross-border supply of financial services and supply through consumer movement shall not be settled in Korean Won. After the establishment of a commercial presence, financial institutions may handle only transactions, denominated and settled in Korean Won, with residents. Approval is required for transactions denominated or settled in foreign currency or transactions with non-residents.

   (4) Assets owned by branches must be kept within the territory of Korea. Capital of the head office is not recognized as the basis for determining the extent of funding and lending activities of domestic branches.

   (5) Demand deposit interest rates are regulated.

   (6) The management and operation of assets of a financial institution are restricted.

   (7) A financial institution may not own non-business real estate.

   (8) Introduction of new financial products including derivatives is subject to approval.

ATTACHMENT 1 : REFERENCE PAPER

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and

(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or

(b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidization;

(b) using information obtained from competitors with anti-competitive results; and

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.
2. **Interconnection**

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 **Interconnection to be ensured**

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 **Public availability of the procedures for interconnection negotiations**

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 **Transparency of interconnection arrangements**

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 **Interconnection: dispute settlement**

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time or

(b) after a reasonable period of time which has been made publicly known

...
conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. **Universal service**

   Either Party has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.

4. **Public availability of licensing criteria**

   Where a licence is required, the following will be made publicly available:

   (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and

   (b) the terms and conditions of individual licences.

   The reasons for the denial of a licence will be made known to the applicant upon request.

5. **Independent regulators**

   The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. **Allocation and use of scarce resources**

   Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

REFERENCE PAPER

I. SCOPE

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and
(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or
(b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidization;
(b) using information obtained from competitors with anti-competitive results; and
(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time; or

(b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Party has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and

(b) the terms and conditions of individual licenses.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

INVESTMENT

Section A : Investment

Article 9.1 : Scope

1. This Chapter shall apply to measures adopted or maintained by a Party relating to:

   (a) investors of the other Party;

   (b) covered investments; and

   (c) with respect to Article 9.9, all investments in the territory of the Party.¹

2. For greater certainty, this Chapter does not bind either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.

3. This Chapter shall not apply to:

   (a) measures adopted or maintained by a Party relating to government procurement;

   (b) subsidies or grants provided by a Party or to any condition attached to the receipt or continued receipt of such subsidies or grants, except for Article 9.9, whether or not such subsidies or grants are offered exclusively to domestic investors or investments; or

   (c) measures adopted or maintained by a Party affecting the supply of services by a service supplier of the other Party in its territory pursuant to Chapter 8 (Trade in Services) regardless of whether or not specific services sectors² are scheduled in the Party’s Schedule of Specific Commitments in Annex 8-D (Schedule of Specific Commitments).

4. Notwithstanding subparagraph 3(c), Articles 9.5 through 9.8 and 9.14, and Section B³ shall apply, mutatis mutandis, to any measure affecting the supply of service by a service

¹ For greater certainty, an investor of a non-Party shall not claim any right based on this Chapter.

² For the purposes of the relationship between Chapter 8 (Trade in Services) and this Chapter, the Parties confirm that services encompass any service in any sector including, but not limited to those classified in service sectors, subsectors and activities under the Services Sectoral Classification List of the WTO contained in the document MTN.GNS/W/120, dated 10 July 1991.

³ For greater certainty, the Annexes and exceptions to the above mentioned Articles are an integral part of this paragraph.
supplier of a Party through commercial presence\(^4\) in the territory of the other Party pursuant to the provisions of Chapter 8 (Trade in Services), only to the extent that they relate to a covered investment.

**Article 9.2 : Relation to Chapter 8 (Trade in Services)**

In the event of any inconsistency between this Chapter and Chapter 8 (Trade in Services), Chapter 8 (Trade in Services) shall prevail to the extent of the inconsistency.

**Article 9.3 : National Treatment**

Each Party shall accord to investors of the other Party, and to their covered investments, treatment no less favorable than that it accords, in like circumstances, to its own investors and investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

**Article 9.4 : Most-Favored-Nation Treatment**

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.

