- (a) to foster the development of domestic industry;
- (b) to maintain currency stability, when the increase in the world price of an export commodity creates the risk of a currency overvaluation; or

2. With respect to the goods covered by this Part, the EAC Partner State(s) shall accord to the UK any more favourable treatment applicable as a result of the EAC Partner State(s) becoming parties to a free trade agreement with any major trading economy after the signature of this Agreement. Provided that the UK can demonstrate that it has been given less favourable treatment than that offered by the EAC Partner State(s) to any other major trading economy, the Parties shall to the extent possible, consult and jointly decide on how best to implement the provisions of this paragraph on a case by case basis.

---

<sup>1</sup> This calculation shall be based on the WTO official data on leading exporters on world merchandise trade (excluding intra-EU trade).

- (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

4. A finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. The application of a temporary suspension shall be subject to the following conditions:

- (a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Committee of Senior Officials of its finding together with the objective information and enter into consultations within the Committee of Senior Officials, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
- (b) Where the Parties have entered into consultations within the Committee of Senior Officials as above and have failed to agree on an acceptable solution within three (3) months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the EPA Council without undue delay.
- (c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six (6) months, and may be renewed. They shall be subject to periodic consultations within the Committee of Senior Officials in particular with a view to their termination as soon as the conditions for their application no longer exist.

6. At the same time as the notification to the Committee of Senior Officials under paragraph 5(a) of this Article, the Party concerned should publish a notice to importers in its official journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

## ARTICLE 17

### **Management of Administrative Errors**

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol 1 concerning the definition of the concept of “originating products” and methods of administrative cooperation, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the Committee of Senior Officials to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Imported products originating in one Party shall be accorded treatment no less favourable than that accorded to like domestic products of the other Party in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges, which are based exclusively on the economic operation of the means of transport and not on the origin of the product.

3. Neither Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. 5. The Parties agree to take appropriate measures where an increase in effort results in catch levels above the target sustainable level established by the competent national authority.
6. In order to conserve and manage straddling stocks and highly migratory fish stocks, the UK and the EAC Partner State(s) shall ensure compliance by vessels flying their flags with relevant national, regional and sub-regional fisheries management measures and related national laws and regulations.

Observers are to be paid by the national governments but all costs on board are to be met by the ship-owner. The UK may support the costs of training observers.
- (d) Common systems of reporting of fishing will be developed and used throughout the region, with minimum terms set for reporting.
- (e) All vessels that land or tranship their catch within an EAC Partner State shall do so in ports or outer-port areas. No transhipment shall be allowed at sea, except on particular conditions foreseen by the relevant Regional Fisheries Management Organisation (RFMO). The Parties shall cooperate to develop and modernise landing or transhipment infrastructure in ports of the EAC Partner State(s), including development capacity of fish products.

## ARTICLE 124

### **Arbitration Panel Rulings Procedure**

1. The arbitration panel shall make every effort to take any decision by consensus. Where a decision cannot be adopted by consensus, the matter at issue shall be decided by majority vote.
2. Any ruling of the arbitration panel shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the reasoning behind any findings, recommendations and conclusions that it makes. The Committee of Senior Officials shall make the arbitration panel rulings publicly available.
3. The arbitration panel ruling shall be final and binding on Parties.

## ARTICLE 125

### **List of Arbitrators**

1. The Committee of Senior Officials shall, not later than six (6) months after the entry into force of this Agreement, establish a list of at least fifteen (15) individuals who are willing and able to serve as arbitrators. The list shall be composed of three sub-lists: one sub-list for each Party to serve as arbitrators; and one sub-list of individuals that are not nationals of either Party and who shall act as Chairperson to the arbitration panel. Each sub-list shall include at least five (5) individuals. The Committee of Senior Officials shall ensure that the list is always maintained at this level in accordance with the Rules of Procedure.
2. Should any of the sub-lists not be established or not contain sufficient names of individuals at the time a notice is made pursuant to Article 113(2), the arbitrators shall be drawn by lot from the individuals who have been formally proposed for the respective sub-list by one or both of the Parties. If only one Party has proposed names, the three arbitrators shall be drawn by lot from among these names.
3. In case there is no list of arbitrators established under paragraph 1 above or names of arbitrators proposed under paragraph 2, the Party initiating the process of arbitration shall request the Secretary General of the Permanent Court of Arbitration to act as the appointing authority.
4. Arbitrators shall have specialised knowledge of and experience in law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the government of any of the Parties, and shall comply with the Code of Conduct annexed to the Rules of Procedures to be adopted by the EPA Council within six (6) months after the entry into force of this Agreement.

