3. If, at any moment following the date of entry into force of this Agreement, a Party reduces its applied most-favoured-nation (MFN) customs duty rate, such duty rate shall apply as base rate if and for as long as it is lower than the customs duty rate calculated in accordance with Annex II to this Agreement.

4. After the entry into force of this Agreement, the Parties may agree to consider accelerating and broadening the scope of the elimination of customs duties on trade between the Parties. A decision of the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, on the acceleration or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to Annex II to this Agreement.

5. During the third year after the entry into force of this Agreement, the Parties shall assess the situation, taking account of the pattern of trade in agricultural products between the Parties, the particular sensitivities of such products and the development of agricultural policy on both sides.

6. The Parties shall examine, in the Political and Strategic Dialogue in Trade configuration, on an appropriate reciprocal basis, the opportunities for granting each other further concessions with a view to improving liberalisation of trade in agricultural products, in particular those subject to tariff-rate quotas (TRQs).

ARTICLE 125

Anti-circumvention mechanism for agricultural products and processed agricultural products

1. The products listed in Annex II-C to this Agreement are subject to the anti-circumvention mechanism. The average annual volume of imports from the Republic of Moldova into the UK for each category of those products is provided in Annex II-C to this Agreement.

2. When the volume of imports of one or more categories of products referred to in paragraph 1 of this Article reaches 70 % of the volume indicated in Annex II-C in any given year starting on 1 January, the UK shall notify the Republic of Moldova about the volume of imports of the product(s) concerned. Following that notification and within 14 calendar days from the date on which the volume of imports of one or more categories of products referred to in paragraph 1 of this Article reaches 80 % of the volume indicated in Annex II-C to this Agreement, the Republic of Moldova shall provide the UK with a sound justification for the increase of imports. If those imports reach 100 % of the volume indicated in Annex II-C to this Agreement, and in the absence of a sound justification by the Republic of Moldova, the UK may temporarily suspend the preferential treatment for the products concerned.

The suspension shall be applicable for a period of six months and shall take effect on the date of publication of the decision to suspend preferential treatment. Upon entry into force of this agreement, the UK shall provide Moldova with details on the UK's means of publication. The UK's means of publication shall be directly accessible by electronic means free of charge through a single point of access on the internet.

3. All temporary suspensions adopted pursuant to paragraph 2 shall be notified by the UK to the Republic of Moldova without undue delay.

4. A temporary suspension may be lifted before the expiry of six months from its entry into force by the UK if the Republic of Moldova provides evidence within the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, that the volume of the relevant category of products imported in excess of the volume referred to in Annex II-C to this Agreement results from a change in the level of production and export capacity of the Republic of Moldova for the product(s) concerned.

5. Annex II-C to this Agreement may be amended and the volume modified by mutual consent of the UK and the Republic of Moldova in the Political and Strategic Dialogue in Trade configuration at the request of the Republic of Moldova, in order to reflect changes in the level of production and export capacity of the Republic of Moldova for the product(s) concerned.

ARTICLE 126

Standstill

Neither Party may increase any existing customs duty, or adopt any new customs duty, on a good originating in the other Party. That shall not preclude either Party from:

- (a) raising a customs duty to the level established in Annex I following a unilateral reduction; or
- (b) maintaining or increasing a customs duty as authorised by the Dispute Settlement Body (DSB) of the WTO.

ARTICLE 127

Customs duties on exports

Neither Party shall adopt or maintain any duty or tax, other than internal charges applied in accordance with Article 129 of this Agreement, on or in connection with the export of goods to the territory of the other Party.

ARTICLE 128

Fees and other charges

Each Party shall ensure, in accordance with Article VIII of GATT 1994 and the interpretative notes thereon, that all fees and charges of whatever character other than customs duties or other measures referred to in Article 124 of this Agreement, imposed on, or in connection with, the import or export of goods are limited in amount to the approximate cost of services rendered and do not represent an indirect protection of domestic goods or a taxation of imports or exports for fiscal purposes.

SECTION 3

NON-TARIFF MEASURES

ARTICLE 129

National treatment

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994, including the interpretative notes thereon. To that end, Article III of GATT 1994 and the interpretative notes thereon are incorporated into this Agreement and made an integral part thereof.

ARTICLE 130

Import and export restrictions

Neither Party shall adopt or maintain any prohibition or restriction on the import of any good of the other Party or on the export or sale for export of any good destined for the territory of the other Party, except as otherwise provided in this Agreement or in accordance with Article XI of GATT 1994 and the interpretative notes thereon. To that end, Article XI of GATT 1994 and the interpretative notes thereon are incorporated into this Agreement and made an integral part thereof.

SECTION 4

SPECIFIC PROVISIONS RELATED TO GOODS

ARTICLE 131

General exceptions

1. Nothing in this Chapter shall be construed to prevent the adoption or enforcement by any Party of measures in accordance with Articles XX and XXI of GATT 1994 and any relevant interpretative notes to those Articles under GATT 1994, which are hereby incorporated into this Agreement and made an integral part thereof.
2. The Parties understand that before taking any measures for which justification could be sought under sub-paragraphs (i) and (j) of Article XX of GATT 1994, the Party intending to take the measures shall provide the other Party with all relevant information and seek a solution acceptable to the Parties. If no agreement is reached within 30 days of providing such information, the Party may apply measures under this paragraph on the good concerned. Where exceptional and critical circumstances require immediate action and make prior information or examination impossible, the Party intending to take the measures may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

SECTION 5

ADMINISTRATIVE COOPERATION AND COORDINATION WITH OTHER COUNTRIES

ARTICLE 132

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation and assistance are essential for the implementation and the control of the preferential treatment granted under this Chapter and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where a Party has made a finding, on the basis of objective information, of a failure of the other Party to provide administrative cooperation or assistance and/or of irregularities or fraud under this Chapter, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article and, in particular, the procedure provided for under paragraph 5.
3. For the purposes of this Article, failure to provide administrative cooperation or assistance shall mean, inter alia:
 - (a) a repeated failure to respect the obligations to verify the originating status of the good(s) concerned;
 - (b) a repeated refusal or undue delay in carrying out and/or communicating the results of a subsequent verification of the proof of origin;
 - (c) repeated refusal or undue delay in obtaining authorisation to conduct enquiry visits to determine the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.
4. For the purposes of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in the volume of imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. The application of a temporary suspension shall be subject to the following conditions:

(a) the Party which has made a finding, on the basis of objective information, of a failure to provide administrative co-operation or assistance and/or of irregularities or fraud shall, without undue delay, notify the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, of its finding together with the objective information and enter into consultations within the Political and Strategic Dialogue, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties;

(b) where the Parties have entered into consultations within the aforementioned Political and Strategic Dialogue and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the good(s) concerned. A temporary suspension shall be notified to the Political and Strategic Dialogue in Trade configuration without undue delay;

(c) temporary suspensions under this Article shall be limited to what is necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed if at the date of expiry nothing has changed with respect to the conditions that gave rise to the initial suspension. They shall be subject to periodic consultations within the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, in particular with a view to their termination as soon as the conditions for their application no longer apply.

6. Each Party shall publish all notices to importers concerning any notification referred to in paragraph 5(a), any decision referred to in paragraph 5(b), and any extension or termination as referred to in paragraph 5(c), according to its internal procedures.

ARTICLE 133

Management of administrative errors

In case of an error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of the provisions of Protocol I to this Agreement concerning the definition of originating products and methods of administrative cooperation, where that error leads to consequences in terms of import duties, the Party facing such consequences may request that the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, examines the possibility of adopting all appropriate measures with a view to resolving the situation.

ARTICLE 134

Agreements with other countries

1. This Agreement shall not preclude the maintenance or establishment of customs unions, other free trade areas or arrangements for frontier traffic except in so far as they conflict with the trade arrangements provided for in this Agreement.
2. Consultations between the Parties shall take place within the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, concerning agreements establishing customs unions, other free trade areas or arrangements for frontier traffic and, where requested, on other major issues related to their respective trade policies with third countries.

CHAPTER 2

TRADE REMEDIES

SECTION 1

GLOBAL SAFEGUARD MEASURES

ARTICLE 135

General provisions

1. The Parties confirm their rights and obligations under Article XIX of GATT 1994 and the Agreement on Safeguards contained in Annex 1A to the Agreement Establishing the World Trade Organisation (the WTO Agreement) (the Agreement on Safeguards) and Article 5 of the Agreement on Agriculture, contained in Annex 1A to the WTO Agreement (the Agreement on Agriculture).
2. The preferential rules of origin established under Chapter 1 (National Treatment and Market Access for Goods) of Title V (Trade and Trade-related Matters) of this Agreement shall not apply to this Section.
3. The provisions of this Section shall not be subject to Chapter 14 (Dispute Settlement) of Title V (Trade and Trade-related Matters) of this Agreement.

ARTICLE 136

Transparency

1. The Party initiating a safeguard investigation shall notify the other Party of such initiation, provided the latter has a substantial economic interest.
2. Notwithstanding Article 135 of this Agreement, at the request of the other Party, the Party initiating a safeguard investigation and intending to apply safeguard measures shall provide immediately *ad hoc* written notification of all the pertinent information leading to the initiation of a safeguard investigation and the imposition of safeguard measures, including, where relevant, information on the initiation of a safeguard investigation, on the provisional findings and on the final findings of the investigation, as well as offer the possibility for consultations to the other Party.
3. For the purposes of this Article, a Party shall be considered as having a substantial economic interest when it is among the five largest suppliers of the imported product during the most recent three-year period, measured in terms of either absolute volume or value.

ARTICLE 137

Application of measures

1. When imposing safeguard measures, the Parties shall endeavour to impose them in a way that affects their bilateral trade the least.
2. For the purposes of paragraph 1, if a Party considers that the legal requirements for the imposition of definitive safeguard measures are met and intends to apply such measures, that Party shall notify the other Party and give the latter the possibility to hold bilateral consultations. If no satisfactory solution has been reached within 30 days of the notification, the importing Party may take the appropriate measures to remedy the problem.

SECTION 2

ANTI-DUMPING AND COUNTERVAILING MEASURES

ARTICLE 138

General provisions

1. The Parties confirm their rights and obligations under Article VI of GATT 1994, the Agreement on Implementation of Article VI of GATT 1994, contained in Annex 1A to the WTO Agreement (the Anti-Dumping Agreement), and the Agreement on Subsidies and Countervailing Measures, contained in Annex 1A to the WTO Agreement (the SCM Agreement).
2. The preferential rules of origin established under Chapter 1 (National Treatment and Market Access for Goods) of Title V (Trade and Trade-related Matters) of this Agreement shall not apply to this Section.
3. The provisions of this Section shall not be subject to Chapter 14 (Dispute Settlement) of Title V (Trade and Trade-related Matters) of this Agreement.

ARTICLE 139

Transparency

1. The Parties agree that anti-dumping and countervailing measures should be used in full compliance with the requirements of the Anti-Dumping Agreement and the SCM Agreement, respectively, and should be based on a fair and transparent system.
2. The Parties shall ensure, immediately after the imposition of provisional measures and before the final determination is made, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6(5) of the Anti-Dumping Agreement and Article 12(4) of the SCM Agreement. Disclosures shall be made in writing and allow interested parties sufficient time to make their comments.
3. Provided it does not unnecessarily delay the conduct of the investigation, each interested party shall be granted the possibility to be heard in order to express its views during anti-dumping and anti-subsidy investigations.

ARTICLE 140

Consideration of public interest

Anti-dumping or countervailing measures may not be applied by a Party where, on the basis of the information made available during the investigation, it can clearly be concluded that it is not in the public interest to apply such measures. The public interest determination shall be based on an appreciation of all the various interests taken as a whole, including the interests of the domestic industry, users, consumers and importers to the extent that they have provided relevant information to the investigating authorities.

ARTICLE 141

Lesser duty rule

Should a Party decide to impose a provisional or a definitive anti-dumping or countervailing duty, the amount of such duty shall not exceed the margin of dumping or the total amount of countervailable subsidies, but it should be less than the margin of dumping or the total amount of countervailable subsidies if such a lesser duty would be adequate to remove the injury to the domestic industry.

SECTION 3

BILATERAL SAFEGUARD MEASURES

ARTICLE 142

Application of a bilateral safeguard measure

1. If, as a result of the reduction or elimination of a customs duty under this Agreement, goods originating in a Party are being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to the domestic industry producing like or directly competitive goods, the importing Party may adopt the measures provided for in paragraph 2 in accordance with the conditions and procedures laid down in this Section.

2. The importing Party may take a bilateral safeguard measure which:

(a) suspends further reduction of the rate of customs duty on the good concerned provided for under this Agreement; or

(b) increases the rate of customs duty on the good to a level which does not exceed the lesser of:

(i) the MFN applied rate of customs duty on the good in effect at the time the measure is taken; or

(ii) the base rate of customs duty specified in the Schedules included in Annex II pursuant to Article 124 of this Agreement.

