Article 4.8

De Minimis

Each Party shall provide that a good that does not undergo a change in tariff classification pursuant to Annex 4.2 is nonetheless an originating good if:

- (a) the value of all non-originating materials, including materials of undetermined origin, used or consumed in the production of the good that do not undergo the required change in tariff classification does not exceed 10 per cent of the FOB value of the good; and
- (b) the good meets all other applicable requirements of this Chapter.

Article 4.9

Direct Consignment

A good shall retain its originating status as determined under Article 4.2 if the following conditions have been met:

- (a) the good has been transported to the importing Party without passing through the territory of any non-Party; or
- (b) the good has transited through one or more non-Parties, with or without transshipment or temporary storage in those non-Parties, provided that:
 - (i) the good has not entered trade or commerce there; and

2. Packing materials and containers in which a good is packaged for retail sale, when classified together with that good, shall not be taken into account in determining whether all of the non-originating materials used in the production of the good have met the applicable change in tariff classification requirements for the good.
3. If a good is subject to a RVC requirement, the value of the packing materials and containers in which the good is packaged for retail sale shall be taken into account as originating or non-originating materials, as the case may be, in calculating the RVC of the good.

Article 4.11

Accessories, Spare Parts, Tools and Instructional or Information Material

1. For the purpose of determining the origin of a good, accessories, spare parts, tools and instructional or other information materials presented with the good shall be considered part of that good and shall be disregarded in determining whether all the non-originating materials used in the production of the originating good have undergone the applicable change in tariff classification, provided that:

- (a) the accessories, spare parts, tools and instructional or other information materials presented with the good are not invoiced separately from the originating good; and
- (b) the quantities and value of the accessories, spare parts, tools and instructional or other information materials presented with the good are customary for that good.

2. Notwithstanding paragraph 1, if a good is subject to a RVC requirement, the value of the accessories, spare parts, tools and instructional or other information materials presented with the good shall be taken into account as originating or non-originating materials, as the case may be, in calculating the RVC of the good.

Article 4.12

2. For the purposes of this Article, **indirect material** means a good used or consumed in the production, testing or inspection of a good but not physically incorporated into the good, or a good used or consumed in the maintenance of buildings or the operation of equipment associated with the production of a good, including:

- (h) any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.

Article 4.13

Identical and Interchangeable Materials

In determining whether a good is an originating good, any identical or interchangeable materials shall be distinguished by:

- (a) physical separation of the goods; or
- (b) an inventory management method recognised in the generally accepted accounting principles of the exporting Party.

SECTION 2

OPERATIONAL PROCEDURES

Article 4.14

Treatment of Goods for which Preference is Claimed

Each Party may require a Declaration of Origin of a good for which preferential tariff treatment is claimed. Where a Party requires a Declaration of

Origin of a good, the importing Party shall grant preferential tariff treatment to goods imported into its Area from the other Party only in cases where an importer claiming preferential tariff treatment:

- (a) provides a Declaration of Origin of the good in accordance with this Chapter; and
- (b) provides other evidence to substantiate the origin of the goods, upon request.

Article 4.17

Records

1. Each Party shall inform exporters in its Area that they should maintain for a period of not less than 3 years after the issuance of the Declaration of Origin, all records relating to that exportation which are necessary to demonstrate to the importing Party that a good for which a claim for tariff preference was made qualifies for preferential tariff treatment under this Agreement.

2. All records identified in paragraph 1 may be maintained in paper or electronic form.

Article 4.18

Compliance with Direct Consignment

Compliance with Article 4.9 may be evidenced by means of supplying to the customs authority of the importing Party either customs documents of a non-Party or documents of the relevant authorities of a non-Party or commercial shipping or freight documents.

Article 4.19

2. Any such verification activities shall only be undertaken if:

- (a) there are reasonable grounds to doubt the accuracy or authenticity of the Declaration of Origin, or the origin status of the goods concerned; or
- (b) the purpose is to ascertain the fulfilment of any other requirement of this Chapter.

3. Any request that is made pursuant to paragraphs 1(b), 1(c) and 1(d) shall specify the reasons, and any documents and information supporting the request shall be forwarded to the customs authority of the exporting Party.

4. All requests for information shall be accompanied by sufficient information to identify the good about which the request is made.