2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. The treatment, as set out in paragraphs 1 and 2, shall not include:

   (a) any preferential treatment accorded to investors or their investments under any existing bilateral, regional or international agreements or any forms of economic or regional cooperation with any non-Party; and

   (b) any existing or future preferential treatment accorded to investors or their investments in any agreement or arrangement between or among ASEAN Member States.

4. Notwithstanding paragraphs 1 and 2, if a Party accords more favorable treatment to investors of any non-Party or their investments by virtue of any future agreements or arrangements to which the Party is a party, it shall not be obliged to accord such treatment to investors of the other Party or their investments. However, upon request of the other Party, it shall accord adequate opportunity to negotiate the benefits granted therein.

\(^4\) Commercial presence shall have the same meaning as that in Chapter 8 (Trade in Services).
Article 9.5 : Standard of Treatment

1. Each Party shall accord to covered investments fair and equitable treatment and full protection and security in accordance with customary international law.

2. The concepts of “fair and equitable treatment” and “full protection and security” in this Article do not require treatment in addition to or beyond that which is required by the applicable rules of customary international law and do not create additional substantive rights. For greater certainty:

   (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil or administrative adjudicatory proceedings in accordance with the principle of due process; and

   (b) “full protection and security” requires each Party to provide the level of police protection related to physical security of covered investments required under customary international law.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 9.6 : Compensation for Losses

1. Each Party shall accord to investors of the other Party, and to covered investments, treatment no less favorable than that accorded, in like circumstances, to its own investors or to investors of any non-Party, with respect to measures it adopts or maintains relating to losses suffered by investments in its territory due to war or other armed conflict, or revolt, insurrection, riot, or other civil strife.

2. Notwithstanding paragraph 1, if an investor of a Party, in the situations referred to in paragraph 1, suffers a loss in the territory of the other Party resulting from:

   (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or

   (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be prompt, adequate, and effective.

Article 9.7 : Expropriation and Compensation

5 This Article shall be interpreted in accordance with Annex 9-A.
6 This Article shall be interpreted in accordance with Annex 9-B.
1. Neither Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization (hereinafter referred to as “expropriation”), except:

(a) for a public purpose;

(b) in a non-discriminatory manner;

(c) on payment of prompt, adequate, and effective compensation; and

(d) in accordance with due process of law.

2. The compensation referred to in subparagraph 1(c) shall:

(a) be paid without undue delay;

(b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation occurred, or at the time when the expropriation was publicly announced, whichever is applicable;

(c) not reflect any change in value occurring because the intended expropriation had become known earlier; and

(d) be fully realizable and freely transferable.

3. The compensation referred to in subparagraph 1(c) shall include appropriate interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment. The compensation, including any accrued interest, shall be payable either in the currency of the expropriating Party, or if requested by the investor, in a freely usable currency.

4. If an investor requests payment in a freely usable currency, the compensation referred to in subparagraph 1(c), including any accrued interest, shall be converted into the currency of payment at the market rate of exchange prevailing on the date of payment.

5. Notwithstanding paragraphs 1 through 4, in the case where Viet Nam is the expropriating Party, any measure of expropriation relating to land, which shall be as defined in its existing domestic laws and regulations on the date of entry into force of this Agreement, shall be, for a purpose, and upon payment, of compensation, made in accordance with the aforesaid laws and regulations. Such compensation shall be subject to any subsequent amendment to the aforesaid laws and regulations relating to the amount of compensation where such amendment follows the general trends in the market value of the land.

6. This Article shall not apply to the issuance of compulsory licenses granted in relation to intellectual property rights, or to the revocation, limitation, or creation of intellectual property rights, in accordance with the TRIPS Agreement.
**Article 9.8 : Transfers**

1. Each Party shall permit all transfers relating to a covered investment to be made freely, and without delay, into and out of its territory. Such transfers include:

   (a) the initial capital and additional amounts to maintain or increase the investment;

   (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;

   (c) interest, royalty payments, management fees, and technical assistance and other fees;

   (d) payments made under a contract, including a loan agreement;

   (e) payments made pursuant to Articles 9.6 and 9.7; and

   (f) payments arising out of the settlement of a dispute.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.