## ARTICLE 126

### **Relations with WTO Dispute Settlement**

1. Arbitration panels set up under this Agreement shall not adjudicate disputes on either Party's rights and obligations under the WTO Agreement.
2. Recourse to the dispute settlement provisions of this Agreement shall be without prejudice to any action in the WTO Agreement, including dispute settlement action. However, where a Party has, with regard to a particular measure, initiated a dispute settlement proceeding, either under this Title or under the WTO Agreement, it may not institute a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. In addition, a Party shall not seek redress for the breach of an obligation which is identical under the Agreement and under the WTO Agreement in the two fora. In such case, once a dispute settlement proceeding has been initiated, the Party shall not bring a claim seeking redress for the breach of the identical obligation under the other agreement to the other forum, unless the forum selected fails for procedural or jurisdictional reasons to make findings on the claim seeking redress of that obligation.
3. A Party may, with regard to a particular measure, institute a dispute settlement proceeding, either under this Part or under the WTO Agreement:
  - (a) dispute settlement proceedings under this Part are deemed to be initiated by a Party's request for the establishment of an arbitration panel under Article 112 and are deemed to be ended when the arbitration panel notifies its ruling to the Parties and to the Committee of Senior Officials under Article 115 or where a mutually agreed solution has been reached under Article 119;
  - (b) dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO (DSU) and are deemed to be ended when the Dispute Settlement Body adopts the Panel's report, and the Appellate Body's report as the case may be, under Articles 16 and 17(14) of the DSU.
4. Nothing in this Agreement shall preclude a Party from implementing the suspension of obligations authorised by the Dispute Settlement Body of the WTO. The WTO Agreement shall not preclude a Party from suspending obligations under this Agreement.

## ARTICLE 127

### **Time Limits**

1. Any time limits laid down in this Part, including the limits for the arbitration panels to notify their rulings, shall be counted in calendar days from the day following the act or fact to which they refer.
2. Any time limit referred to in this Part may be extended by mutual agreement of the Parties.

## ARTICLE 128

### **General Exception Clause**

1. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent the adoption or enforcement by the UK or the EAC Partner State(s) of measures:

- (i) involving restrictions on exports of domestic materials necessary to ensure essential quantities of such materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan. However, such measures shall not operate to increase the exports of or the protection afforded to such domestic industry, and shall not depart from the provisions of this Agreement relating to non-discrimination; or
- (j) essential to the acquisition or distribution of products in general or local short supply, provided that any such measures shall be consistent with the principle that the UK or the EAC Partner State(s) are entitled to an equitable share of the international supply of such products, and that any such measures, which are inconsistent with the other provisions of this Agreement, shall be eliminated as soon as the conditions giving rise to them have ceased to exist.

2. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent the adoption or enforcement of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of agreements to avoid double taxation or other tax arrangements or domestic fiscal legislation.

3. Nothing in this Agreement shall affect the rights and obligations of the Parties under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency.

The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

3. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An origin declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.

6. An origin declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

## ARTICLE 23

1. The customs authorities of the exporting country may authorise any exporter who makes frequent shipments of products under the trade cooperation provisions of this Agreement to make out origin declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

1. A proof of origin shall be valid for ten (10) months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

## ARTICLE 25

### **Submission of Proof of Origin**

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

## ARTICLE 26

### **Importation by Instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) for the interpretation of the Harmonized System falling within Sections XVI and XVII or heading 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

## ARTICLE 27

In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

## ARTICLE 28

6. Notwithstanding the provisions of paragraph 5 and when Article 4 is applied, when an EAC Partner State supplier regularly supplies a particular EAC Partner State customer with goods whose status in respect of the rules of preferential origin is expected to remain constant for considerable periods of time, he may provide a single declaration to cover subsequent shipments of those goods, hereinafter referred to as a "Long Term Supplier's Declaration". A Long Term Supplier's Declaration may be issued for a period of up to one (1) year from the date of issue of the Declaration. The supplier shall inform the buyer immediately when the long-term supplier's declaration is no longer valid in relation to the goods supplied.

7. When paragraph 6 is applied the evidence of originating status within the meaning of this Protocol of the materials coming from an EAC Partner State shall be given by the Long Term Supplier's Declaration, a specimen of which appears in Annex V (C). However, where the origin and the supplier's declaration are established using electronic data-processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the customs authorities in the State where the supplier's declarations are established. The said customs authorities may lay down conditions for the implementation of this paragraph.

10. The supplier's declarations or the Long Term Supplier's Declaration as referred to in paragraph 6 shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR 1.