 - (c) under Article 4.20, no reply within 270 days from the date of the verification request was received from the customs authority of the exporting Party or if the reply does not contain sufficient information to determine the authenticity of the document in question or the origin of the goods.
2. In the event preferential tariff treatment is denied, the importing Party shall ensure that its customs authority provides in writing to the exporter, the importer or producer, as the case may be, the reasons for that decision.

Article 4.23

Refund of Import Duties

Where a Declaration of Origin is not provided at the time of importation of a good from a Party pursuant to Article 4.14, the importing Party may impose the applied non-preferential import customs duty or require payment of a deposit on that good, where applicable. In such a case, the importer may apply for a refund of any excess import customs duty or deposit paid within 1 year of the date on which the good was imported, provided that:

2. The definitions in Annex 1 of the *TBT Agreement* are incorporated into and made part of this Chapter, *mutatis mutandis*.

Article 7.2

Objectives

The objectives of this Chapter are to increase and facilitate trade by preventing and eliminating unnecessary obstacles to trade and enhancing bilateral cooperation in accordance with the rights and obligations of the Parties with respect to the *TBT Agreement*.

Article 7.3

Scope

1. Except as provided in paragraphs 2 and 3, this Chapter applies to all standards, technical regulations, and conformity assessment procedures, as defined in the *TBT Agreement* that may, directly or indirectly, affect trade in goods between the Parties.
2. Purchasing specifications prepared by governmental bodies for production or consumption requirements of such bodies are not subject to this Chapter but are addressed in Chapter 9 (Government Procurement), according to its coverage.
3. This Chapter does not apply to sanitary and phytosanitary measures as defined under paragraph 1 of Annex A of the *SPS Agreement*, which are covered by Chapter 6 (Sanitary and Phytosanitary Measures).

Article 7.4

Affirmation of *TBT Agreement*

The Parties affirm their existing rights and obligations with respect to each other under the *TBT Agreement*.

Article 7.5

International Standards

1. The Parties shall use international standards, guides and recommendations, or the relevant parts of them, to the extent provided in Articles 2 and 5 and Annex 3 of the *TBT Agreement*, as a basis for their technical regulations and related conformity assessment procedures where relevant international standards, guides and recommendations exist or their completion is imminent, except when they or their relevant parts are ineffective or inappropriate to fulfil the legitimate objectives.

2. In determining whether an international standard, guide or recommendation as mentioned in Articles 2 and 5 and Annex 3 of the *TBT Agreement* exists, each Party shall base its determination on the principles set out in relevant Decisions and Recommendations adopted by the WTO Committee on Technical Barriers to Trade since January 1st, 1995.

Article 7.6

Trade Facilitation

The Parties shall work cooperatively in the fields of standards, technical regulations and conformity assessment procedures with a view to facilitating trade between the Parties, in particular, to identify bilateral initiatives regarding standards, technical regulations and conformity assessment procedures that are appropriate for particular issues or sectors. Such initiatives may include:

- (a) cooperation on regulatory issues, such as convergence or equivalence of technical regulations and standards;
- (b) alignment with international standards;
- (c) reliance on a supplier's declaration of conformity; and

- (d) use of accreditation to qualify conformity assessment bodies, as well as cooperation through recognition of conformity assessment procedures.

Article 7.7

Equivalence of Technical Regulations

1. Consistent with the *TBT Agreement*, each Party shall give positive consideration to accepting as equivalent technical regulations of the other Party, even if these regulations differ from its own, provided that it is satisfied that these regulations adequately fulfil the objectives of its own regulations.
2. A Party shall, at the request of the other Party, explain the reasons why it has not accepted a technical regulation of the other Party as equivalent.

Article 7.8

Conformity Assessment Procedures

1. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance in the Area of a Party of the results of conformity assessment procedures conducted in the Area of the other Party. For example:
 - (a) accepting the declaration of conformity by a supplier in the Area of the other Party, preferably with the proof from accreditation agencies, where appropriate;
 - (b) promoting recognition of cooperative arrangements between accreditation bodies located in the Areas of the Parties;
 - (c) implementing mutual recognition of conformity assessment procedures conducted by bodies located in the Areas of the Parties;
 - (d) implementing unilateral recognition by one Party of the results of conformity assessment procedures performed in the Area of the other Party with respect to specific technical regulations;

- (f) designating conformity assessment bodies located in the Area of the other Party;

3. Each Party shall accredit, approve, license, or otherwise recognise conformity assessment bodies in the Area of the other Party on terms no less favorable than those it accords to conformity assessment bodies in its Area. Where a Party accredits, approves, licenses, or otherwise recognises a body in its Area assessing conformity with a specific technical regulation or standard and refuses to accredit, approve, license, or otherwise recognise a body in the Area of the other Party assessing conformity with that technical regulation or standard, it shall, at the request of that other Party, explain the reasons for its decision.