4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its domestic laws and regulations relating to:

   (a) bankruptcy, insolvency, or the protection of the rights of creditors;

   (b) issuing, trading, or dealing in securities, futures, options, or derivatives;

   (c) criminal or penal offenses;

   (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;

   (e) ensuring compliance with orders or judgments in judicial or administrative proceedings;

   (f) social security, public retirement or compulsory savings scheme;

   (g) severance entitlement of employees; and

---

For greater certainty, Annex 9-C applies to this Article.
(h) taxation.

**Article 9.9 : Performance Requirements**

1. Neither Party shall impose or enforce any of the following requirements, relating to the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party:

   (a) to achieve a given level or percentage of domestic content;

   (b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

   (c) to relate the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with investments of the investor;

   (d) to restrict sales of goods in its territory that such investment of the investor produces or provides by relating such sales to the volume or value of its exports or foreign exchange earnings;

   (e) to export a given level or percentage of goods;

   (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or

   (g) to supply exclusively from the territory of that Party the goods that such investment produces to a specific regional market or to the world.

2. Paragraph 1 shall not be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, relating to the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of the other Party or a non-Party, on compliance with any of the requirements set forth in subparagraphs 1(e) through 1(g).

3. For greater certainty, paragraphs 1 and 2 shall not apply to any requirement other than the requirements set out in those paragraphs.

4. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties.

5. Nothing in this Article shall be construed to derogate from the rights and obligations of the Parties under the Agreement on Trade-Related Investment Measures in Annex 1A to the WTO Agreement.

**Article 9.10 : Senior Management and Boards of Directors**

9-6
1. Neither Party may require an enterprise of that Party that is a covered investment to appoint to senior management positions natural persons of any particular nationality.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

**Article 9.11 : Denial of Benefits**

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if:

   (a) persons of a non-Party own or control the enterprise; and

   (b) the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such other Party and to investments of that investor if the enterprise has no substantial business activities in the territory of the other Party and persons of a non-Party, or of the denying Party, own or control the enterprise. The denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party upon the other Party’s request.

**Article 9.12 : Non-Conforming Measures**

1. Articles 9.3, 9.4, 9.9, and 9.10 shall not apply to:

   (a) any existing non-conforming measure that is maintained by a Party at

      (i) the central level of government, as set out by that Party in Annex I; or

      (ii) a local level of government;\(^8\)

   (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

   (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed at the date of entry into force of Annex I, with Articles 9.3, 9.4, 9.9, and 9.10.

---

\(^8\) For Korea, “local level of government” means a local government as defined in the *Local Autonomy Act*. 

9-7
2. Articles 9.3, 9.4, 9.9, and 9.10 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in Annex II.

3. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

4. Nothing in this Chapter shall be construed to derogate from the rights and obligations under international agreements in respect of protection of intellectual property rights to which the Parties are party, including the TRIPS Agreement and other treaties concluded under the auspices of the World Intellectual Property Organization.

5. The Parties shall begin negotiations on Annexes I and II immediately after the entry into force of this Agreement with a view to concluding them within one year from the date of entry into force of this Agreement:

(a) Articles 9.3, 9.4, 9.9, and 9.10 shall not apply until Annexes I and II have entered into force; and

(b) The Parties shall make best endeavor to reflect the most advanced level of liberalization commitments in the Schedules of their agreements on investment at the time of the negotiations to ensure the overall balance of benefits of the Parties.  

Article 9.13: Special Formalities and Information Requirements

1. Nothing in Article 9.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that covered investments be legally constituted under its domestic laws and regulations, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 9.3 and 9.4, a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its domestic laws and regulations.

9 For greater certainty, the negotiations on Schedules to Annexes I and II do not affect the scope of this Chapter and paragraphs 1 through 4 of this Article.