ARTICLE 143

Conditions and limitations

1. A Party shall notify the other Party in writing of the initiation of an investigation described in paragraph 2 and consult with the other Party, as far in advance of applying a bilateral safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a bilateral safeguard measure only following an investigation by its competent authorities in accordance with Articles 3 and 4.2(c) of the Agreement on Safeguards. To that end, Articles 3 and 4.2(c) of the Agreement on Safeguards are incorporated into this Agreement and made part thereof, *mutatis mutandis*.

3. When conducting the investigation described in paragraph 2 of this Article, the Party shall comply with the requirements of Article 4.2(a) of the Agreement on Safeguards. To that end, Article 4.2(a) of the Agreement on Safeguards is incorporated into this Agreement and made part thereof, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any investigation described in paragraph 2 within one year of the date of its initiation.

5. Neither Party may apply a bilateral safeguard measure:

(a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate the adjustment of the domestic industry;

(b) for a period exceeding two years. However, that period may be extended by up to two years if the competent authorities of the importing Party determine, in accordance with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate the adjustment of the domestic industry and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years;

(c) beyond the expiration of the transitional period; or

(d) with respect to the same product, at the same time as a measure under Article XIX of GATT 1994 and the Agreement on Safeguards is applied.

6. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to its Schedule included in Annex II to this Agreement, would have been in effect but for the measure.

ARTICLE 144

Provisional measures

In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination that there is clear evidence that the imports of a good originating in the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports cause serious injury, or a threat thereof, to the domestic industry. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 143(2) and 143(3) of this Agreement. The Party shall promptly refund any duty paid in excess of the customs duty set out in Annex II to this Agreement if the investigation described in Article 143(2) of this Agreement does not result in a finding that the requirements of Article 142 of this Agreement have been met. The duration of any provisional measure shall be counted as part of the period prescribed in Article 143(5)(b) of this Agreement.

ARTICLE 145

Compensation

1. A Party applying a bilateral safeguard measure shall consult with the other Party in order to arrive at a mutually agreed appropriate trade-liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the safeguard measure. The Party shall provide an opportunity for such consultations no later than 30 days after the application of the bilateral safeguard measure.
2. If the consultations under paragraph 1 do not result in an agreement on trade-liberalising compensation within 30 days after the consultations begin, the Party whose goods are subject to the safeguard measure may suspend the application of substantially equivalent concessions to the Party applying the safeguard measure.
3. The right of suspension referred to in paragraph 2 shall not be exercised for the first 24 months during which a bilateral safeguard measure is in effect, provided that the safeguard measure conforms to the provisions of this Agreement.

ARTICLE 146

Definitions

For the purposes of this Section:

(a) ‘serious injury’ and ‘threat of serious injury’ shall be understood in accordance with Article 4.1(a) and (b) of the Agreement on Safeguards. To that end, Article 4.1(a) and (b) of the Agreement on Safeguards is incorporated into this Agreement and made part thereof, *mutatis mutandis*; and

(b) ‘transitional period’ means a period of 10 years from 01 September 2014.

1. Without prejudice to Articles 150 and 151 of this Agreement, and with respect to technical regulations relating to labelling or marking requirements, the Parties reaffirm the principles of Chapter 2.2 of the TBT Agreement that such requirements are not prepared, adopted or applied with a view to or with the effect of creating unnecessary obstacles to international trade. For that purpose, such labelling or marking requirements shall not be more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risks that non-fulfilment would create.
2. Regarding obligatory marking or labelling in particular, the Parties agree that:
 - (a) they will endeavour to minimise their needs for marking or labelling, except as required for the protection of health, safety or the environment, or for other reasonable public policy purposes; and
 - (b) they retain the right to require the information on the label or marking to be in a specified language.

(b) without prejudice to Articles 160, 162 and 166 of this Agreement, and unless the importing Party raises an explicit objection and requests supporting or additional information, consultations and/or verification, each Party shall take without undue delay the necessary legislative and administrative measures to allow trade on the basis of point (a) of this paragraph.

Recognition of regionalisation/zoning and pest free areas (PFAs)

3. The Parties recognise the concept of regionalisation and PFAs, as specified in the International Plant Protection Convention (IPPC) of 1997 and the International Standards for Phytosanitary Measures (ISPMs) of the Food and Agriculture Organisation of the United Nations (FAO), which they agree to apply to trade between them.

4. The Parties agree that regionalisation decisions for animal and fish diseases listed in Annex IV-A to this Agreement and for pests listed in Annex IV-B to this Agreement shall be taken in accordance with the provisions of Annex V Part A and B to this Agreement.

5. As regards animal diseases, in accordance with the provisions of Article 160 of this Agreement, the exporting Party seeking recognition of its regionalisation decision by the importing Party shall notify its measures with full explanations and supporting data for its determinations and decisions. Without prejudice to Article 161 of this Agreement, and unless the importing Party raises an explicit objection and requests additional information, consultations and/or verification within 15 working days following receipt of the notification, the regionalisation decision so notified shall be deemed accepted.

The consultations referred to in the first subparagraph of this paragraph shall take place in accordance with Article 161(3) of this Agreement. The importing Party shall assess the additional information within 15 working days following receipt of the additional information. The verification referred to in the first sub-paragraph of this paragraph shall be carried out in accordance with Article 164 of this Agreement within 25 working days following receipt of the request for verification.

A Party seeking recognition of its PFA by the other Party shall notify its measures and, upon request, provide full explanation and supporting data for its establishment and maintenance, as guided by the FAO or IPPC, including ISPMs. Without prejudice to Article 166 of this Agreement, and unless a Party raises an explicit objection and requests additional information, consultations and/or verification within three months following the notification, the regionalisation decision for PFA so notified shall be deemed accepted.

The consultations referred to in the first sub-paragraph of this paragraph shall take place in accordance with Article 161(3) of this Agreement. The importing Party shall

assess the additional information within three months following receipt of the additional information. The verification referred to in the first sub-paragraph of this paragraph shall be carried out in accordance with Article 164 of this Agreement within 12 months following receipt of the request for verification, taking into account the biology of the pest and the crop concerned.

7. After finalisation of the procedures referred to in paragraphs 4 to 6 of this Article, and without prejudice to Article 166 of this Agreement, each Party shall take, without undue delay, the necessary legislative and administrative measures to allow trade on that basis.

8. The Parties commit to engaging in further discussions with a view to implementing the principle of compartmentalisation.

ARTICLE 159

Recognition of equivalence

1. Equivalence may be recognised in relation to:
 - (a) an individual measure;
 - (b) a group of measures; or
 - (c) a system applicable to a sector, sub-sector, commodities or a group of commodities.
2. With regard to recognition of equivalence, the Parties shall follow the process set out in paragraph 3. That process shall include an objective demonstration of equivalence by the exporting Party and an objective assessment of the request by the importing Party. That assessment may include inspections or verifications.
3. Upon request of the exporting Party concerning recognition of equivalence as set out in paragraph 1 of this Article, the Parties shall without delay and no later than three months following the receipt of such request by the importing Party, initiate the consultation process which includes the steps set out in Annex VII to this Agreement. In case of multiple requests from the exporting Party, the Parties, upon request of the importing Party, shall agree within the SPS Sub-Committee referred to in Article 167 of this Agreement on a time schedule during which they shall initiate and conduct the process referred to in this paragraph.

4. Unless otherwise agreed, the importing Party shall finalise the process for recognition of equivalence referred to in paragraph 3 of this Article within 12 months after the receipt of the request of the exporting Party, including a dossier demonstrating the equivalence. That time-limit may be extended with regard to seasonal crops when it is justifiable to delay the assessment to permit verification during a suitable period of growth of a crop.

5. The importing Party determines equivalence as regards plants, plant products and other objects in accordance with the relevant ISPMs.

6. The importing Party may withdraw or suspend equivalence on the basis of any amendment by one of the Parties of measures affecting equivalence, provided that the following procedure is followed:

(a) in accordance with the provisions of Article 160(2) of this Agreement, the exporting Party shall inform the importing Party of any proposal for amendment of its measures for which equivalence of measures is recognised and the likely effect of the proposed measures on the equivalence which has been recognised. Within one month following the receipt of that information, the importing Party shall inform the exporting Party whether or not equivalence would continue to be recognised on the basis of the proposed measures;

(b) in accordance with the provisions of Article 160(2) of this Agreement, the importing Party shall inform the exporting Party of any proposal for amendment of its measures on which recognition of equivalence has been based and the likely effect of the proposed measures on the equivalence which has been recognised. Should the importing Party not continue to recognise equivalence, the Parties may agree on the conditions to re-initiate the process referred to in paragraph 3 of this Article on the basis of the proposed measures.

7. The recognition, suspension or withdrawal of equivalence rests solely with the importing Party acting in accordance with its administrative and legislative framework. That Party shall provide to the exporting Party, in writing, a full explanation and supporting data used for the determinations and decisions covered by this Article. In case of non-recognition, suspension or withdrawal of equivalence, the importing Party shall indicate to the exporting Party the required conditions on the basis of which the process referred to in paragraph 3 may be reinitiated.

8. Without prejudice to Article 166 of this Agreement, the importing Party may not withdraw or suspend equivalence before the proposed new measures of either Party enter into force.

9. In case equivalence is formally recognised by the importing Party, on the basis of the consultation process as set out in Annex VII to this Agreement, the SPS Sub-Committee shall, in accordance with the procedure set out in Article 167(5) of this Agreement, endorse the recognition of equivalence in trade between the Parties. That endorsement decision may also provide for the reduction of physical checks at the frontiers, simplification of certificates and pre-listing procedures for the establishments, as applicable.

The status of the equivalence shall be listed in Annex X to this Agreement.

ARTICLE 160

Transparency and exchange of information

1. Without prejudice to Article 161 of this Agreement, the Parties shall cooperate to enhance mutual understanding of the other Party's official control structure and mechanisms tasked with the application of the measures listed in Annex III to this Agreement and of the effectiveness of such a structure and mechanism. That can be achieved, amongst others, through reports of international audits when they are made public by the Parties. The Parties can exchange information on the results of such audits or other information, as appropriate.

2. In the framework of recognition of equivalence as referred to in Article 159 of this Agreement, the Parties shall keep each other informed of legislative and procedural changes adopted in the concerned areas.

3. The necessary level of cooperation should be reached in order to facilitate transmission of legislative documents upon request of one of the Parties.

To that effect, each Party shall notify, without delay, the other Party of its contact points, including any changes to those contact points.

ARTICLE 161

Notification, consultation and facilitation of communication

1. Each Party shall notify the other Party in writing within two working days of any serious or significant human, animal or plant health risk, including any food control emergencies or situations where there is a clearly identified risk of serious health effects associated with the consumption of animal or plant products, in particular:

- (a) any measures affecting the regionalisation decisions referred to in Article 158 of this Agreement;

(b) the presence or evolution of any animal disease listed in Annex IV-A to this Agreement or of the regulated pests listed in Annex IV-B to this Agreement;

(c) findings of epidemiological importance or important associated risks with respect to animal diseases and pests which are not listed in Annexes IV-A and IV-B to this Agreement or which are new animal diseases or pests; and

(d) any additional measures beyond the basic requirements to their respective measures taken by the Parties to control or eradicate animal diseases or pests or protect public or plant health and any changes in prophylactic policies, including vaccination policies.

2. Notifications shall be made in writing to the contact points referred to in Article 160(3) of this Agreement.

Notification in writing means notification by mail, fax or e-mail. Notifications shall only be sent between the contact points referred to in Article 160(3) of this Agreement.

3. Where a Party has serious concerns regarding a risk to human, animal or plant health, consultations regarding the situation shall, upon request of that Party, take place as soon as possible and, in any case, within 15 working days of that request. In such situations, each Party shall endeavour to provide all the information necessary to avoid a disruption in trade, and to reach a mutually acceptable solution consistent with the protection of human, animal or plant health.

4. Upon request of a Party, consultations regarding animal welfare shall take place as soon as possible and, in any case, within 20 working days from the date of notification. In such situations, each Party shall endeavour to provide all the requested information.

5. Upon request of a Party, consultations as referred to in paragraphs 3 and 4 of this Article shall be held by video or audio conference. The requesting Party shall ensure the preparation of the minutes of the consultation, which shall be formally approved by the Parties. For the purposes of that approval, the provisions of Article 160(3) of this Agreement shall apply.

6. A mutually applied rapid alert system and early warning mechanism for any veterinary and phytosanitary emergencies will start at a later stage after the Parties have decided on the arrangements for the functioning of such mechanisms.