4. Each Party shall give positive consideration to a request by the other Party to negotiate and conclude arrangements to facilitate recognition of the results of conformity assessment procedures conducted by bodies located in the Area of the other Party. Where a Party declines such a request, it shall, at the request of that other Party, explain the reasons for its decision.

Article 7.9

Transparency

1. Each Party shall ensure that the information relating to technical regulations and conformity assessment procedures is published. Such information should be made available in printed or electronic form.

2. The Parties acknowledge the importance of transparency in decision-making, including providing a meaningful opportunity for interested persons to provide comments on proposed technical regulations and conformity assessment

procedures. Where a Party publishes a notice under Article 2.9 or 5.6 of the *TBT Agreement*, it shall:

- (a) include in the notice a statement describing the objective of the proposed technical regulation or conformity assessment procedure and the rationale for the approach the Party is proposing; and
- (b) transmit the proposal electronically to the other Party through the enquiry point the Party has established under Article 10 of the *TBT Agreement* at the same time as it notifies WTO Members of the proposal pursuant to the *TBT Agreement*.

Each Party should allow at least 60 days after it transmits a proposal under subparagraph (b) for the interested persons of the other Party and the other Party to make comments in writing on the proposal.

3. Where a Party makes a notification under Article 2.10 or 5.7 of the *TBT Agreement*, it shall at the same time transmit the notification to the other Party electronically through the enquiry point established under Article 10 of the *TBT Agreement*.

4. Each Party shall discuss comments received under paragraph 2 with the other Party upon request.

5. At the request of the other Party, a Party shall provide the other Party information regarding the objective of, and rationale for, a standard, technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

Article 7.10

Technical Cooperation

National Treatment and Non-Discrimination

1. With respect to any government procurement measure regarding procurement covered by this Chapter, each Party shall grant to goods, services and suppliers of the other Party treatment no less favourable than that accorded by it to domestic goods, services and suppliers.

2. With respect to any government procurement measure regarding procurement covered by this Chapter, neither Party shall allow its entities to:

- (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation to, or ownership by a person of, the other Party; or

- (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier are goods or services of the other Party.

3. A Party, including its entities, shall not consider, seek, or impose, at any stage of a procurement, conditions or measures used to encourage its development or improve the balance-of-payments accounts, such as the licensing of technology, investment requirements, counter-trade or other similar requirements.

4. Paragraphs 1 and 2 shall not apply to measures concerning customs duties and charges of any kind imposed on or in connection with importation, the method of levying such duties and charges, other import regulations, including restrictions and formalities, or measures affecting trade in services other than government procurement measures.

5. For the purposes of paragraphs 1 and 2, each Party shall apply to procurement covered by this Chapter the rules of origin that it applies in the normal course of trade.

Article 9.6

Non-Disclosure of Information

1. The Parties, their entities and review authorities shall not, except to the extent required by law, disclose confidential information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers without the written authorisation of the supplier that provided the information.

2. Nothing in this Chapter shall be construed as requiring either Party, its entities or review authorities to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest.

Article 9.7

Publication of Information on Procurement

Each Party shall promptly publish its procurement laws, regulations, procedures and administrative guidance of general application relating to procurements covered by this Chapter, and any changes or additions to this information.

Article 9.8

Notice of Intended Procurement

1. For each procurement covered by this Chapter, an entity shall publish in advance a notice of intended procurement inviting interested suppliers to submit tenders for that procurement, except as provided in Article 9.13.2. Each such notice shall be accessible during the entire period established for tendering for the relevant procurement.
2. Each notice of intended procurement shall include a description of the intended procurement, any conditions that suppliers must fulfil to participate in the procurement, the name of the entity issuing the notice, the address where suppliers may obtain all documents relating to the procurement, the time limits for submission of tenders, and the dates for delivery of the goods or services to be procured.
3. Each notice of intended procurement shall be published sufficiently in advance to provide interested suppliers with a reasonable period of time, in light of the nature, circumstances and complexity of the procurement, to obtain the full tender documentation and to prepare and submit responsive tenders by the closing date, or to apply for participation in the procurement where applicable.
4. The Parties agree that entities shall in no case provide less than 10 days between the date on which the notice of intended procurement is published and the final date for the submission of tenders or applications to participate.