10 For greater certainty, for Viet Nam, this requirement includes the requirement that the covered investment to be registered in accordance with the laws and regulations of Viet Nam.
Article 9.14: Subrogation

1. Where a Party or an agency authorized by that Party has granted a contract of insurance or any form of financial guarantee against non-commercial risks with regard to a covered investment by one of its investors in the territory of the other Party and when payment has been made under this contract or financial guarantee by the former Party or the agency authorized by it, the latter Party shall recognize the rights of the former Party or the agency authorized by the former Party by virtue of the principle of subrogation to the rights of the investor.\(^{11}\)

2. Where a Party or the agency authorized by the Party has made a payment to its investor and has taken over the rights and claims of the investor, that investor shall not, unless authorized to act on behalf of the Party or the agency authorized by the Party, making the payment, pursue those rights and claims against the other Party.

Section B: Investor-State Dispute Settlement

Article 9.15: Scope of Investor-State Dispute Settlement\(^{12}\)

1. This Section shall apply to investment disputes between a Party and an investor of the other Party concerning a claim that the former Party has breached an obligation under Section A, other than Articles 9.11 through 9.14 and the breach has caused loss or damage, by reason of, or arising out of, that breach to:

   (a) the investor in relation to its covered investments; or

(d) ensure that the intellectual property rights are effectively enforced with a view, inter alia, to eliminating trade in goods infringing intellectual property rights and that measures and procedures for enforcement do not themselves become barriers to legitimate trade.

Article 12.2 : General Principles

1. Each Party shall provide adequate, effective, and non-discriminatory protection of intellectual property rights, and provide for appropriate measures for the enforcement of such rights.

2. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals of the other Party treatment no less favorable than that it accords to its own nationals with regard to the protection and enjoyment of such intellectual property rights and any benefit derived from such rights in accordance with Articles 3 and 5 of the TRIPS Agreement.

6. Each Party shall provide for appropriate measures to refuse an application or cancel a registration and prohibit the use of a trademark that is identical or similar to a well-known trademark, for identical or similar goods or services, if the use of that trademark is likely to:

*Civil and Administrative Procedures and Remedies*

3. Each Party shall provide that, in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer to pay the right holder damages adequate to compensate for the injury the right holder has suffered as a result of the infringement of that person’s intellectual property right by an infringer who knowingly, or with reasonable grounds to know, engages in infringing activity.

capacities and not be affiliated with, nor take instructions from, either Party or organization related to the dispute, and shall comply with Annex 15-B.

6. Where a Party considers that an arbitrator does not comply with the requirements of Annex 15-B, the Parties shall consult and replace, if so agreed, that arbitrator in accordance with paragraph 7.

7. If an arbitrator appointed under this Article resigns or becomes unable to participate in the proceedings, or is to be replaced according to paragraph 6, a successor shall be selected within 15 days in accordance with the appointment method provided for in paragraphs 2 and 3, \textit{mutatis mutandis}. The successor shall have all the powers and duties of the original arbitrator. The work of the arbitration panel shall be suspended for a period beginning on the date the arbitrator resigns or becomes unable to participate in the proceeding, or is to be replaced according to paragraph 6. The work of the arbitration panel shall resume on the date the successor is appointed.

\textbf{Article 15.9 : Proceedings of the Arbitration Panel}

1. The arbitration panel shall meet in closed sessions. The Parties shall be present at the meetings only when invited by the arbitration panel to appear before it.

2. The Parties shall be given the opportunity to provide at least one written submission and to attend any of the presentations, statements or rebuttals in the proceedings. All information provided or written submissions made by a Party to the arbitration panel, including any comments on the interim report and responses to questions put by the arbitration panel, shall be made available to the other Party.

3. A Party asserting that a measure of the other Party is inconsistent with this Agreement shall have the burden of establishing such inconsistency. A Party asserting that a measure is subject to an exception under this Agreement shall have the burden of establishing that the exception applies.

4. The arbitration panel should consult with the Parties as appropriate and provide adequate opportunities for the development of a mutually satisfactory resolution.