ARTICLE 162

Trade conditions

1. General import conditions:

(a) The Parties agree to subject imports of any commodity covered by Annexes III-A and III-C(2) and (3) to this Agreement to general import conditions. Without prejudice to the decisions taken in accordance with Article 158 of this Agreement, the import conditions of the importing Party shall be applicable to the total territory of the exporting Party. Upon entry into force of this Agreement and in accordance with the provisions of Article 160 of this Agreement, the importing Party shall inform the exporting Party of its sanitary and/or phytosanitary import requirements for commodities referred to in Annexes III-A and III-C to this Agreement. That information shall include, as appropriate, the models for the official certificates or declarations or commercial documents, as prescribed by the importing Party.

(b) (i) Any amendment or proposed amendment of the conditions referred to in paragraph 1(a) of this Article shall comply with the relevant notification procedures of the SPS Agreement whether or not they refer to measures covered by the SPS Agreement;

(ii) Without prejudice to the provisions of Article 166 of this Agreement, the importing Party shall take into account the transport time between the Parties to establish the date of entry into force of the amended conditions referred to in paragraph 1(a) of this Article; and

(iii) If the importing Party fails to comply with those notification requirements, it shall continue to accept the certificate or the attestation guaranteeing the previously applicable conditions until 30 days after the amended import conditions enter into force.

2. Import conditions after recognition of equivalence:

(a) Within a reasonable period of time following the date of adoption of the decision on recognition of equivalence, the Parties shall take the necessary legislative and administrative measures to implement the recognition of equivalence in order to allow, on that basis, trade between them of the commodities referred to in Annexes III-A and III-C(2) and (3) to this Agreement. For those commodities, the model for the official certificate or official document required by the importing Party may, then, be replaced by a certificate drawn up as provided for in Annex IX Part B to this Agreement.

(b) For commodities in sectors or sub-sectors for which not all measures are recognised as equivalent, trade shall continue on the basis of compliance with the conditions referred to in paragraph 1(a) of this Article. Upon request of the exporting Party, the provisions of paragraph 5 of this Article shall apply.

3. From the date of entry into force of this Agreement, the commodities referred to in Annexes III-A and III-C(2) to this Agreement shall not be subject to a specific import authorisation.

4. For conditions affecting trade of the commodities referred to in paragraph 1(a) of this Article, upon request of the exporting Party, the Parties shall enter into consultations within the SPS Sub-Committee in accordance with the provisions of Article 167 of this Agreement, in order to agree on alternative or additional import conditions of the importing Party. Such alternative or additional import conditions may, when appropriate, be based on measures of the exporting Party recognised as equivalent by the importing Party. If agreed, the importing Party shall within 90 days take the necessary legislative and/or administrative measures to allow import on the basis of the agreed import conditions.

5. List of establishments, conditional approval:

(a) For the import of animal products referred to in Part 2 of Annex III-A to this Agreement, upon request of the exporting Party accompanied by the appropriate guarantees, the importing Party shall, subject to and in accordance with its domestic legislation, provisionally approve the processing establishments referred to in paragraph 2 of Annex VI to this Agreement which are situated in the territory of the exporting Party, without prior inspection of individual establishments. Such approval shall be consistent with the conditions and provisions set out in Annex VI to this Agreement. Except when additional information is requested, the importing Party shall take the necessary legislative and/or administrative measures to allow import on that basis within one month following the date of receipt of the request and the relevant guarantees by the importing Party.

The initial list of establishments shall be approved in accordance with the provisions of Annex VI to this Agreement.

(b) For the import of animal products referred to in paragraph 2(a) of this Article, the exporting Party shall inform the importing Party of its list of establishments meeting the importing Party's requirements.

6. Upon request of a Party, the other Party shall provide the explanation and the supporting data for the determinations and decisions covered by this Article.

3. The Parties shall agree on common models of certificates, where appropriate.

ARTICLE 164

(b) to receive information from the other Party about its control system and be informed of the results of the controls carried out under that system.

2. Either Party may share the results of the verifications referred to in paragraph 1(a) with third parties and make the results publicly available as may be required by provisions applicable to either Party. Confidentiality provisions applicable to either Party shall be respected in such sharing and/or publication of results, where appropriate.

3. If the importing Party decides to carry out a verification visit to the exporting Party, the importing Party shall notify the exporting Party of that verification visit at least three months before the verification visit is to be carried out, except in emergency cases or if the Parties agree otherwise. Any modification to that visit shall be agreed by the Parties.

4. The costs incurred in undertaking a verification of all or part of the other Party's competent authorities' inspection and certification systems, or other measures, where applicable, shall be borne by the Party carrying out the verification or the inspection.

5. The draft written communication of verifications shall be forwarded to the exporting Party within three months after the end of verification. The exporting Party shall have 45 working days to comment on the draft written communication. Comments made by the exporting Party shall be attached to and, where appropriate, included in the final outcome. However, where a significant human, animal or plant health risk has been identified during the verification, the exporting Party shall be informed as quickly as possible and in any case within 10 working days following the end of the verification.

6. For clarity the results of a verification may contribute to the procedures referred to in Articles 159 and 165 of this Agreement conducted by the Parties or one of the Parties.

ARTICLE 165

Import checks and inspection fees

1. The Parties agree that import checks by the importing Party of consignments from the exporting Party shall respect the principles set out in Annex VIII Part A to this Agreement. The results of those checks may contribute to the verification process referred to in Article 164 of this Agreement.

2. The frequencies of physical import checks applied by each Party are set out in Annex VIII Part B to this Agreement. A Party may amend those frequencies, within its competence and in accordance with its internal legislation, as a result of progress made in accordance with Articles 159 and 162 of this Agreement, or as a result of verifications, consultations or other measures provided for in this Agreement. The SPS Sub-Committee referred to Article 167 of this Agreement shall accordingly modify Annex VIII Part B to this Agreement by decision.

3. Inspection fees may only cover the costs incurred by the competent authority for performing import checks. The fee shall be calculated on the same basis as the fees charged for the inspection of similar domestic products.

4. The importing Party shall upon request of the exporting Party inform the exporting Party of any amendment, including the reasons for such an amendment, concerning the measures affecting import checks and inspection fees, and of any significant changes in the administrative conduct for such checks.

5. The Parties may agree on the conditions to approve, as from a date to be determined by the SPS Sub-Committee referred to in Article 167 of this Agreement, each other's controls as referred to in Article 164(1)(b) of this Agreement with a view to adapting and reciprocally reducing, where applicable, the frequency of physical import checks for the commodities referred to in Article 162(2)(a) of this Agreement.

From that date onwards, the Parties may reciprocally approve each other's controls for certain commodities and consequently reduce or replace the import checks for those commodities.

ARTICLE 166

Safeguard measures

1. Should the exporting Party take within its territory measures to control any cause likely to constitute a serious hazard or risk to human, animal or plant health, the exporting Party, without prejudice to the provisions of paragraph 2, shall take equivalent measures to prevent the introduction of the hazard or risk into the territory of the importing Party.
2. On grounds of serious human, animal or plant health, the importing Party may take provisional measures necessary for the protection of human, animal or plant health. For consignments en route between the Parties, the importing Party shall consider the most suitable and proportionate solution in order to avoid unnecessary disruptions to trade.
3. The Party adopting measures under paragraph 2 of this Article shall inform the other Party no later than one working day following the date of the adoption of the measures. Upon request of either Party, and in accordance with the provisions of Article 161(3) of this Agreement, the Parties shall hold consultations regarding the situation within 15 working days of the notification. ⁽¹⁾ Licencing fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

4. Where specific time periods for applications exist, an applicant shall be allowed a reasonable period for the submission of an application. The competent authority shall initiate the processing of an application without undue delay. 1. Each Party shall respond promptly to all requests by the other Party for specific information on any of its measures of general application or international agreements which pertain to or affect this Agreement. Each Party shall also establish one or more enquiry points to provide specific information to entrepreneurs and services suppliers of the other Party, upon request, on all such matters. The Parties shall notify each other their enquiry points within three months after the entry into force of this Agreement. Enquiry points need not be depositories of laws and regulations.

2. Nothing in this Agreement shall require any Party to provide confidential information, the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or prejudice legitimate commercial interests of particular enterprises, public or private.

SUB-SECTION 3
COMPUTER SERVICES

ARTICLE 199

Understanding on computer services

1. To the extent that trade in computer services is liberalised in accordance with Section 2 (Establishment), Section 3 (Cross-border Supply of Services) and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter, the Parties shall comply with the provisions of this Article.

2. CPC⁽¹⁾ 84, the UN code used for describing computer and related services, covers the basic functions used to provide all computer and related services:

- (a) computer programmes defined as the sets of instructions required to make computers work and communicate (including their development and implementation);
- (b) data processing and storage; and
- (c) related services, such as consultancy and training services for staff of clients.

Technological developments have led to the increased offering of those services as a bundle or package of related services that can include some or all of those basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.

3. Computer and related services, regardless of whether they are delivered via a network, including the internet, include all services that provide:

- (a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems;
- (b) computer programmes, defined as the sets of instructions required to make computers work and communicate (in and of themselves), and consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programmes;

⁽¹⁾ CPC means the Central Products Classification as set out in the Statistical Office of the UN, Statistical Papers, Series M, No 77, CPC prov, 1991.

- (c) data processing, data storage, data hosting or database services;
- (d) maintenance and repair services for office machinery and equipment, including computers; or
- (e) training services for staff of clients, related to computer programmes, computers or computer systems, and not elsewhere classified.

4. Computer and related services enable the provision of other services (e.g. banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g. web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g. banking). In such cases, the content or core service is not covered by CPC 84.

SUB-SECTION 4
POSTAL AND COURIER SERVICES

ARTICLE 200

Scope and definitions

1. This Sub-Section sets out the principles of the regulatory framework for all postal and courier service liberalised in accordance with Section 2 (Establishment), Section 3 (Cross-border Supply of Services) and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter.
2. For the purposes of this Sub-Section and of Section 2 (Establishment), Section 3 (Cross-border Supply of Services) and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter:
 - (a) a ‘licence’ means an authorisation, granted to an individual supplier by a regulatory authority, which is required before supplying a given service;
 - (b) ‘universal service’ means the permanent provision of a postal service of specified quality at all points in the territory of a Party at affordable prices for all users.

ARTICLE 201

Prevention of anti-competitive practices in the postal and courier sector

Appropriate measures shall be maintained or introduced for the purpose of preventing suppliers who, alone or together, have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for postal and courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

ARTICLE 202

Universal service

Each Party has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.

ARTICLE 203

Licences

1. A licence may only be required for services which are within the scope of the universal service.
2. Where a licence is required, the following shall be made publicly available:
 - (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
 - (b) the terms and conditions of licences.
3. The reasons for the denial of a licence shall be made known to the applicant upon request. An appeal procedure through an independent body will be established by each Party. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.

ARTICLE 204

Independence of the regulatory body

The regulatory body shall be legally separate from, and not accountable to, any supplier of postal and courier services. The decisions of and the procedures used by the regulatory body shall be impartial with respect to all market participants.

SUB-SECTION 5

ELECTRONIC COMMUNICATION NETWORKS AND SERVICES

ARTICLE 205

Scope and definitions

1. This Sub-Section sets out the principles of the regulatory framework for all electronic communication services liberalised pursuant to Section 2 (Establishment), Section 3 (Cross-border Supply of Services), and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter.
2. For the purposes of this Sub-Section and Section 2 (Establishment), Section 3 (Cross-border Supply of Services), and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter:
 - (a) ‘electronic communication services’ means all services which consist wholly or mainly in the conveyance of signals on electronic communication networks, including telecommunication services and transmission services in networks used for broadcasting. Those services exclude services providing, or exercising editorial control over, content transmitted using electronic communication networks and services;
 - (b) ‘public communication network’ means an electronic communication network used wholly or mainly for the provision of publicly available electronic communication services;
 - (c) ‘electronic communication network’ means transmission systems and, where applicable, switching or routing equipment and other resources which permit the conveyance of signals by wire, by radio or by optical or other electromagnetic means, including satellite networks, fixed (circuit- and packet-switched, including internet) and mobile terrestrial networks, electricity cable systems, to the extent that they are used for the purpose of transmitting signals, networks used for radio and television broadcasting, and cable television networks, irrespective of the type of information conveyed;
 - (d) a ‘regulatory authority’ in the electronic communication sector means the body or bodies charged with the regulation of electronic communication referred to in this Chapter;
 - (e) a services supplier shall be deemed to have ‘significant market power’ if, either individually or jointly with others, it enjoys a position equivalent to dominance, that is, a position of economic strength affording it the power to behave to an appreciable extent independently of competitors, customers and ultimately consumers;

(f) ‘interconnection’ means the physical and logical linking of public communication networks used by the same or a different supplier in order to allow the users of one services supplier to communicate with users of the same or another services supplier, or to access services provided by another services supplier. Services may be provided by the Parties involved or other parties who have access to the network. Interconnection is a specific type of access implemented between public network operators;

(g) ‘universal service’ means the set of services of specified quality that is made available to all users in the territory of a Party regardless of their geographical location and at an affordable price. Its scope and implementation are decided by each Party;

(h) ‘access’ means the making available of facilities and/or services to another services supplier under defined conditions, on either an exclusive or non-exclusive basis, for the purpose of providing electronic communication services. It covers, inter alia, access to network elements and associated facilities, which may involve the connection of equipment, by fixed or non-fixed means (this includes, in particular, access to the local loop and to facilities and services necessary to provide services over the local loop); access to physical infrastructure including buildings, ducts, and masts; access to relevant software systems including operational support systems; access to numbering translation or systems offering equivalent functionality; access to fixed and mobile networks, in particular for roaming; access to conditional access systems for digital televisions services; and access to virtual network services;

(i) ‘end-user’ means a user not providing public communication networks or publicly available electronic communication services;

(j) ‘local loop’ means the physical circuit connecting the network termination point at the subscriber’s premises to the main distribution frame or equivalent facility in the fixed public communication network.