Article 9.9

Conditions for Participation

1. Where an entity requires suppliers to register, qualify, or satisfy any other conditions before being permitted to participate in a procurement, each Party shall ensure that a notice is published inviting suppliers to apply for registration or qualification or to demonstrate satisfaction of other conditions for participation.
2. The notice shall be published sufficiently in advance for interested suppliers to prepare and submit responsive applications and for the entity to evaluate and make its determinations based on such applications.
3. Any conditions for participation in the procurement, including the legal, commercial, technical and financial capacity of suppliers, as well as the

verification of qualifications, shall be limited to those which are essential to ensure the supplier's capability to fulfil the contract in question.

4. The commercial, technical and financial capacity of a supplier shall be judged on the basis of both that supplier's global business activity and its activity in the Area of the procuring entity, taking due account of the legal relationship between the supply organisations.

5. Entities shall consider for a particular procurement those suppliers of the other Party that request to participate in the procurement and that are not yet registered or qualified, provided there is sufficient time to complete the registration or qualification procedures within the time period allowed for the submission of tenders.

6. Nothing in this Article shall preclude an entity from excluding a supplier from a procurement on grounds such as bankruptcy, liquidation or insolvency, false declarations relating to a procurement, or significant deficiency in the performance of any obligation under a prior contract.

Article 9.10

Lists of Registered or Qualified Suppliers

1. Entities may establish for continuing use a list of suppliers registered or qualified to participate in procurements.

2. Entities shall publish annually or otherwise make available continuously in electronic form a notice inviting interested suppliers to apply for inclusion on the list.

3. Entities shall ensure that suppliers may apply for participation in the list at any time, and that all qualifying suppliers are included within a reasonable period, taking into account the conditions for participation and the need for verification.

4. Where entities require suppliers to qualify for such a list before being permitted to participate in a procurement, and a supplier that has not previously satisfied such requirements or conditions submits an application, the entity shall promptly start the registration or qualification process. The entity shall allow such supplier to participate in the procurement, provided there is sufficient time to complete the registration or procurement procedures within the time period allowed for the submission of tenders.

Article 9.11

Technical Specifications

1. Each Party shall ensure that its entities do not prepare, adopt or apply any technical specification with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.
2. Any technical specifications prescribed by an entity shall, where appropriate:
 - (a) be specified in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) be based on international standards, where applicable, or otherwise on national technical regulations, recognised national standards, or building codes.
3. Each Party shall ensure that its entities do not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, design or type, specific origin or producer or supplier, unless there is no sufficiently precise or intelligible way of otherwise describing the procurement requirements and provided that, in such cases, words such as “or equivalent” are included in the tender documentation.
4. Each Party shall ensure that its entities do not seek or accept, in a manner that would have the effect of prejudicing fair competition, advice to be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

Article 9.12

Tender Documentation

1. Tender documentation provided to suppliers shall contain all information necessary to enable them to prepare and submit responsive tenders, including the essential requirements and evaluation criteria for the award of the procurement contract.
2. Where entities do not offer direct access to the tender documentation by electronic means, entities shall promptly make available the tender documentation at the request of any interested or, as applicable, qualified supplier.

3. Where an entity modifies the tender documentation, and that modification could impact on the preparation of tenders, it shall publish or transmit all such modifications in writing:

- (a) to all suppliers who have requested tender documentation at the time the criteria are modified, and in the same manner as the original information was transmitted by the entity; and
- (b) in adequate time to allow such suppliers to modify and resubmit their tenders, as appropriate.

Article 9.13

Tendering Procedures

1. Except as provided for in paragraph 2, entities shall award contracts by means of open or selective tendering procedures, in the course of which all interested suppliers or, in the case of selective tendering, suppliers invited to do so by an entity may submit a tender.