5. The arbitration panel shall interpret this Agreement in accordance with the customary rules of interpretation of public international laws including the \textit{Vienna Convention on the Law of Treaties}, taking due account of the interpretation adopted by the Joint Committee in accordance with paragraph 4 of Article 17.1 (Joint Committee) and of the fact that the Parties shall perform this Agreement in good faith and avoid circumvention of their obligations.

6. The arbitration panel shall aim to make its decisions, including its reports, by consensus but may also make its decisions, including its report, by majority vote.

7. Upon request of a Party, or on its own initiative, the arbitration panel may seek information from any relevant source and may consult experts to obtain their opinion or advice on certain aspects of the matter. The arbitration panel shall provide the Parties with a

Where a Party has provided information or written submissions designated to be confidential, that Party shall, within 20 days of a request of the other Party, provide a non-confidential summary of the information or written submissions which may be disclosed publicly.

10. The reports of the arbitration panel shall be drafted without the presence of the Parties. The arbitration panel shall base its report on the relevant provisions of this Agreement, and the submissions and arguments of the Parties, and may take into account any other relevant information provided to the arbitration panel.

11. The reports of the arbitration panel shall contain both the descriptive parts summarizing the submissions and/or arguments of the Parties, and the findings and determinations of the arbitration panel. If the Parties agree, the arbitration panel may make recommendations for resolution of the dispute in its reports. The findings and determinations and, if applicable, any recommendations of the arbitration panel cannot add to or diminish the rights and obligations of the Parties provided for in this Agreement.

12. The venue for the arbitration panel proceedings shall be decided by mutual agreement between the Parties. If there is no agreement, the venue shall alternate between the capitals of the Parties with the first meeting of the arbitration panel proceedings to be held in the capital of the Party complained against.

**Article 15.10 : Suspension or Termination of Proceedings**

1. Where the Parties agree, the arbitration panel may suspend its work at any time for a period not exceeding 12 months from the date of such agreement. Upon request of a Party, the arbitration panel proceedings shall be resumed after such suspension. In the event of such suspension, the timeframes regarding the work of the arbitration panel shall be extended by the amount of time that the work was suspended. If, in any case, each period of the suspension of the work of the arbitration panel exceeds 12 months, the authority of the arbitration panel shall lapse unless the Parties otherwise agree. This lapse shall not prejudice the rights of the complaining Party to request, at a later stage, the establishment of an arbitration panel on the same subject matter.

2. The Parties may agree to terminate the proceedings of an arbitration panel by jointly so notifying the chair of the arbitration panel at any time before the issuance of the final report to the Parties.

3. Before the arbitration panel makes its decision, it may, at any stage of the proceedings, propose to the Parties that the dispute be settled amicably.
Article 15.11 : Interim Report

1. Unless the Parties otherwise agree, the arbitration panel shall, within 90 days of the date of the establishment of the arbitration panel, issue to the Parties an interim report containing the descriptive parts, the findings and determinations, and, if applicable, any recommendations as to:

   (a) whether the measure at issue is inconsistent with the obligations of this Agreement; or

   (b) whether a Party has otherwise failed to carry out its obligations under this Agreement,

as well as the applicability of the relevant provisions and the basic rationale behind any findings.

2. Where the arbitration panel considers that the deadline for interim report cannot be met, it may extend the period with the consent of the Parties with the written notification stating the reasons for the delay and the date on which the panel plans to issue its interim report. Under no circumstances should the interim report be issued later than 120 days after the date of the establishment of the arbitration panel.

3. Either Party may submit written comments to the arbitration panel on its interim report within 15 days of the issuance of the report. After considering any written comments by the Parties on the interim report, the arbitration panel may modify its report and make any further examination it considers appropriate.

Article 15.12 : Final Report

1. Unless the Parties otherwise agree, the arbitration panel shall issue a final report to the Parties within 30 days of the date of issuance of the interim report.

2. Where the arbitration panel considers that the deadline for its final report cannot be met, it may extend the period with the consent of the Parties with the written notification stating the reasons for the delay and the date on which the panel plans to issue its final report. Under no circumstances should the final report be issued later than 150 days after the date of the establishment of the arbitration panel.