ARTICLE 206

Regulatory authority

1. Each Party shall ensure that regulatory authorities for electronic communication services shall be legally distinct and functionally independent from any supplier of electronic communication services. If a Party retains ownership or control of a supplier providing electronic communication networks or services, such Party shall ensure the effective structural separation of the regulatory function from activities associated with ownership or control.

2. Each Party shall ensure that the regulatory authority shall be sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.

3. Each Party shall ensure that the decisions of, and the procedures used by the regulatory authorities are impartial with respect to all market participants and transparent.

4. The regulatory authority shall have the power to carry out an analysis of relevant product and service markets susceptible to an *ex ante* regulation. Where the regulatory authority is required to determine under Article 208 of this Agreement whether to impose, maintain, amend or withdraw obligations it shall determine on the basis of a market analysis whether the relevant market is effectively competitive.

5. Where the regulatory authority determines that a relevant market is not effectively competitive, it shall identify and designate services suppliers with significant market power on that market and shall impose, maintain or amend specific regulatory obligations referred to in Article 208 of this Agreement, as appropriate. Where the regulatory authority concludes that the market is effectively competitive it shall not impose or maintain any of the regulatory obligations referred to in Article 208 of this Agreement.

6. Each Party shall ensure that a services supplier affected by the decision of a regulatory authority shall have a right to appeal against that decision to an appeal body that is independent of the parties involved in the decision. Each Party shall ensure that the merits of the case are duly taken into account. Pending the outcome of any such appeal, the decision of the regulatory authority shall stand, unless the appeal body decides otherwise. Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

7. Each Party shall ensure that where the regulatory authorities intend to take measures related to any of the provisions of this Sub-Section and which have a significant impact to the relevant market, they give the interested parties the opportunity to comment on the draft measure within a reasonable period of time. Regulatory authorities shall publish their consultation procedures. The results of the consultation procedure shall be made publicly available except in the case of confidential information.

8. Each Party shall ensure that suppliers providing electronic communication networks and services provide all the information, including financial information, necessary for regulatory authorities to ensure conformity with the provisions of this Sub-Section or decisions made in accordance with this Sub-Section. Those suppliers shall provide that information promptly, on request and in accordance with the timelines and level of detail required by the regulatory authority. The information requested by the regulatory authority shall be proportionate to the performance of that task. The regulatory authority shall give the reasons justifying its request for information.

ARTICLE 207

Authorisation to provide electronic communication services

1. Each Party shall ensure that the provision of services shall, as much as possible, be authorised following mere notification.
2. Each Party shall ensure that a licence can be required to address issues of attributions of numbers and frequencies. The terms and conditions for such licences shall be made publicly available.
3. Each Party shall ensure that where a licence is required:
 - (a) all the licensing criteria and a reasonable period of time normally required to reach a decision concerning an application for a licence shall be made publicly available;
 - (b) the reasons for the denial of a licence shall be made known in writing to the applicant upon request;
 - (c) the applicant shall be able to seek recourse before an appeal body in case a licence is unduly denied; and
 - (d) licence fees⁽¹⁾ required by any Party for granting a licence shall not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable licences. Licence fees for the use of radio spectrum and numbering resources are not subject to the requirements of this paragraph.

⁽¹⁾ Licence fees do not include payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

ARTICLE 208

Access and interconnection

1. Each Party shall ensure that any services suppliers authorised to provide electronic communication services shall have the right and obligation to negotiate access and interconnection with suppliers of publicly available electronic communication networks and services. Access and interconnection should, in principle, be agreed on the basis of commercial negotiation between the services suppliers concerned.

2. Each Party shall ensure that services suppliers that acquire information from another supplier during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. Each Party shall ensure that upon the finding in accordance with Article 206 of this Agreement that a relevant market is not effectively competitive, the regulatory authority shall have the power to impose on the supplier designated as having significant market power one or more of the following obligations in relation to interconnection and/or access:

(a) obligation on non-discrimination to ensure that the operator applies equivalent conditions in equivalent circumstances to other suppliers providing equivalent services, and provides services and information to others under the same conditions and of the same quality as it provides for its own services or those of its subsidiaries or partners;

(b) obligation of a vertically integrated company to make transparent its wholesale prices and its internal transfer prices, where there is a requirement for non-discrimination or for prevention of unfair cross-subsidy. The regulatory authority may specify the format and accounting methodology to be used;

(c) obligations to meet reasonable requests for access to, and use of, specific network elements and associated facilities, including unbundled access to the local loop, inter alia, in situations where the regulatory authority considers that denial of access or unreasonable terms and conditions having a similar effect would hinder the emergence of a sustainable competitive market at the retail level or would not be in the end user's interest.

Regulatory authorities may attach conditions covering fairness, reasonableness and timeliness to the obligations included under this point;

(d) to provide specified services on a wholesale basis for resale by third parties; to grant open access to technical interfaces, protocols or other key technologies that are indispensable for the interoperability of services or virtual network services; to provide co-location or other forms of facility sharing,

including duct, building or mast sharing; to provide specified services needed to ensure interoperability of end-to-end services to users, including facilities for intelligent network services; to provide access to operational support systems or similar software systems necessary to ensure fair competition in the provision of services; and to interconnect networks or network facilities.

Regulatory authorities may attach conditions covering fairness, reasonableness and timeliness to the obligations included under this point;

(e) obligations relating to cost recovery and price controls, including obligations for cost orientation of prices and obligations concerning cost accounting systems, for the provision of specific types of interconnection and/or access, in situations where a market analysis indicates that a lack of effective competition means that the operator concerned might sustain prices at an excessively high level, or apply a price squeeze, to the detriment of end-users.

Regulatory authorities shall take into account the investment made by the operator and allow him a reasonable rate of return on adequate capital employed, taking into account the risks involved;

(f) to publish the specific obligations imposed on services suppliers by the regulatory authority identifying the specific product/service and geographical markets. Up-to-date information, provided that it is not confidential and it does not comprise business secrets is made publicly available in a manner that guarantees all interested parties easy access to that information;

(g) obligations for transparency requiring operators to make public specified information; in particular, where an operator has obligations of non-discrimination, the regulatory authority may require that operator to publish a reference offer, which shall be sufficiently unbundled to ensure that services suppliers are not required to pay for facilities which are not necessary for the service requested, giving a description of the relevant offerings broken down into components according to market needs, and the associated terms and conditions, including prices.

4. Each Party shall ensure that a service supplier requesting interconnection with a supplier designated as having significant market power shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 205(2)(d) of this Agreement to resolve disputes regarding terms and conditions for interconnection and/or access.

ARTICLE 209

Scarce resources

1. Each Party shall ensure that any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, proportionate, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.
2. Each Party shall ensure the effective management of radio frequencies for electronic communication services in their territory with a view to ensuring effective and efficient use of the spectrum. Where demand for specific frequencies exceeds their availability, appropriate and transparent procedures shall be followed for the assignment of those frequencies in order to optimise their use and facilitate the development of competition.
3. Each Party shall ensure that the assignment of national numbering resources and the management of the national numbering plans are entrusted to the regulatory authority.
4. Where public or local authorities retain ownership or control of suppliers operating public communication networks and/or services, effective structural separation needs to be ensured between the function responsible for granting the rights of way from activities associated with ownership or control.

ARTICLE 210

Universal service

1. Each Party has the right to define the kind of universal service obligations it wishes to maintain.
2. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and shall not be more burdensome than necessary for the kind of universal service defined by the Party.

3. Each Party shall ensure that all suppliers are eligible to ensure universal service and no services supplier is excluded *a priori*. The designation shall be made through an efficient, transparent, objective and non-discriminatory mechanism. Where necessary, each Party shall assess whether the provision of universal service represents an unfair burden on organisation(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit, if any, which accrues to an organisation that offers universal service, regulatory authorities shall determine whether a mechanism is required to compensate the services supplier(s) concerned or to share the net cost of universal service obligations.

ARTICLE 211

Cross-border provision of electronic communication services

Neither Party may require a service supplier of the other Party to set up an establishment, to establish any form of presence, or to be resident in its territory as a condition for the cross-border supply of a service.

ARTICLE 212

Confidentiality of information

Each Party shall ensure the confidentiality of electronic communications and related traffic data by means of a public communication network and publicly available electronic communication services without restricting trade in services.

ARTICLE 213

Disputes between services suppliers

1. Each Party shall ensure that in the event of a dispute arising between suppliers of electronic communication networks or services in connection with rights and obligations referred to in this Chapter, the regulatory authority concerned shall, at the request of either party, issue a binding decision to resolve the dispute in the shortest possible timeframe and in any case within four months.

2. The decision of the regulatory authority shall be made available to the public, having regard to the requirements of business confidentiality. The service suppliers concerned shall be given a full statement of the reasons on which it is based.

3. When such a dispute concerns the cross-border provision of services, the regulatory authorities concerned shall coordinate their efforts in order to bring about a resolution of the dispute.

 - (b) ensuring the integrity and stability of a Party’s financial system.

ARTICLE 217

New financial services

Each Party shall permit a financial service supplier of the other Party to provide any new financial service of a type similar to those services that the Party would permit its own financial service suppliers to provide under its domestic law in like circumstances. A Party may determine the juridical form through which the service may be provided and may require authorisation for the provision of the service. Where such authorisation is required, a decision shall be made within a reasonable time and the authorisation may only be refused for prudential reasons.

ARTICLE 218

Data processing

Each Party shall permit a financial service supplier of the other Party to transfer information in electronic or other form, into and out of its territory, for data processing where such processing is required in the ordinary course of business of such financial service supplier.

ARTICLE 219

Specific exceptions

1. Nothing in this Chapter shall be construed to prevent a Party, including its public entities, from exclusively conducting or providing in its territory activities or services forming part of a public retirement plan or statutory system of social security, except when those activities may be carried out, as provided by the Party's domestic regulation, by financial service suppliers in competition with public entities or private institutions.
2. Nothing in this Agreement applies to activities conducted by a central bank or monetary authority or by any other public entity in pursuit of monetary or exchange rate policies.

ARTICLE 220

Self-regulatory organisations

When a Party requires membership or participation in, or access to, any self-regulatory body, securities or futures exchange or market, clearing agency, or any other organisation or association, in order for financial service suppliers of the other Party to supply financial services on an equal basis with financial service suppliers of the Party, or when the Party provides such entities, directly or indirectly, with privileges or advantages in supplying financial services, the Party shall ensure observance of the obligations of Article 180(1) and Article 186 of this Agreement.

ARTICLE 221

Clearing and payment systems

Under the terms and conditions that accord national treatment, each Party shall grant to financial service suppliers of the other Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This Article does not confer access to the Party's lender of last resort facilities.

ARTICLE 222

International standards

Each Party recognises the importance of alignment of existing and future legislation with international best practice standards listed under Article 216(3) of this Agreement.

SUB-SECTION 7
TRANSPORT SERVICES

Article 223

Scope

This Section sets out the principles regarding the liberalisation of international transport services pursuant to Section 2 (Establishment), Section 3 (Cross-border Supply of Services) and Section 4 (Temporary Presence of Natural Persons for Business Purposes) of this Chapter.