2. Provided that it does not use this provision for the purpose of avoiding competition among suppliers, or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering procedures only under any of the following circumstances:

- (a) where, in response to a prior notice, invitation to participate, or invitation to tender under open or selective tendering procedures:
 - (i) no tenders were submitted;
 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation; or
 - (iii) no suppliers satisfied the conditions for participation; andprovided that the essential requirements of the procurement as set out in the tender documentation have not been substantially modified;
- (b) where, for works of art, or for reasons connected with the protection of exclusive rights, such as patents or copyrights, or where there is an absence of competition for technical reasons, the

goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;

- (c) for additional deliveries by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services or installations, where a change of supplier would compel the entity to procure goods or services not meeting requirements of interchangeability with existing equipment, software, services, or installations;
- (d) for goods purchased on a commodity market;
- (e) when an entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. When such contracts have been fulfilled, subsequent procurements of such goods or services shall be subject to this Chapter;
- (f) when additional construction services, which were not included in the initial contract but which were within the objectives of the original tender documentation, have, due to unforeseeable circumstances, become necessary to complete the construction services described therein, provided that the total value of contracts awarded for additional construction services does not exceed 50 percent of the amount of the main contract;
- (g) in so far as it is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the entity and beyond its control, the goods or services could not be obtained in time by means of an open or selective tendering procedure;
- (h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, including public auction or unusual disposals, such as those resulting from liquidation, bankruptcy or receivership. This subparagraph is not intended to cover routine purchases from regular suppliers; and
- (i) in the case of a contract awarded to the winner of a design contest provided that the contest has been organised in a manner which is consistent with the principles of this Chapter and that the contest is judged by an independent jury with a view to a design contract being awarded to the winner.

3. An entity shall maintain a record or prepare a written report providing specific justification for any contract awarded by means other than open or selective tendering procedures, as provided in paragraph 2.

Article 9.14

Treatment of Tenders and Awarding of Contracts

1. An entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process.

2. To be considered for award of a contract, a tender must, at the time of opening by the entity, conform to the essential requirements of the notice of intended procurement or tender documentation and be submitted by a supplier who complies with the conditions for participation.

3. Unless an entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the entity has determined to be fully capable of undertaking the contract and whose tender is determined to be the most advantageous in terms of the requirements and evaluation criteria set out in the tender documentation, or where price is the sole criterion, the lowest price.

4. No entity may cancel a procurement, or terminate or modify awarded contracts, in order to avoid the obligations of this Chapter.

Article 9.15

Post-Award Information

1. Entities shall promptly inform suppliers that have submitted a tender of the contract award decision.

2. Entities shall, at the request of an unsuccessful supplier, promptly explain the reasons for the rejection of its tender or the relative advantages of the tender the entity selected.

3. Entities shall, promptly after the award of a contract for a procurement covered by this Chapter, publish a notice containing at least the following information:

- (a) the name and address of the successful supplier;

- (b) a description of the goods or services supplied; and
- (c) the value of the contract award.

Article 9.16

Ensuring Integrity in Procurement Practices

Each Party shall ensure that criminal or administrative penalties exist to address corruption in its government procurement, and that its entities have in place policies and procedures to address any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 9.17

Domestic Review of Supplier Complaints

1. Each Party shall ensure that its entities accord impartial and timely consideration to any complaints from suppliers regarding an alleged breach of government procurement measures implementing this Chapter arising in the context of a procurement in which they have, or have had, an interest. Where appropriate, a Party may encourage suppliers to seek clarification from its entities with a view to facilitating the resolution of any such complaints.
2. Each Party shall provide suppliers of the other Party with non-discriminatory, timely, transparent and effective access to an administrative or judicial body competent to hear or review complaints of alleged breaches of the procuring Party's government procurement measures implementing this Chapter arising in the context of procurements in which those suppliers have, or have had, an interest.
3. Each Party shall make information on complaint mechanisms generally available.
4. Where an administrative or judicial body may award compensation for any breach of government procurement measures implementing this Chapter, such compensation may be limited to the costs for tender preparation reasonably incurred by the supplier for the purpose of the procurement, or the costs relating to the complaint, or both.