3. In cases of urgency, including those concerning perishable goods, the arbitration panel shall make every effort to issue its interim and final reports within half of the respective time periods under paragraph 1 of Article 15.11 and paragraph 1 of Article 15.12.

Article 15.13 : Implementation of the Final Report
1. The determinations of the final report of the arbitration panel shall be final and binding on the Parties and shall not be subject to appeal.

2. If, in its final report, the arbitration panel determines that the Party complained against has not conformed to its obligations under the relevant provisions of this Agreement, unless the Parties otherwise agree, the Party complained against shall eliminate the non-conformity immediately, or if this is not practicable, within a reasonable period of time.

3. The reasonable period of time referred to in paragraph 2 shall be mutually agreed by the Parties. Where the Parties fail to agree on the reasonable period of time within 45 days of the date of issuance of the final report of the arbitration panel, either Party may refer the matter to the original arbitration panel, which shall determine the reasonable period of time.

4. The Party complained against shall notify to the complaining Party the implementing measures that it has taken to comply with the determinations of the arbitration panel, before the expiry of the reasonable period of time agreed by the Parties or determined by the original arbitration panel in accordance with paragraph 3. Where there is disagreement between the Parties as to whether the Party complained against has eliminated the non-conformity as determined in the final report of the arbitration panel within the reasonable period of time as determined pursuant to paragraph 3, either Party may refer the matter to the original arbitration panel.

**Article 15.14: Non-Implementation, Compensation and Suspension of Concessions or Other Obligations**

1. If the Party complained against fails to notify the implementing measures before the expiry of the reasonable period of time, or notifies to the complaining Party that implementation is impracticable, or the arbitration panel to which the matter is referred pursuant to paragraph 4 of Article 15.13 determines that the Party complained against has failed to eliminate the non-conformity within the reasonable period of time, the Party complained against shall, if so requested, enter into negotiations with the complaining Party with a view to reaching a mutually satisfactory compensation.

2. If there is no agreement on satisfactory compensation within 20 days of the date of receipt of the request mentioned in paragraph 1, the complaining Party may, at any time, provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of concessions or other obligations under this Agreement. The complaining Party may begin suspending concessions or other obligations 30 days after the notification of such suspension. The notification of suspension shall not be made within 20 days of the date of receipt of the request mentioned in paragraph 1.

3. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full elimination of the non-conformity as determined in the report of the arbitration panel. The suspension shall only be applied until such time as the non-conformity is fully eliminated or a mutually satisfactory solution is reached.
4. In considering what concessions or other obligations to suspend pursuant to paragraph 2:

   (a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector or sectors as that in which the report of the arbitration panel referred to in Article 15.12 has found a failure to comply with the obligations under this Agreement;

   (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector or sectors, it may suspend concessions or other obligations with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based; and

   (c) the level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

5. If the Party complained against considers that the requirements for the suspension of concessions or other obligations by the complaining Party set out in paragraph 2, 3, or 4 have not been met, it may refer the matter to an arbitration panel.

6. The arbitration panel that is established for the purposes of this Article or Article 15.13 shall, wherever possible, have, as its arbitrators, the arbitrators of the original arbitration panel. If this is not possible, then the arbitrators of the arbitration panel that is established for the purposes of this Article or Article 15.13 shall be appointed pursuant to Article 15.8. The arbitration panel established under this Article or Article 15.13 shall issue its report to the Parties within 20 days on the reasonable period of time and 45 days on the other issues after the date when the matter is referred to it. When the arbitration panel considers that it cannot issue its report within the aforementioned periods, the relevant period may be extended by the arbitration panel for a maximum of 30 days with the consent of the Parties. The report shall be binding on the Parties.

Article 15.15 : Rules of Procedure

CHAPTER 16
EXCEPTIONS

Article 16.1: General Exceptions

1. For the purposes of Chapters 2 (National Treatment and Market Access for Goods), 3 (Rules of Origin and Origin Procedures), 4 (Customs Administration and Trade Facilitation), 5 (Sanitary and Phytosanitary Measures), 6 (Technical Barriers to Trade), and 7 (Trade Remedies), Article XX of GATT 1994 and its interpretative notes are incorporated into and made part of this Agreement, mutatis mutandis.