ARTICLE 224

International maritime transport

1. For the purposes of this Sub-Section and Section 2 (Establishment), Section 3 (Cross-border supply of services) and Section 4 (Temporary presence of natural persons for business purposes) of this Chapter:

(a) ‘international maritime transport’ includes door -to -door and multi-modal transport operations, which is the carriage of goods using more than one mode of transport, involving a sea-leg, under a single transport document, and to that effect the right to directly contract with providers of other modes of transport;

(b) ‘maritime cargo handling services’ means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when that workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- (i) the loading/discharging of cargo to/from a ship;
- (ii) the lashing/unlashing of cargo; and
- (iii) the reception/delivery and safekeeping of cargoes before shipment or after discharge;

(c) ‘customs clearance services’ (alternatively ‘customs house brokers’ services’) means activities consisting in carrying out on behalf of another Party customs formalities concerning import, export or through transport of cargoes, whether that service is the main activity of the service provider or a usual complement of its main activity;

(d) ‘container station and depot services’ means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments;

(e) ‘maritime agency services’ means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

(i) marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;

As regards international maritime transport, each Party agrees to ensure effective application of the principle of unrestricted access to cargoes on a commercial basis, the freedom to provide international maritime services, as well as national treatment in the framework of the provision of such services.

In view of the existing levels of liberalisation between the Parties in international maritime transport:

(a) each Party shall apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial and non-discriminatory basis;

(b) each Party shall grant to ships flying the flag of the other Party, or operated by service suppliers of the other Party, treatment no less favourable than that accorded to its own ships or those of any third country, whichever is the better, with regard to, inter alia, access to ports, the use of infrastructure and services of ports, and the use of maritime auxiliary services, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

3. In applying those principles, the Parties shall:
 - (a) not introduce cargo-sharing arrangements in future agreements with third countries concerning maritime transport services, including dry and liquid bulk and liner trade, and terminate, within a reasonable period of time, such cargo-sharing arrangements in case they exist in previous agreements; and
 - (b) upon the entry into force of this Agreement, abolish and abstain from introducing any unilateral measures and administrative, technical and other obstacles which could constitute a disguised restriction or have discriminatory effects on the free supply of services in international maritime transport.
4. Each Party shall permit international maritime transport service suppliers of the other Party to have an establishment in its territory under conditions of establishment and operation no less favourable than those accorded to its own service suppliers or those of any third country, whichever are the better.
5. Each Party shall make available to maritime transport service suppliers of the other Party on reasonable and non-discriminatory terms and conditions the following services at the port: pilotage, towing and tug assistance, provisioning, fuelling and watering, garbage collecting and ballast waste disposal, port captain's services, navigation aids, shore-based operational services essential to ship operations, including communications, water and electrical supplies, emergency repair facilities, anchorage, berth and berthing services.
6. Each Party shall permit the movement of equipment such as empty containers, not being carried as cargo against payment, between ports of the UK or between ports of the Republic of Moldova.
7. Each Party, subject to the authorisation of the competent authority, shall permit international maritime transport service suppliers of the other Party to provide feeder services between their national ports.

ARTICLE 225

Air transport

The progressive liberalisation of air transport between the Parties adapted to their reciprocal commercial needs and the conditions of mutual market access shall be dealt with by an agreement or arrangement governing air services between the Republic of Moldova and the United Kingdom.

SECTION 6
ELECTRONIC COMMERCE

SUB-SECTION 1
GENERAL PROVISIONS

ARTICLE 226

Objective and principles

1. The Parties, recognising that electronic commerce increases trade opportunities in many sectors, agree to promote the development of electronic commerce between them, in particular by cooperating on the issues raised by electronic commerce under the provisions of this Chapter.

 - (c) does not select or modify the information contained in the transmission.
2. The acts of transmission and of provision of access referred to in paragraph 1 include the automatic, intermediate and transient storage of the information transmitted in so far as it takes place for the sole purpose of carrying out the transmission in the communication network, and provided that the information is not stored for any period longer than is reasonably necessary for the transmission.

1. With regard to transactions on the capital and financial account of balance of payments, from 1st September 2014, the Parties shall ensure the free movement of capital relating to direct investments, including the acquisition of real estate, made in accordance with the laws of the host country, investments made in accordance with the provisions of Chapter 6 (Establishment, Trade in Services and Electronic Commerce) of Title V (Trade and Trade-related Matters) of this Agreement, and the liquidation or repatriation of invested capital and of any profit stemming therefrom.

The Party adopting the safeguard measure shall inform the other Party forthwith of the adoption of any safeguard measure and, as soon as possible, of a time schedule for its removal.

ARTICLE 239

The Parties shall consult with a view to facilitating the movement of capital between the Parties in order to promote the objectives of this Agreement.

CHAPTER 8
PUBLIC PROCUREMENT

ARTICLE 240

Objectives

1. The Parties recognise the contribution of transparent, non-discriminatory, competitive and open tendering to sustainable economic development and set as their objective the effective, reciprocal and gradual opening of their respective procurement markets.
2. This Chapter envisages mutual access to public procurement markets on the basis of the principle of national treatment at national, regional and local level for public contracts and concessions in the public sector as well as in the utilities sector.

ARTICLE 241

Scope

1. This Chapter applies to works, supplies and services public contracts, as well as works, supplies and service contracts in the utilities sectors and works and services concessions.
2. This Chapter applies to any contracting authority and any contracting entity which meets the definitions of the UK or the Republic of Moldova public procurement domestic law (hereinafter referred to as the ‘contracting entities’). It also covers bodies governed by public law and public undertakings in the field of utilities, such as state-owned enterprises carrying out the relevant activities, and private undertakings operating on the basis of special and exclusive rights in the field of utilities.
3. This Chapter applies to contracts above value thresholds set out in Annex XII-A to this Agreement.
4. The calculation of the estimated value of a public contract shall be based on the total amount payable, net of taxes on value added. When applying those thresholds, the Republic of Moldova will calculate and convert contract values into its national currency, using the conversion rate of its National Bank.

5. Value thresholds shall be revised regularly every two years, beginning in the first even year following the entry into force of this Agreement, based on the average daily value of the euro, expressed in Special Drawing Rights, over the 24 month period terminating on the last day of August preceding the revision, with effect from January 1. The value of the thresholds thus revised shall, where necessary, be rounded down to nearest thousand euro. The revision of the thresholds shall be adopted by decision of the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement.

ARTICLE 242

Institutional background

1. Each Party shall establish or maintain an appropriate institutional framework and mechanisms necessary for the proper functioning of the public procurement system and the implementation of the provisions of this Chapter.

2. The Republic of Moldova shall designate in particular:

(a) an executive body responsible for economic policy at central government level tasked with guaranteeing a coherent policy in all areas related to public procurement. Such a body shall facilitate and coordinate the implementation of this Chapter;

(b) an impartial and independent body tasked with the review of decisions taken by contracting authorities or entities during the award of contracts. In that context, 'independent' means that that body shall be a public authority which is separate from all contracting entities and economic operators. There shall be a possibility to subject the decisions taken by that body to judicial review.

3. Each Party shall ensure that decisions taken by the authorities responsible for the review of complaints by economic operators concerning infringements of domestic law shall be effectively enforced.

ARTICLE 243

Basic standards regulating the award of contracts

1. The Parties shall comply with a set of basic standards for the award of all contracts as stipulated in paragraphs 2 to 15. Those basic standards derive directly from the rules and principles of public procurement, including the principles of non-discrimination, equal treatment, transparency and proportionality.

Publication

2. Each Party shall ensure that all intended procurements are published in an appropriate medium in a manner that is sufficient to:
 - (a) enable the market to be opened up to competition; and
 - (b) allow any interested economic operator to have appropriate access to information regarding the intended procurement prior to the award of the contract and to express its interest in obtaining the contract.
3. The publication shall be appropriate to the economic interest of the contract to economic operators.
4. The publication shall contain at least the essential details of the contract to be awarded, the criteria for qualitative selection, the award method, the contract award criteria and any other additional information that the economic operators reasonably need to decide on whether to express their interest in obtaining the contract.

Award of contracts

5. All contracts shall be awarded through transparent and impartial award procedures that prevent corrupt practices. That impartiality shall be ensured in particular through the non-discriminatory description of the subject matter of the contract, equal access for all economic operators, appropriate time-limits and a transparent and objective approach.
6. When describing the characteristics of the required work, supply or service, the contracting entities shall use general descriptions of performance and functions and international or national standards.
7. The description of the characteristics required of a work, supply or service shall not refer to a specific make or source, or a particular process, or to trademarks, patents, types or a specific origin or production unless such a reference is justified by the subject matter of the contract and accompanied by the words 'or equivalent'. Preference shall be given to the use of general descriptions of performance or functions.
8. Contracting entities shall not impose conditions resulting in direct or indirect discrimination against the economic operators of the other Party, such as the requirement that economic operators interested in the contract are required to be established in the same country, region or territory as the contracting entity.

Notwithstanding the first subparagraph, in cases where it is justified by the specific circumstances of the contract, the successful applicant may be required to establish certain business infrastructure at the place of performance.

9. The time-limits for expression of interest and for submission of offers shall be sufficiently long to allow economic operators from the other Party to make a meaningful assessment of the tender and prepare their offer.

10. All participants are required to know the applicable rules, selection criteria and award criteria in advance. Those rules must apply equally to all participants.

11. Contracting entities may invite a limited number of applicants to submit an offer, provided that:

(a) it is done in a transparent and non-discriminatory manner; and

(b) the selection is based only on objective factors such as the experience of the applicants in the sector concerned, the size and infrastructure of their businesses or their technical and professional abilities.

In inviting a limited number of applicants to submit an offer, account shall be taken of the need to ensure adequate competition.

12. Contracting entities may use negotiated procedures only in exceptional and defined cases when the use of such a procedure effectively does not distort competition.

13. Contracting entities may use qualification systems only under the condition that the list of qualified operators is compiled by means of a sufficiently advertised, transparent and open procedure. Contracts falling within the scope of such a system shall be awarded also on a non-discriminatory basis.

14. Each Party shall ensure that contracts are awarded in a transparent manner to the applicant who has submitted the economically most advantageous offer or the offer with the lowest price, based on the tender criteria and the procedural rules established and communicated in advance. The final decisions shall be communicated to all applicants without undue delay. Upon request of an unsuccessful applicant, reasons must be provided in sufficient detail to allow the review of such a decision.

Judicial protection

15. Each Party shall ensure that any person having or having had an interest in obtaining a particular contract and who has been, or risks being, harmed by an alleged infringement is entitled to effective, impartial judicial protection against any decision of the contracting entity related to the award of that contract. The decisions taken in the course and at the end of such review procedure shall be made public in a manner that is sufficient to inform all interested economic operators.

ARTICLE 244

Market access

1. The Parties agree that the effective and reciprocal opening of their respective markets shall be attained gradually and simultaneously.
2. In so far as a Party has, according to Annex XII-B to this Agreement, opened its procurement market to the other Party:
 - (a) the UK shall grant access to contract award procedures to companies of the Republic of Moldova, whether established or not in the UK, pursuant to national public procurement rules under treatment no less favourable than that accorded to UK companies;
 - (b) the Republic of Moldova shall grant access to contract award procedures for UK companies, whether established or not in the Republic of Moldova, pursuant to national procurement rules under treatment no less favourable than that accorded to companies of the Republic of Moldova.
3. The Parties will examine the possibility to grant mutual market access with regard to procurements below the value thresholds set out in Annex XII-A to this Agreement.

ARTICLE 245

Information

1. Each Party shall ensure that contracting entities and economic operators are appropriately informed about public procurement procedures, including through the publication of all relevant legislation and administrative rulings.
2. Each Party shall ensure the effective dissemination of information on tendering opportunities.

ARTICLE 246

Cooperation

1. The Parties shall enhance their cooperation through exchanges of experience and information relating to their best practices and regulatory frameworks.
2. The UK shall facilitate the implementation of this Chapter, including through technical assistance where appropriate. In line with the provisions in Articles 5 and 6 of this Agreement, specific decisions on financial assistance shall be taken through the relevant UK funding mechanisms and instruments.
3. An indicative list of issues for cooperation is included in Annex XII-C to this Agreement.

ARTICLE 262

International agreements

The Parties shall comply with the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks, the Trademark Law Treaty, the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks and the Singapore Treaty on the Law of Trademarks.

ARTICLE 263

Registration procedure

1. Each Party shall provide for a system for the registration of trademarks in which each final negative decision taken by the relevant trademark administration shall be communicated to the applicant in writing and shall be duly reasoned.
2. Each Party shall provide for the possibility to oppose applications to register trademarks. Such opposition proceedings shall be adversarial.
3. The Parties shall provide a publicly available electronic database of applications and registrations of trademarks.

ARTICLE 264

Well-known trademarks

For the purpose of giving effect to Article 6*bis* of the Paris Convention and Article 16(2) and (3) of the TRIPS Agreement on the protection of well-known trademarks, the Parties shall apply the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of the World Intellectual Property Organisation (WIPO) at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO (September 1999).

ARTICLE 265

Exceptions to the rights conferred by a trademark

Each Party shall provide for limited exceptions to the rights conferred by a trademark, such as the fair use of descriptive terms, the protection of geographical indications as provided for in Article 273 of this Agreement, or other limited exceptions that take account of the legitimate interests of the owner of the trademark and of third parties.