Article 9.18

Encouraging Use of Electronic Communications in Procurement

1. The Parties shall encourage their entities to provide opportunities for government procurement to be undertaken through electronic means.
2. In order to facilitate commercial opportunities for their suppliers under this Chapter, each Party shall maintain a single electronic portal for accessing information on government procurement supply opportunities in its Area and on procurement laws, regulations, procedures and administrative guidance of general application published in accordance with Article 9.7.
3. The Parties shall encourage, to the extent possible, the use of electronic means for the provision of tender documents and receipt of tenders.

writing within 30 days of the notification. A Party that makes such a rectification shall not be required to provide compensatory adjustments.

3. A Party need not provide compensatory adjustments in those circumstances where the Parties agree that the proposed modification to Annex 9.1 covers an entity over which a Party has effectively eliminated its control or influence. Where the Parties do not agree that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the entity's continued coverage under this Chapter.

4. Where the Parties are in agreement on the proposed modification, rectification or minor amendment, including where a Party has not objected within 30 days under paragraph 1 or 2, the Commission shall give effect to the agreement by modifying forthwith the relevant Section under Annex 9.1.

Article 9.20

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like services or service suppliers of the other Party.

Article 11.4

Market Access

1. With respect to market access through the modes of supply identified in Article 11.1, each Party shall accord to services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule to Annex 11.6.
2. In sectors where market-access commitments are undertaken, the measures which a Party shall not maintain or adopt, unless otherwise specified in its Schedule to Annex 11.6, are defined as:

⁹ The sole fact of requiring a visa for natural persons of the other Party and not for those of a non-Party shall not be regarded as nullifying or impairing benefits accruing to the other Party under the terms of a specific commitment.

¹⁰ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 11.3 or 11.4, including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule to Annex 11.6.

¹¹ Paragraph 2 (c) does not cover measures of a Party which limit inputs for the supply of services.

Article 11.6

Schedule of Specific Commitments

1. The specific commitments undertaken by each Party under Articles 11.3 and 11.4 are set out in its Schedule to Annex 11.6. With respect to sectors where such commitments are undertaken, each Schedule specifies:

- (a) terms, limitations and conditions on market access;
- (b) conditions and qualifications on national treatment;
- (c) undertakings relating to additional commitments; and
- (d) where appropriate, the time-frame for implementation of such commitments and the date of their entry into force.

2. Measures inconsistent with both Articles 11.3 and 11.4 are inscribed in the column relating to Article 11.4. In this case, the inscription will be considered to provide a condition or qualification to Article 11.3 as well.

Article 11.7

Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of and, where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. Each Party shall ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, including by ensuring that such measures are, *inter alia*:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service; and
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
4. Where a Party maintains measures relating to qualification requirements and procedures, technical standards and licensing requirements, the Party shall:
- (a) make publicly available:
 - (i) information on requirements and procedures to obtain, renew or retain any licenses or professional qualifications; and
 - (ii) information on technical standards;
 - (b) where any form of authorisation is required for the supply of a service, ensure that it will:
 - (i) within a reasonable period of time after the submission of an application deemed complete under its domestic laws and regulations, consider the application and make a decision as to whether or not to grant the relevant authorisation;
 - (ii) promptly inform the applicant of the decision whether or not to grant the relevant authorisation;
 - (iii) at the request of the applicant, provide without undue delay, information concerning the status of the application; and
 - (iv) where practicable, at the written request of an unsuccessful applicant, provide written reasons for a decision not to grant the relevant authorisation; and
 - (c) provide for adequate procedures to verify the competency of professionals of the other Party.

5. Notwithstanding subparagraph (b) of the definition of **measures adopted or maintained by a Party** in Article 11.1, paragraphs 1, 3 and 4 shall not apply where the relevant measures are the responsibility of non-governmental bodies. However, each Party shall encourage such non-governmental bodies to comply with the requirements of paragraphs 1, 3 and 4.

6. If the results of the negotiations related to Article VI.4 of *GATS* enter into effect, the Parties shall jointly review those results with a view to their incorporation into this Agreement, as considered appropriate by the Parties.

Article 11.8

Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing or certification of service suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licenses or certification granted in the Area of the other Party.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the Area of a non-Party, nothing in this Chapter shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the Area of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 2, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education or experience obtained, requirements met, or licenses or certifications granted in that other Party's Area should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorisation, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

Article 11.9

Subsidies

Notwithstanding paragraph 3 (b) of Article 11.2, the Parties shall review the issue of disciplines on subsidies related to trade in services in the light of any disciplines agreed under Article XV of *GATS*, with a view to the incorporation of such disciplines into this Agreement.