#### ARTICLE 31

##### **Discrepancies and Formal Errors**

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

#### ARTICLE 32

##### **Amounts Expressed in Euro for Goods Referred to in Articles 22(1)(b) and Article 27(3)**

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of an EAC Partner State, of the UK and of the other countries or territories referred to in Articles 3, 4, 5 and 6 equivalent to the amounts expressed in euro shall be exchange rates fixed annually according to paragraphs 2 to 4. The fixed exchange rate shall not be applicable for tax purposes.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the UK by 15 October and shall apply from 1 January the following year. The Parties shall notify each other of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Committee at the request of the UK or of the EAC Partner State(s). When carrying out this review, the Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR 1 and the invoice, if it has been submitted, the origin declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's or manufacturer's accounts or any other check considered appropriate.
4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in an EAC Partner State, in the UK or in one of the other countries and territories referred to in Articles 3, 4, 5 and 6 and fulfil the other requirements of this Protocol.

1. Verification of suppliers' declarations shall be carried out based on risk analysis and at random or whenever the customs authorities of the country where such declarations have been taken into account to issue a movement certificate EUR 1 or to make out an origin declaration, have reasonable doubts as to the authenticity of the document or the correctness of the information given in this document.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI to this Protocol. Alternatively, the certifying authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made.

A copy of the information certificate shall be preserved by the office which has issued it for five (5) years in the case of the EAC Partner State(s) and at least three (3) years in the case of UK.

3. The customs authorities requesting the verification shall be informed of the results thereof within ten (10) months. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for them to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR 1 or for making out an origin declaration.

4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.

5. Any movement certificate EUR 1 or origin declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

## ARTICLE 38

### **Dispute Settlement**

Where disputes arise in relation to the verification procedures of Articles 36 and 37 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

#### ARTICLE 39

##### **Penalties**

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

#### ARTICLE 40

##### **Derogations**

1. Derogations from this Protocol may be adopted by the Committee, where the development of existing industries or the creation of new industries in the EAC Partner State(s) justify them.

An EAC Partner State or States concerned shall, either before or when submitting the matter to the Committee, notify the UK of its request for derogation together with the reasons for the request in accordance with paragraph 2.

The UK shall respond positively to all the EAC Partner State(s)' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established UK industry.

2. In order to facilitate the examination by the Committee of request for derogation, the EAC Partner State or States making the request shall, by means of the form given in Annex VII to this Protocol, furnish in support of its request the fullest possible information covering in particular the points listed below:

- (a) description of the finished product;
- (b) nature and quantity of materials originating in a third country;
- (c) nature and quantity of materials originating in the EAC Partner State(s) or the countries or territories referred to in Articles 4 and 5 or the materials which have been processed there;
- (d) manufacturing processes;
- (e) value added;
- (f) number of employees in the enterprise concerned;

- (g) anticipated volume of exports to the UK;
- (h) other possible sources of supply for raw materials;
- (i) reasons for the duration requested in the light of efforts made to find new sources of supply;
- (j) other observations.

The same rules shall apply to any requests for extension. The Committee may modify the form.

3. The examination of requests shall in particular take into account:

- (a) the level of development or the geographical situation of the EAC Partner State or States concerned;
- (b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in an EAC Partner State to continue its exports to the UK, with particular reference to cases where this could lead to cessation of its activities;
- (c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realisation of the investment programme would enable these rules to be satisfied by stages.

4. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.

5. In the examination of requests, special account shall be taken, case by case, of the possibility of conferring originating status on products which include in their composition materials originating in neighbouring developing countries, least-developed countries or developing countries with which one or more EAC Partner State(s) have special relations, provided that satisfactory administrative cooperation can be established.

6. Without prejudice to paragraphs 1 to 5, the derogation shall be granted provided that the derogation is not such as to cause serious injury to an economic sector of the UK.

7. Without prejudice to and in addition to paragraphs 1 to 6, derogations concerning tuna loins of heading 1604 made from non-originating tuna of headings 0302 or 0303 shall be granted within an annual quota of 681 tonnes. Applications for such derogations shall be submitted by the EAC Partner State(s) in accordance with the abovementioned quota to the Committee, which shall grant them automatically and put them into force by means of a decision. The Parties agree to review this quota

as appropriate through the Committee and in light of the development of existing industries or the creation of new industries in the EAC Partner State(s).

8. The Committee shall take steps necessary to ensure that a decision is reached as soon as possible and in any case not later than seventy-five (75) working days after the request is received by the UK Co-chairman of the Committee. If the UK does not inform an EAC Partner State of its position on the request within this period, the request shall be deemed to have been accepted.

9. (a) The derogation shall be valid for a period, generally of five (5) years, to be determined by the Committee.

(b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the EAC Partner State concerned submits, three (3) months before the end of each period, proof that it is still unable to meet the conditions of this Protocol which have been derogated from.

If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 8. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

(c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

## **TITLE VI**

### **CEUTA AND MELILLA**

#### **ARTICLE 41**

##### **Special Conditions**

1. The term “EU” used in this Protocol does not cover Ceuta and Melilla. The term “products originating in the EU” does not cover products originating in Ceuta and Melilla.