SUB-SECTION 3

GEOGRAPHICAL INDICATIONS

ARTICLE 266

Scope

1. This Sub-Section applies to the recognition and protection of geographical indications which are originating in the territories of the Parties.
2. In order for a geographical indication of a Party to be protected by the other Party, it shall cover products within the scope of the legislation of that Party referred to in Article 267 of this Agreement.
3. 'Geographical indication' means an indication as defined in Article 22(1) of the TRIPS Agreement, which also includes 'designations of origin'.

ARTICLE 267

Established geographical indications

1. Having examined the legislation of the Republic of Moldova on the protection of geographical indications listed in Part A of Annex XIII-A of this Agreement, the UK concludes that that legislation meets the elements laid down in Part C of Annex XIII-A to this Agreement.
2. Having examined the legislation of the UK on the protection of geographical indications listed in Part B of Annex XIII-A to this Agreement, the Republic of Moldova concludes that that legislation meets the elements laid down in Part C of Annex XIII-A to this Agreement.
3. The Republic of Moldova shall protect the geographical indications for agricultural products and foodstuffs of the UK listed in Annex XIII-C to this Agreement and the geographical indications for wines, aromatised wines and spirit drinks of the UK listed in Annex XIII-D to this Agreement, which have been registered by the UK under the legislation referred to in paragraph 2 of this Article, according to the level of protection laid down in this Sub-Section.
4. The UK shall protect the geographical indications for agricultural products and foodstuffs of the Republic of Moldova listed in Annex XIII-C to this Agreement and the geographical indications for wines, aromatised wines and spirit drinks of the Republic of Moldova listed in Annex XIII-D to this Agreement, which have been registered by the Republic of Moldova under the legislation referred to in paragraph 1 of this Article, according to the level of protection laid down in this Sub-Section.

ARTICLE 268

Addition of new geographical indications

1. The Parties agree on the possibility to add new geographical indications to be protected in Annexes XIII-C and XIII-D to this Agreement in accordance with the procedure set out in Article 276(3) of this Agreement after having completed an objection procedure in accordance with the criteria set out in Annex XIII-B to this Agreement and after having examined the geographical indications to the satisfaction of both Parties.

2. A Party shall not be required to protect as a geographical indication a name that conflicts with the name of a plant variety, including a wine grape variety, or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product.

ARTICLE 269

Scope of protection of geographical indications

1. The geographical indications listed in Annexes XIII-C and XIII-D to this Agreement, as well as those added pursuant to Article 268 of this Agreement, shall be protected against:

- (a) any direct or indirect commercial use of a protected name:
 - (i) for comparable products not compliant with the product specification of the protected name; or
 - (ii) in so far as such use exploits the reputation of a geographical indication;
- (b) any misuse, imitation or evocation⁽¹⁾, even if the true origin of the product is indicated or if the protected name is translated, transcribed, transliterated or accompanied by an expression such as 'style', 'type', 'method', 'as produced in', 'imitation', 'flavour', 'like' or similar;
- (c) any other false or misleading indication as to the provenance, origin, nature or essential qualities of the product, on the inner or outer packaging, advertising material or documents relating to the product concerned, and the packing of the product in a container liable to convey a false impression as to its origin; and

⁽¹⁾ The term 'evocation' means, in particular, the use in any way for products falling under heading 20.09 of the HS, although only in so far as those products are referred to as wines falling under heading 22.04, aromatised wines falling under heading 22.05 and spirit drinks falling under heading 22.08 of that system.

(d) any other practice liable to mislead the consumer as to the true origin of the product.

2. If geographical indications are wholly or partially homonymous, protection shall be granted to each indication provided that it has been used in good faith and with due regard for local and traditional usage and the actual risk of confusion. Without prejudice to Article 23 of the TRIPS Agreement, the Parties shall mutually decide the practical conditions of use under which the homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled. A homonymous name which misleads the consumer into believing that products come from another territory shall not be registered even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.

3. Where a Party, in the context of negotiations with a third country, proposes to protect a geographical indication of that third country, and the name is homonymous with a geographical indication of the other Party, the latter shall be consulted and given the opportunity to comment before the name is protected.

4. Nothing in this Sub-Section shall oblige a Party to protect a geographical indication of the other Party which is not or ceases to be protected in its country of origin. The Parties shall notify each other if a geographical indication ceases to be protected in its country of origin.

5. The provisions of this Sub-Section shall in no way prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where that name is used in such a manner as to mislead consumers.

ARTICLE 270

Right of use of geographical indications

1. A name protected under this Sub-Section may be used by any operator marketing, producing, processing or preparing agricultural products, foodstuffs, wines, aromatised wines or spirit drinks conforming to the corresponding product specification.

2. Once a geographical indication is protected under this Sub-Section, the use of such protected name shall not be subject to any registration of users or further charges.

ARTICLE 271

Enforcement of protection

The Parties shall enforce the protection provided for in Articles 267 to 270 of this Agreement by appropriate administrative actions or legal proceedings, as appropriate, including at the customs border (export and import), in order to prevent and stop any unlawful use of the protected geographical indications. They shall also enforce such protection at the request of an interested party.

ARTICLE 272

Implementation of complementary actions

Without prejudice to the Republic of Moldova's previous commitments to grant protection for the UK geographical indications derived from international agreements on the protection of geographical indications and the enforcement thereof, and in accordance with Article 271 of this Agreement, the Republic of Moldova shall put in place all complementary actions necessary to stop any unlawful use of the protected geographical indications, in particular the measures at the customs border.

ARTICLE 273

Relationship with trademarks

1. The Parties shall refuse to register or shall invalidate, *ex officio* or at the request of any interested party in accordance with the legislation of each Party, a trademark that corresponds to any of the situations referred to in Article 269(1) of this Agreement in relation to a protected geographical indication for like products, provided an application to register the trademark is submitted after the date of application for protection of the geographical indication in the territory concerned.
2. For geographical indications referred to in Article 267 of this Agreement, the date of application for protection shall be 1 April 2013, except for those geographical indications which are listed in Annexes XIII-C and XIII-D and accompanied by an asterisk (*) for which the date of application for protection shall be the date of the transmission of a request to the other Party to protect such geographical indication pursuant to the Moldova-EU Association Agreement.
3. For geographical indications referred to in Article 268 of this Agreement, the date of application for protection shall be the date of the transmission of a request to the other Party to protect a geographical indication.

4. For geographical indications referred to in Article 268 of this Agreement, the Parties shall have no obligation to protect a geographical indication where, in the light of a reputed or well-known trademark, protection is liable to mislead consumers as to the true identity of the product.

5. Without prejudice to paragraph 4 of this Article, the Parties shall protect geographical indications also where a prior trademark exists. A prior trademark shall mean a trademark, the use of which corresponds to one of the situations referred to in Article 269(1) of this Agreement, which has been applied for, registered or established by use, if that possibility is provided for by the legislation concerned, in the territory of one of the Parties before the date on which the application for protection of the geographical indication is submitted by the other Party under this Sub-Section. Such trademark may continue to be used and renewed notwithstanding the protection of the geographical indication, provided that no grounds for the trademark's invalidity or revocation exist in the legislation on trademarks of the Parties.

ARTICLE 274

General rules

1. This Sub-Section shall apply without prejudice to the rights and obligations of the Parties under the WTO Agreement.
2. Notwithstanding Article 302 of this Agreement, the import, export and marketing of any product referred to in Articles 267 and 268 of this Agreement shall be conducted in compliance with the laws and regulations applying in the territory of the importing Party.
3. Any matter arising from technical specifications of registered names shall be dealt with in the Geographical Indications Sub-Committee established pursuant to Article 276 of this Agreement.
4. Geographical indications protected under this Sub-Section may only be cancelled by the Party in which the product originates.
5. A product specification referred to in this Sub-Section shall be that approved, including any amendments also approved, by the authorities of the Party in the territory of which the product originates.

ARTICLE 275

Cooperation and transparency

1. The Parties shall, either directly or through the Geographical Indications Sub-Committee established pursuant to Article 276 of this Agreement, maintain contact on all matters relating to the implementation and the functioning of this Sub-Section. In particular, a Party may request from the other Party information relating to product specifications and their modification, and contact points for control provisions.
2. Each Party may make publicly available the product specifications or a summary thereof and contact points for control provisions corresponding to geographical indications of the other Party protected pursuant to this Article.

ARTICLE 276

Geographical Indications Sub-Committee

1. The Geographical Indications Sub-Committee is hereby established.
2. The Geographical Indications Sub-Committee shall consist of representatives of the Parties with the purpose of monitoring the development of this Sub-Section and of intensifying their cooperation and dialogue on geographical indications. It shall report to the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement.
3. The Geographical Indications Sub-Committee adopts its decisions by consensus. It shall determine its own rules of procedure. It shall meet at least once a year and at the request of either of the Parties, alternatively in the UK and in the Republic of Moldova, at a time and place and in a manner (which may include videoconference) mutually determined by the Parties, but no later than 90 days after the request.
4. The Geographical Indications Sub-Committee shall also see to the proper functioning of this Sub-Section and may consider any matter related to its implementation and operation. In particular, it shall be responsible for:
 - (a) amending Part A and Part B of Annex XIII-A to this Agreement as regards the references to the law applicable in the Parties;
 - (b) amending Annexes XIII-C and XIII-D to this Agreement as regards geographical indications;
 - (c) exchanging information on legislative and policy developments on geographical indications and any other matter of mutual interest in the area of geographical indications;

(d) exchanging information on geographical indications for the purpose of considering their protection in accordance with this Sub-Section; and

(e) monitoring the latest developments regarding the enforcement of the protection of the geographical indications listed in Annexes XIII-C and XIII-D to this Agreement.

SUB-SECTION 4

DESIGNS

ARTICLE 277

International agreements

The Parties shall comply with the Geneva Act of the Hague Agreement Concerning the International Registration of Industrial Designs of 1999.

ARTICLE 278

Protection of registered designs

1. Each Party shall provide for the protection of independently created designs that are new and original⁽¹⁾. That protection shall be provided by registration, which shall confer an exclusive right upon the holders of a registered design in accordance with the provisions of this Article.
2. A design applied to or incorporated in a product which constitutes a component part of a complex product shall only be considered to be new and original:
 - (a) if the component part, once it has been incorporated into the complex product, remains visible during normal use of the product; and
 - (b) to the extent that those visible features of the component part fulfil in themselves the requirements as to novelty and originality.
3. The expression 'normal use' in paragraph 2(a) shall mean use by the end user, excluding maintenance, servicing or repair work.
4. The holder of a registered design shall have the right to prevent third parties not having the owner's consent from, at a minimum, making, offering for sale, selling, importing, exporting, stocking or using a product bearing or embodying the protected design when such acts are undertaken for commercial purposes, unduly prejudice the normal exploitation of the design, or are not compatible with fair trade practices.
5. The duration of protection available shall amount to 25 years from the date of filing of the application for registration. Each Party may provide that the right holder may have the term of protection renewed for one or more periods of five years each, up to the maximum term of protection established according to domestic law.

⁽¹⁾ For the purposes of this Article, a Party may consider that a design having individual character is original.

ARTICLE 279

Protection conferred to unregistered designs

1. Each Party shall provide the legal means to prevent the use of unregistered designs, only if the contested use results from copying the unregistered appearance of the product. For the purposes of this Article, the term 'use' includes the offering for sale, putting on the market, import or export of the product.
2. The duration of protection available for unregistered designs shall amount to at least three years from the date on which the design was made available to the public in one of the Parties.⁽¹⁾

ARTICLE 280

Exceptions and exclusions

1. Each Party may provide limited exceptions to the protection of designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected designs and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.
2. Design protection shall not extend to designs dictated essentially by technical or functional considerations. In particular, a design right shall not subsist in features of appearance of a product which are required to be reproduced in their exact form and dimensions in order to permit the product in which the design is incorporated or to which it is applied to be mechanically connected to or placed in, around or against another product so that either product may perform its function.

ARTICLE 281

Relationship to copyright

A design shall also be eligible for protection under the copyright law of a Party as from the date on which the design was created or fixed in any form. The extent to which, and the conditions under which, such a protection is conferred, including the level of originality required, shall be determined by each Party.

⁽¹⁾ For the purpose of this Article, and for the avoidance of doubt, in the United Kingdom an 'unregistered design' is one which is protected by Council Regulation (EC) No 6/2002 of 12 December 2001 on Community designs, as last amended by Council Regulation (EC) No 1891/2006 of 18 December 2006 and converted into United Kingdom law.

SUB-SECTION 5

PATENTS

ARTICLE 282

International agreements

The Parties shall adhere to the provisions of the WIPO Patent Cooperation Treaty and shall make all reasonable efforts to comply with the WIPO Patent Law Treaty.