Article 11.10

Review

Three years after the entry into force of this Agreement and in pursuit of the objectives and purposes of this Chapter, the Commission may review this Chapter, taking into account the developments and regulations on trade in services of the Parties as well as the progress made at the WTO and other specialised forums.

Article 11.11

Denial of Benefits

Subject to prior notification and consultations, a Party may deny the benefits of this Chapter to:

- (a) service suppliers of the other Party where the service is being supplied by a juridical person that is owned or controlled by persons of a non-Party and the juridical person has no substantive business operations in the Area of the other Party; or

¹³ Refers solely and exclusively to matters relating to international and foreign law. If an advisory service involves an appearance before a Chilean court of justice or administrative body, then this must be conducted by a lawyer authorised to practise in Chile who fulfils the requirement of being a Chilean national. The same requirement must be fulfilled whenever there is a need for a written instrument to be submitted or a formal procedure carried out before the above-mentioned court or administrative body. The provision of advisory services does not confer the right to use the title of Attorney and therefore does not include representation or advisory services in contentious or non-contentious matters.

¹⁴ Financial statements must be endorsed by a professional legally authorised to practise in Chile.

APPENDIX II

Additional Commitments on Regulatory Principles

Scope

The following are definitions and principles on the regulatory framework for basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidisation;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time; or
- (b) after a reasonable period of time which has been made publicly known,

to an independent domestic body, which may be a regulator as referred to in paragraph 5, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Hong Kong, China has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by Hong Kong, China.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulator is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

b) Insurance and reinsurance services:

1. In Chile, the insurance business is divided into two groups: the first group comprises companies that insure property or patrimony (*patrimonio*) against the risk of loss or damage, while the second comprises those that cover personal risks or guarantee, within or at the end of a certain term, a capital sum, a paid-up policy or an income for the insured or his beneficiaries. The same insurance company may not be constituted in such a way as to cover both categories of risk.
2. Credit insurance companies, even though classified in the first group, must be constituted as legal entities with the sole purpose of covering this type of risk, i.e. loss of or damage to the patrimony of the insured as a result of the non-payment of a money debt or loan, being also permitted to cover guarantee and fidelity risks.
3. The Chilean insurance schedule does not include insurance related to the social security system.

The successor shall have all the powers and duties of the original panelist. The work of the arbitral panel shall be suspended for a period beginning on the date the original panelist dies, becomes unable to act or resigns. The work of the arbitral panel shall resume on the date the successor is appointed.

Article 17.8

In the event of such a suspension, the time-frames set out in paragraphs 2, 5 and 7 of Article 17.10 and paragraph 7 of Article 17.12 shall be extended by the amount of time that the work of the arbitral panel was suspended. If the work of the arbitral panel has been suspended for more than 12 months, the

authority for establishment of the arbitral panel shall lapse unless the Parties agree otherwise.

2. The Parties may agree to terminate the proceedings of the arbitral panel by jointly notifying the chair of the arbitral panel at any time before the issuance of the report to the Parties.

2. Unless the Parties agree otherwise, the arbitral panel shall, within 120 days after the date of its establishment, or within 60 days after the date of its establishment in cases of urgency, including those which concern perishable goods, submit to the Parties its draft report.

3. The draft report shall contain both the descriptive part summarising the submissions and arguments of the Parties and the findings, procedural rulings and determinations of the arbitral panel. The arbitral panel may make recommendations for resolution of the dispute in its report. The findings, procedural rulings and determinations of the panel and, if applicable, any recommendations cannot add to or diminish the rights and obligations of the Parties provided in this Agreement.

4. When the arbitral panel considers that it cannot submit its draft report within the 120-day or 60-day period referred to in paragraph 2, it may extend that period with the consent of the Parties.

5. A Party may provide written comments to the arbitral panel on its draft report within 15 days after the date of submission of the draft report to the Parties.

9. The report of the arbitral panel, other than any recommendations made, shall be final and binding on the Parties.

Article 17.11

Implementation of the Report

1. Unless the Parties agree otherwise, the Party complained against shall eliminate the non-conformity with this Agreement or the nullification or impairment in the sense of Article 17.1 (c) as determined in the final report of the arbitral panel, immediately, or if this is not practicable, within a reasonable period of time.