**TITLE VII**  
**FINAL PROVISIONS**

ARTICLE 42

**Revision and Application of Rules of Origin**

1. In accordance with Articles 9 and 142 of this Agreement, this Protocol including its Annexes shall be reviewed every five (5) years after entry into force of this Agreement, or whenever the EAC Partner State(s) or the UK so request, with a view to making any necessary amendments or adaptations, in particular having regard to the principle that wherever possible and upon agreement by both Parties, for each product specific rule of Annex II the same rule of origin applies to the exports of both Parties. In such review, the Parties shall also take into account the development needs of the EAC Partner State(s) such as development of technologies, production processes and all other factors.

The decisions taken shall be implemented as soon as possible.

2. In accordance with Article 29 of this Agreement, the Committee shall, *inter alia*:

- (a) take decisions on cumulation under the conditions laid down in Article 6;
- (b) take decisions on derogations from this Protocol, under the conditions laid down in Article 40;
- (c) recommend amendments of this Protocol to the EPA Council.

ARTICLE 43

**Amendment of the Protocol**

The EPA Council may decide to amend the provisions of this Protocol.

ARTICLE 44

**Annexes**

The Annexes to this Protocol shall form an integral part thereof.

ARTICLE 45

**Implementation of the Protocol**

The UK and the EAC Partner State(s) shall each take the steps necessary to implement this Protocol.

## **ANNEX I**

### **Protocol 1**

#### **Introductory notes to the list in Annex II**

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 8 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4 and 5 or 6. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in columns 3 or 4 and 5 or 6 apply only to the part of that heading as described in column 2.

2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 and 5 or 6 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4 and 5 or 6.

4. Where, for an entry in the first two columns, a rule is specified in both columns 3 or 4 and 5 or 6, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4 or the rule set out in column 5 or that set out in column 6. If no origin rule is given in column 4 or 6, the rule set out in column 3 or 5 has to be applied.

Note 3:

1. The provisions of Article 8 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the UK or in the EAC Partner State(s).

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No ex 7224.

If this forging has been forged in the UK from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the UK. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3. Without prejudice to Note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No ..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

2. The term "natural fibres" includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,

- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
  - yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,
  - yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,
  - products of heading No 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 per cent of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 per cent in respect of this yarn.
4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10% of the total weight of all the textile materials incorporated.

Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not be regarded as trimmings or accessories.

2. Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.

3. In accordance with Note 3.5, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

For example<sup>1</sup>, if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process<sup>2</sup>;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

2. For the purposes of heading Nos 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process<sup>1</sup>;
- (c) cracking;

---

<sup>1</sup> This example is given for the purpose of explanation only. It is not legally binding.

<sup>2</sup> See Introductory Note 7.4.

- (d) reforming
- (e) extraction by means of selective solvents;
- (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;
- (j) in respect of heavy oils falling within heading No ex 2710 only, desulphurisation with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);
- (k) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;
- (l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250°C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolourisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.

3. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

4. Redistillation by a very thorough fractionation process means distillation (other than topping) by a continuous or batch process employed in industrial installations using distillates of subheadings 2710 12 11 to 2710 19 48, 2711 11 00, 2711 12 91 to 2711 19 00 , 2711 21 00 and 2711 29 00 (other than propane of a purity of 99% or more) to obtain:

- (a) isolated high-purity hydrocarbons (90% or more in the case of olefins, and 95% or more in the case of other hydrocarbons), mixtures of isomers having the same organic composition being regarded as isolated hydrocarbons.

Only those processes by means of which at least three different products are obtained are admissible, but this restriction does not apply in any instance where the process consists in the separation of isomers. In so far as this concerns xylenes, ethylbenzene is included with xylene isomers;

- (b) products of subheadings 2707 10 00 to 2707 30 00, 2707 50 00 and 2710 12 11 to 2710 19 48:
  - i. with no overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 60 °C between the temperatures at which 5 and 90% by volume (including losses) distil by the EN ISO 3405 method (equivalent to the ASTM D 86 method);
  - ii. with an overlapping of the final boiling point of one fraction and the initial boiling point of the succeeding fraction and a difference of not more than 30 °C between the temperatures at which 5 and 90% by volume (including losses) distil by the EN ISO 3405 method (equivalent to the ASTM D 86 method).

Note 8

### **General Provisions concerning certain agricultural goods**

1. All agricultural goods falling within Chapters 6, 7, 8, 9, 10, 12 and heading 2401 which are grown or harvested in the territory of the beneficiary country shall be treated as originating in the territory of that country, even if grown from seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants imported from another country.

2. In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 1701 (sucrose) and 1702 (e.g., fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for calculation of such limitations.

The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol.