ARTICLE 283

Patents and public health

1. The Parties recognise the importance of the Declaration of the Ministerial Conference of the WTO on the TRIPS Agreement and Public Health, adopted on 14 November 2001. In interpreting and implementing the rights and obligations under this Chapter, the Parties shall ensure consistency with that Declaration.
2. The Parties shall respect the Decision of the WTO General Council of 30 August 2003 on paragraph 6 of the declaration referred to in paragraph 1 of this Article and shall contribute to its implementation.

ARTICLE 284

Supplementary protection certificate

1. The Parties recognise that medicinal and plant protection products protected by a patent may be subject to an administrative authorisation procedure before being put on their market. They recognise that the period that elapses between the filing of the application for a patent and the first authorisation to place the product on their respective market, as defined for that purpose by domestic law, may shorten the period of effective protection under the patent.
2. Each Party shall provide for a further period of protection for a medicinal or plant protection product which is protected by a patent and which has been subject to an administrative authorisation procedure, that period being equal to the period referred to in the second sentence of paragraph 1, reduced by a period of five years.
3. Notwithstanding paragraph 2, the duration of the further period of protection may not exceed five years.
4. In the case of medicinal products for which paediatric studies have been carried out, and provided that results of those studies are reflected in the product information, the Parties shall provide for a further six-month extension of the period of protection referred to in paragraph 2.

ARTICLE 285

Protection of data submitted to obtain an authorisation to put a medicinal product on the market

1. Each Party shall implement a comprehensive system to guarantee the confidentiality, non-disclosure and non-reliance of data submitted for the purpose of obtaining an authorisation to put a medicinal product on the market.⁽¹⁾
2. Each Party shall ensure that any required information that is submitted to obtain an authorisation to put a medicinal product on the market remains undisclosed to third parties and benefits from protection against unfair commercial use.

⁽¹⁾ For the purposes of this Article, 'medicinal products' means:

- (i) any substance or combination of substances presented for treating or preventing disease in human beings; or
 - (ii) any substance or combination of substances which may be administered to human beings with a view to making a medical diagnosis or to restoring, correcting or modifying physiological functions in human beings.
- Medicinal products include, for example, chemical medicinal products, biological medicinal products (e.g. vaccines, (anti)toxins) including medicinal products derived from human blood or human plasma, advanced therapy medicinal products (e.g. gene therapy medicinal products and cell therapy medicinal products), herbal medicinal products, and radiopharmaceuticals.

To that end:

(a) during a period of at least five years, starting from the date of the grant of a marketing authorisation in the Party concerned, no person or entity, whether public or private, other than the person or entity who submitted such undisclosed data, shall be allowed to rely directly or indirectly on such data, without the explicit consent of the person or entity who submitted that data, in support of an application for the authorisation to put a medicinal product on the market;

(b) during a period of at least seven years, starting from the date of the grant of a marketing authorisation in the Party concerned, a marketing authorisation for any subsequent application shall not be granted, unless the subsequent applicant submits his/her own data, or data used with authorisation of the holder of the first authorisation, meeting the same requirements as in the case of the first authorisation. Products registered without submission of such data shall be removed from the market until the requirements are met.

3. The seven-year period referred to in paragraph 2(b) shall be extended to a maximum of eight years if, during the first five years after obtaining the initial authorisation, the holder obtains an authorisation for one or more new therapeutic indications considered to be of significant clinical benefit in comparison with existing therapies.

4. The provisions of this Article shall not have retroactive effect. They shall not affect the marketing of medicinal products authorised before 1 September 2014⁽¹⁾.

ARTICLE 286

Data protection on plant protection products

1. Each Party shall determine safety and efficacy requirements before authorising the placing on the market of plant protection products.

2. Each Party shall assign a temporary data protection right to the owner of a test or study report submitted for the first time to obtain a marketing authorisation for a plant protection product.

During the period of validity of the data protection right, the test or study report shall not be used for the benefit of any other person aiming to obtain a marketing authorisation for a plant protection product, except when the explicit consent of the owner is provided.

⁽¹⁾ This reflects the start date of the transitional period for the Parties to progressively establish a free trade area, as provided for in Article 120 of this Agreement.

3. The test or study report shall fulfil the following conditions:
 - (a) that it is necessary for the authorisation or for an amendment of an authorisation in order to allow the use on other crops; and
 - (b) that it is certified as compliant with the principles of good laboratory practice or of good experimental practice.
4. The period of data protection shall be at least 10 years from the first authorisation in the Party concerned. In case of low-risk plant protection products, the period may be extended to 13 years.
5. The periods referred to in paragraph 4 shall be extended by three months for each extension of authorisation for minor uses⁽¹⁾ if the applications for such authorisations are made by the holder of the authorisation at the latest five years after the date of the first authorisation. The total period of data protection may in no case exceed 13 years. For low-risk plant protection products the total period of data protection may in no case exceed 15 years.
6. A test or study report shall also be protected if it was necessary for the renewal or review of an authorisation. In those cases, the period for data protection shall be 30 months.

ARTICLE 287

Plant varieties

The Parties shall protect plant varieties rights, in accordance with the International Convention for the Protection of New Varieties of Plants including the optional exception to the breeder's right as referred to in Article 15(2) of the said Convention, and shall cooperate to promote and enforce those rights.

⁽¹⁾ For the purposes of this Article, the expression 'minor use' means use of a plant protection product in a Party on plants or plant products which are not widely grown in that Party or which are widely grown to meet an exceptional plant protection need.

SECTION 3

ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

ARTICLE 288

General obligations

1. The Parties reaffirm their commitments under the TRIPS Agreement, in particular Part III thereof, and shall provide for the complementary measures, procedures and remedies set forth in this Section necessary to ensure the enforcement of intellectual property rights⁽¹⁾.
2. Those complementary measures, procedures and remedies shall be fair and equitable, and shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.
3. Those complementary measures and remedies shall also be effective, proportionate and dissuasive and shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

ARTICLE 289

Entitled applicants

Each Party shall recognise as persons entitled to seek application of the measures, procedures and remedies referred to in this Section and in Part III of the TRIPS Agreement:

- (a) the holders of intellectual property rights in accordance with the provisions of the applicable law;
- (b) all other persons authorised to use those rights, in particular licensees, in so far as permitted by and in accordance with the provisions of the applicable law;

⁽¹⁾ For the purposes of this Sub-Section, the notion of 'intellectual property rights' includes at least the following rights: copyright; rights related to copyright; *sui generis* right of a database maker; rights of the creator of the topographies of a semi-conductor product; trade-mark rights; design rights; patent rights, including rights derived from supplementary protection certificates; geographical indications; utility model rights; plant variety rights; and trade names in so far as these are protected as exclusive rights by domestic law.

(c) intellectual property collective rights management bodies which are regularly recognised as having a right to represent holders of intellectual property rights, in so far as permitted by and in accordance with the provisions of the applicable law; and

(d) professional defence bodies which are regularly recognised as having a right to represent holders of intellectual property rights, in so far as permitted by and in accordance with the provisions of the applicable law.

SUB-SECTION 1
CIVIL ENFORCEMENT

ARTICLE 290

Measures for preserving evidence

1. Each Party shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support his/her claims that his/her intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.
2. Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of those goods and the documents relating thereto. Those measures shall be taken, if necessary, without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

ARTICLE 291

Right of information

1. Each Party shall ensure that, in the context of proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order that information on the origin and distribution networks of the goods or services which infringe an intellectual property right be provided by the infringer and/or any other person who:
 - (a) was found in possession of the infringing goods on a commercial scale;
 - (b) was found to be using the infringing services on a commercial scale;
 - (c) was found to be providing on a commercial scale services used in infringing activities; or
 - (d) was indicated by the person referred to in sub-paragraph(a), (b) or (c) as being involved in the production, manufacture or distribution of the goods or the provision of the services.

2. The information referred to in paragraph 1 shall, as appropriate, comprise:
 - (a) the names and addresses of the producers, manufacturers, distributors, suppliers and other previous holders of the goods or services, as well as the intended wholesalers and retailers;
 - (b) information on the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods or services in question.
3. Paragraphs 1 and 2 shall apply without prejudice to other statutory provisions which:
 - (a) grant the right holder rights to receive fuller information;
 - (b) govern the use in civil or criminal proceedings of the information communicated pursuant to this Article;
 - (c) govern responsibility for misuse of the right of information;
 - (d) afford an opportunity for refusing to provide information which would force the person referred to in paragraph 1 to admit to his/her own participation or that of his/her close relatives in an infringement of an intellectual property right; or
 - (e) govern the protection of confidentiality of information sources or the processing of personal data.

ARTICLE 292

Provisional and precautionary measures

1. Each Party shall ensure that the judicial authorities may, at the request of the applicant, issue against the alleged infringer an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by domestic law, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued, under the same conditions, against an intermediary whose services are being used by a third party to infringe an intellectual property right.
2. An interlocutory injunction may also be issued to order the seizure or delivery of goods suspected of infringing an intellectual property right, so as to prevent their entry into or movement within the channels of commerce.

3. In the case of an alleged infringement committed on a commercial scale, the Parties shall ensure that, if the applicant demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of his/her bank accounts and other assets. To that end, the competent authorities may order the communication of bank, financial or commercial documents, or appropriate access to the relevant information.

ARTICLE 293

Corrective measures

1. Each Party shall ensure that the competent judicial authorities may order, at the request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort, at least the definitive removal from the channels of commerce, or the destruction, of goods that they have found to be infringing an intellectual property right. If appropriate, the competent judicial authorities may also order the destruction of materials and implements predominantly used in the creation or manufacture of those goods.

2. The Parties' judicial authorities shall have the power to order that those measures shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

ARTICLE 294

Injunctions

Each Party shall ensure that, where a judicial decision has been taken, finding an infringement of an intellectual property right, the judicial authorities may issue against the infringer, as well as against an intermediary whose services are used by a third party to infringe an intellectual property right, an injunction aimed at prohibiting the continuation of the infringement.

ARTICLE 295

Alternative measures

The Parties may provide that, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 293 and/or Article 294 of this Agreement, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in those two Articles if that person acted unintentionally and without negligence, if execution of the measures in question would cause him/her disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

ARTICLE 296

Damages

1. Each Party shall ensure that the judicial authorities, on application of the injured party, order the infringer who knowingly, or with reasonable grounds to know, engaged in an infringing activity, to pay the right holder damages appropriate to the actual prejudice suffered by him/her as a result of the infringement. When the judicial authorities set the amount of damages:

(a) they shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or

(b) as an alternative to sub-paragraph(a), they may, in appropriate cases, set the amount of damages as a lump sum on the basis of elements such as, at least, the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.

2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in the infringing activity, the Parties may lay down that the judicial authorities may order in favour of the injured party the recovery of profits or the payment of damages which may be pre-established.

ARTICLE 297

Legal costs

Each Party shall ensure that reasonable and proportionate legal costs and other expenses incurred by the successful party shall, as a general rule, be borne by the unsuccessful party, unless equity does not allow this.

ARTICLE 298

Publication of judicial decisions

Each Party shall ensure that, in legal proceedings instituted for infringement of an intellectual property right, the judicial authorities may order, at the request of the applicant and at the expense of the infringer, appropriate measures for the dissemination of the information concerning the decision, including displaying the decision and publishing it in full or in part.

ARTICLE 299

Presumption of authorship or ownership

For the purposes of applying the measures, procedures and remedies provided for in this Section:

- (a) for the author of a literary or artistic work, in the absence of proof to the contrary, to be regarded as such, and consequently to be entitled to institute infringement proceedings, it shall be sufficient for his/her name to appear on the work in the usual manner;
- (b) sub-paragraph (a) shall apply *mutatis mutandis* to the holders of rights related to copyright with regard to their protected subject matter.

SUB-SECTION 2

OTHER PROVISIONS

ARTICLE 300

Border measures

1. Each Party shall, unless otherwise provided for in this Sub-Section, adopt procedures to enable a right holder, who has valid grounds for suspecting that the importation, exportation, re-exportation, entry or exit of the customs territory, placement under a suspensive procedure or placement under a free zone or a free warehouse of goods infringing an intellectual property right⁽¹⁾ may take place, to lodge an application in writing with the competent authorities, whether administrative or judicial, for the suspension by the customs authorities of the release or detention of such goods.

2. Each Party shall provide that when the customs authorities, in the course of their actions and before an application has been lodged by a right holder or granted, have sufficient grounds for suspecting that goods infringe an intellectual property right, they may suspend the release of the goods or detain them in order to enable the right holder to submit an application for action in accordance with paragraph 1.

3. Any rights or obligations concerning the importer which are established in domestic law for the implementation of this Article and of Section 4 of Part III of the TRIPS Agreement shall be also applicable to the exporter or to the holder of the goods.