2. The Parties shall continue to consult at all times on the possible development of a mutually satisfactory resolution.

3. The reasonable period of time referred to in paragraph 1 shall be mutually determined by the Parties. The reasonable period of time should not exceed 12 months from the date of the issuance of the arbitral panel's final report to the Parties unless the Parties agree otherwise. Where the Parties fail to agree on the reasonable period of time within 45 days after the date of issuance of the final report of the arbitral panel referred to in Article 17.10, either Party may refer the matter to an arbitral panel as provided for in Article 17.12.7, which shall determine the reasonable period of time.

4. Where there is disagreement between the Parties as to whether the Party complained against eliminated the non-conformity or the nullification or impairment in the sense of Article 17.1 (c) as determined in the report of the arbitral panel within the reasonable period of time as determined pursuant to paragraph 3, either Party may refer the matter to an arbitral panel as provided for in Article 17.12.7.

Article 17.12

Non-Implementation – Compensation and Suspension of Concessions or Other Obligations

1. If the Party complained against notifies the complaining Party that it is impracticable, or the arbitral panel to which the matter is referred pursuant to Article 17.11.4 confirms that the Party complained against has failed, to eliminate the non-conformity with this Agreement or the nullification or impairment in the sense of Article 17.1 (c) as determined in the final report of

the arbitral panel within the reasonable period of time as determined pursuant to Article 17.11.3, the Party complained against shall, if so requested, enter into negotiations with the complaining Party with a view to reaching mutually satisfactory compensation.

2. If there is no agreement on satisfactory compensation within 20 days after the date of receipt of the request mentioned in paragraph 1, the complaining Party may suspend the application to the Party complained against of concessions or other obligations under this Agreement, after giving notification of such suspension 30 days in advance. Such notification may only be given after the 20-day period has lapsed. Concessions or other obligations under this Agreement shall not be suspended while the complaining Party is pursuing negotiations under paragraph 1.

3. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full elimination of the non-conformity with this Agreement or the nullification or impairment in the sense of Article 17.1 (c) as determined in the final report of the arbitral panel. The suspension shall only be applied until such time as the non-conformity with this Agreement or the nullification or impairment in the sense of Article 17.1 (c) is fully eliminated, or a mutually satisfactory resolution is reached.

4. In considering what concessions or other obligations to suspend pursuant to paragraph 2:

- (a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector(s) as that in which the final report of the arbitral panel referred to in Article 17.10 has found the non-conformity with this Agreement or the nullification or impairment of benefits in the sense of Article 17.1 (c); and
- (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector(s), it may suspend concessions or other obligations with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based.

5. The level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

6. If the Party complained against considers that the requirements for the suspension of concessions or other obligations by the complaining Party set

out in paragraph 2, 3, 4 or 5 have not been met, it may refer the matter to an arbitral panel.

7. The arbitral panel that is established for the purposes of this Article or Article 17.11 shall have, wherever possible, as its panelists, the panelists of the original arbitral panel. If this is not possible, then the panelists to the arbitral panel that is established for the purposes of this Article or Article 17.11 shall be appointed pursuant to Article 17.7. The arbitral panel established for the purposes of this Article or Article 17.11 shall issue its report within 60 days after the date when the matter is referred to it. When the arbitral panel considers that it cannot issue its report within the aforementioned 60-day period, it may extend that period for a maximum of 30 days with the consent of the Parties. The report shall be made available to the public within 15 days after the date of issuance, subject to the requirement to protect confidential information. The report shall be final and binding on the Parties. If the arbitral panel finds that the responding Party has complied with the findings and rulings, the complaining Party shall promptly stop the suspension of benefits under Article 17.12.

Article 17.13

Rules of Procedure

The Commission shall adopt the Rules of Procedure which provide for the details of the rules and procedures of arbitral panels established under this Chapter, upon the entry into force of this Agreement. Unless the Parties agree otherwise, the arbitral panel shall follow the Rules of Procedure adopted by the Commission and may, after consulting the Parties, adopt additional Rules of Procedure not inconsistent with the rules adopted by the Commission.

Article 17.14

Application and Modification of Rules and Procedures

Any time period or other rules and procedures for arbitral panels provided for in this Chapter, including the Rules of Procedure referred to in Article 17.13, may be modified by mutual consent of the Parties. The Parties may also agree at any time not to apply any provision of this Chapter.