2. For the purposes of Chapters 8 (Trade in Services) and 9 (Investment), Article XIV of GATS (including its footnotes) is incorporated into and made part of this Agreement, mutatis mutandis.

Article 16.2: Security Exceptions

1. Nothing in this Agreement shall be construed to:

   (a) require a Party to furnish any information, the disclosure of which it considers contrary to its essential security interests;

   (b) prevent a Party from taking any action which it considers necessary for the protection of its essential security interests:

      (i) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials or relating to the supply of services as carried on, directly or indirectly, for the purposes of supplying or provisioning a military establishment;

      (ii) relating to fissionable and fusionable materials or the materials from which they are derived;

      (iii) taken so as to protect critical public infrastructure, including communications, power and water infrastructures, from deliberate attempts intended to disable or degrade such infrastructure; or

      (iv) taken in time of domestic emergency, or war or other emergency in international relations; or

   (c) prevent a Party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

2. The Joint Committee shall be informed to the fullest extent possible of measures taken under subparagraphs 1(b) and (c) and of their termination.
Article 16.3: Taxation

1. Except as set out in this Article, nothing in this Agreement shall apply to taxation measures.

2. Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency. In the case of a tax convention between Korea and Viet Nam, the competent authorities under that convention shall have sole responsibility for jointly determining whether any inconsistency exists between this Agreement and that convention.

3. Paragraph 2 of Article 16.1 shall apply to taxation measures.¹

4. Notwithstanding paragraph 2, Article 2.2 (National Treatment on Internal Taxation and Regulation) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of GATT 1994.

5. Subparagraph 4(h) of Article 9.8 (Transfers) shall apply to taxation measures.

6. The determination of whether a taxation measure, in a specific fact situation, constitutes an expropriation requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including the factors listed in Annex 9-B (Expropriation) and the following considerations:

   (a) the imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of a taxation measure in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;

   (b) a taxation measure that is consistent with internationally recognized tax policies, principles, and practices does not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxation measures generally does not constitute an expropriation;

   (c) a taxation measure that is applied on a non-discriminatory basis, as opposed to a taxation measure that is targeted at investors of a particular nationality or at specific taxpayers, is less likely to constitute an expropriation; and

   (d) a taxation measure does not constitute an expropriation if it was already in force when the investment was made and information about the measure was publicly available.

¹ For the purposes of this paragraph, the application of paragraph 2 of Article 16.1 to taxation measures refers to Article XIV (d) and (e) of GATS.
7. (a) No investor may invoke Article 9.7(Expropriation and Compensation) as the basis for a claim where it has been determined pursuant to this subparagraph that the measure is not an expropriation. An investor that seeks to invoke Article 9.7(Expropriation and Compensation) with respect to a taxation measure must first provide written request to the competent authorities, at the time that it gives its Notice of Intent under Article 9.17(Notice of Intent to Submit a Claim to Arbitration), for decision on the issue of whether taxation measure is not an expropriation. The request should include the Notice of Intent. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of six months of such referral, the investor may submit its claim to arbitration under paragraph 1 of Article 9.19(Submission of a Claim to Arbitration).

(b) For the purposes of this paragraph, competent authorities means:

(i) for Korea, the Deputy Minister for Tax and Customs, Ministry of Strategy and Finance; and

(ii) for Viet Nam, the Director General of the General Department of Taxation, Ministry of Finance;

or their respective successors.

8. For the purposes of this Article:

(a) tax convention means a convention for the avoidance of double taxation or other international taxation agreement or arrangement; and

(b) taxes and taxation measures do not include customs duties as defined in Article 1.5(General Definitions) and measures listed in exceptions (b), (c), (d), and (e) of that definition.

Article 16.4: Disclosure of Information

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to confidential information the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice the legitimate commercial interests of particular enterprises, public or private.