⁽¹⁾ For the purposes of this Article, 'goods infringing an intellectual property right' means:

- (a) 'counterfeit goods', namely:
 - (i) goods, including packaging, bearing without authorisation a trademark identical to the trademark duly registered in respect of the same type of goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the trademark holder's rights;
 - (ii) any trademark symbol such as a logo, label, sticker, brochure, instructions for use or guarantee document, even if presented separately, on the same conditions as the goods referred to in point (i);
 - (iii) packaging materials bearing the trademark of counterfeit goods, presented separately, on the same conditions as the goods referred to in point (i);
- (b) 'pirated goods', namely goods which are or contain copies made without the consent of the right holder or of a person duly authorised by the holder in the country of production, and which are made directly or indirectly from an article, where the making of that copy would have constituted an infringement of a copyright or related right or design right under the law of the country of importation, regardless of whether it is registered in domestic law;
- (c) goods which, according to the law of the Party in which the application for customs action is made, infringe a patent, a plant variety right, or a geographical indication.

4. Each Party shall provide that its competent authorities require a right holder who requests the procedures described in paragraph 1 to provide adequate evidence to satisfy the competent authorities that, under the law of the Party providing the procedures, there is a *prima facie* infringement of the right holder's intellectual property right, and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspect goods reasonably recognisable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to the procedures described in paragraph 1.

5. With a view to establishing whether an intellectual property right has been infringed, the customs office shall inform the right holder, at his/her request and if known, of the names and addresses of the consignee, the consignor or the holder of the goods and the origin and provenance of goods suspected of infringing an intellectual property right.

The customs office shall also give the applicant the opportunity to inspect goods whose release has been suspended or which have been detained. When examining goods, the customs office may take samples and hand them over or send them to the right holder, at his/her request, strictly for the purposes of analysis and to facilitate the subsequent procedure.

6. The customs authorities shall be active in targeting and identifying shipments containing goods suspected of infringing an intellectual property right on the basis of risk analysis techniques. They shall set up systems for close cooperation with right holders, including effective mechanisms to collect information for the risk analysis.

7. The Parties agree to cooperate with a view to eliminating international trade in goods infringing intellectual property rights. In particular, for that purpose, they shall, where appropriate, exchange information and arrange for cooperation between their competent authorities with regard to trade in goods infringing intellectual property rights.

8. For goods in transit through the territory of a Party destined for the territory of the other Party, the former Party shall provide information to the latter Party to enable effective enforcement against shipments of goods suspected of infringing an intellectual property right.

9. Without prejudice to other forms of cooperation, Protocol II on Mutual Administrative Assistance in Customs Matters will be applicable with regard to paragraphs 7 and 8 of this Article with respect to breaches of customs legislation related to intellectual property rights.

10. The Customs Sub-Committee referred to in Article 176 of this Agreement shall act as the responsible Committee to ensure the proper functioning and implementation of this Article.

ARTICLE 301

The Parties shall encourage:

- (a) the development by trade or professional associations or organisations of codes of conduct aimed at contributing towards the enforcement of intellectual property rights; and

ARTICLE 302

Cooperation

1. The Parties agree to cooperate with a view to supporting implementation of the commitments and obligations undertaken under this Chapter.
2. Subject to the provisions of Articles 5 and 6 of this Agreement, areas of cooperation include, but are not limited to, the following activities:

(g) active promotion of awareness and education of the general public on policies concerning intellectual property rights; formulation of effective strategies to identify key audiences, and the creation of communication programmes to increase consumer and media awareness on the impact of intellectual property violations, including the risk to health and safety and the connection to organised crime.

ARTICLE 304

Principles

The Parties recognise the importance of free and undistorted competition in their trade relations. The Parties acknowledge that anti-competitive business practices have the potential to distort the proper functioning of markets and undermine the benefits of trade liberalisation.

ARTICLE 305

Implementation

1. Each Party shall maintain in its respective territory comprehensive competition laws which effectively address anti-competitive agreements, concerted practices and anti-competitive unilateral conduct of undertakings with dominant market power and provide effective control of concentrations.
2. Each Party shall maintain an operationally independent authority with adequate human and financial resources in order to effectively enforce the competition laws referred to in Article 303(2).
3. The Parties recognise the importance of applying their respective competition laws in a transparent and non-discriminatory manner, respecting the principles of procedural fairness and rights of defence of the undertakings concerned.

ARTICLE 306

State monopolies, public undertakings and undertakings entrusted with special or exclusive rights

1. Nothing in this Chapter prevents a Party from designating or maintaining state monopolies or public undertakings or entrusting undertakings with special or exclusive rights according to their respective laws.
2. With regard to state monopolies of a commercial character, public undertakings and undertakings entrusted with special or exclusive rights, each Party shall ensure that such undertakings are subject to the competition laws referred to in Article 303(2), in so far as the application of those laws does not obstruct the performance, in law or in fact, of the particular tasks of public interest assigned to the undertakings in question.

ARTICLE 307

Cooperation and exchange of information

1. The Parties recognise the importance of cooperation and coordination between their respective competition authorities to enhance effective competition law enforcement, and to fulfil the objectives of this Agreement through the promotion of competition and the curtailment of anti-competitive business conduct or anti-competitive transactions.

2. To that end, each competition authority may inform the other competition authority of its willingness to cooperate with respect to the enforcement activity of any of the Parties. Neither Party shall be prevented from taking autonomous decisions on the matters subject to the cooperation.

3. With a view to facilitating the effective enforcement of their respective competition laws, the competition authorities may exchange non-confidential information. All exchange of information shall be subject to the standards of confidentiality applicable in each Party. Whenever the Parties exchange information under this Article, they shall take into account the limitations imposed by the requirements of professional and business secrecy in their respective jurisdictions.

ARTICLE 308

SECTION 2

STATE AID

ARTICLE 309

General principles and scope

1. State aid granted by the United Kingdom or the Republic of Moldova, or through the resources of one of the Parties, in any form whatsoever, which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods and services and which affects trade between the Parties, shall be incompatible with this Agreement.
2. This Chapter shall not apply to state aid related to fisheries, products covered by Annex 1 to the Agreement on Agriculture or other aids covered by the Agreement on Agriculture.

ARTICLE 310

Transparency

1. Each Party shall ensure transparency in the area of state aid. To that end, each Party shall report every two years to the other Party. That report is deemed to have been provided if the relevant information is made available by the Parties or on their behalf on a publicly accessible website.
2. Whenever a Party considers its trade relations to be affected by an individual case of state aid granted by the other Party, the Party concerned may request the other Party to provide information on the individual case of state aid.

The Parties shall keep under constant review the matters to which reference is made in this Chapter. Each Party may refer such matters to the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement. The Parties agree to review progress in implementing this Chapter every two years after the entry into force of this Agreement, unless both Parties agree otherwise.

2. By way of derogation from paragraph 1, a Party may impose in the general economic interest an obligation on undertakings which relates to the price of supply of natural gas and electricity (hereinafter referred to as ‘regulated price’). In case non-household customers are not able to agree with a supplier on a price for electricity or natural gas that is lower than or equal to the regulated price for natural gas or electricity, non-household customers shall have the right to enter into a contract for the supply of electricity or natural gas with a supplier against the regulated price applicable. In any case, the non-household customers shall be free to negotiate and sign a contract with any alternative supplier.

3. The Party imposing an obligation in accordance with paragraph 2 shall ensure that the obligation is clearly defined, transparent, proportionate, non-discriminatory, verifiable and of limited duration. When imposing any such obligation, the Party shall also guarantee equality of access for other undertakings to consumers.

Without prejudice to the possibility of imposing regulated prices consistently with paragraphs 2 and 3 of Article 314 of this Agreement, a Party, or a regulatory authority of a Party, shall not adopt or maintain a measure resulting in a higher price for exports of energy goods to the other Party than the price charged for such goods when intended for domestic consumption.

2. The exporting Party shall upon request of the other Party provide evidence that a different price for the same energy goods sold on the domestic market and for export does not result from a measure prohibited by paragraph 1.

ARTICLE 316

Transit

The Parties shall take any necessary measures to facilitate transit, consistent with the principle of freedom of transit, and in accordance with Articles V.1, V.2, V.4 and V.5 of GATT 1994 and Articles 7.1 and 7.3 of the Energy Charter Treaty, which are incorporated into this Agreement and made part thereof.

ARTICLE 318

Unauthorised taking of goods in transit

Each Party shall take all necessary measures to prohibit and address any unauthorised taking of energy goods in transit through its territory by any entity subject to that Party's control or jurisdiction.

Each Party shall ensure that fixed infrastructure operators take any necessary measures to:

- (a) minimise the risk of accidental interruption or reduction of transit; and
- (b) expeditiously restore the normal operation of such transit, which has been accidentally interrupted or reduced.

ARTICLE 321

Regulatory authority for electricity and natural gas

1. A regulatory authority in the field of natural gas and electricity shall be legally distinct and functionally independent from any other public or private entity, and shall be sufficiently empowered to ensure effective competition and the efficient functioning of the market.
2. The decisions of a regulatory authority and the procedures used by it shall be impartial with respect to all market participants.
3. An operator affected by a decision of a regulatory authority shall have the right to appeal against that decision to an appeal body that is independent of the parties involved. Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

The follow-up to the report and the recommendations of the Panel of Experts shall be monitored by the Trade and Sustainable Development Sub-Committee. The advisory bodies and the Joint Civil Society Dialogue Forum may submit observations to the Trade and Sustainable Development Sub-Committee in that regard.

CHAPTER 14

DISPUTE SETTLEMENT

SECTION 1

OBJECTIVE AND SCOPE

ARTICLE 347

Objective

The objective of this Chapter is to establish an effective and efficient mechanism for avoiding and settling any dispute between the Parties concerning the interpretation and application of Title V (Trade and Trade-related Matters) of this Agreement with a view to arriving, where possible, at a mutually agreed solution.

ARTICLE 348

Scope of application

This Chapter shall apply with respect to any dispute concerning the interpretation and application of the provisions of Title V (Trade and Trade-related Matters) of this Agreement, except as otherwise provided.

SECTION 2

CONSULTATIONS AND MEDIATION

ARTICLE 349

Consultations

1. The Parties shall endeavour to resolve any dispute referred to in Article 348 of this Agreement by entering into consultations in good faith with the aim of reaching a mutually agreed solution.
2. A Party shall seek consultations by means of a written request to the other Party, copied to the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, giving reasons for the request, including by identifying the measure at issue and the provisions referred to in Article 348 of this Agreement that it considers applicable.
3. Consultations shall be held within 30 days of the date of receipt of the request and take place, unless the Parties agree otherwise, in the territory of the Party to which the request is made. The consultations shall be deemed concluded within 30 days of the date of receipt of the request, unless both Parties agree to continue consultations. Consultations, in particular all information disclosed and positions taken by the Parties during the consultations, shall be confidential, and without prejudice to the rights of either Party in any further proceedings.
4. Consultations on matters of urgency, including those regarding perishable goods or seasonal goods or services, shall be held within 15 days of the date of receipt of the request by the requested Party, and shall be deemed concluded within those 15 days unless both Parties agree to continue consultations.
5. If the Party to which the request is made does not respond to the request for consultations within 10 days of the date of its receipt, or if consultations are not held within the timeframes laid down in paragraph 3 or in paragraph 4 of this Article, respectively, or if the Parties agree not to have consultations, or if consultations have been concluded and no mutually agreed solution has been reached, the Party that sought consultations may have recourse to Article 351 of this Agreement.
6. During the consultations each Party shall deliver sufficient factual information, so as to allow a complete examination of the manner in which the measure at issue could affect the operation and the application of this Agreement.

7. Where consultations concern the transport of energy goods through networks and one Party views the resolution of the dispute as urgent because of an interruption, in full or in part, of transport of natural gas, oil or electricity between the Parties, the consultations shall be held within three days of the date of submission of the request, and shall be deemed concluded three days after the date of submission of the request unless both Parties agree to continue consultations.

ARTICLE 350

Mediation

Any Party may request the other Party to enter into a mediation procedure with respect to any measure adversely affecting trade or investment between the Parties pursuant to Annex XV to this Agreement.

SECTION 3
DISPUTE SETTLEMENT PROCEDURES

SUB-SECTION 1
ARBITRATION PROCEDURE

ARTICLE 351

Initiation of the arbitration procedure

1. Where the Parties have failed to resolve the dispute by recourse to consultations as provided for in Article 349 of this Agreement, the Party that sought consultations may request the establishment of an arbitration panel in accordance with this Article.
2. The request for the establishment of an arbitration panel shall be made in writing to the other Party and the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement. The complaining Party shall identify in its request the measure at issue, and it shall explain how the measure is inconsistent with the provisions referred to in Article 348 of this Agreement in a manner sufficient to present the legal basis for the complaint clearly.

ARTICLE 352

Establishment of the arbitration panel

1. An arbitration panel shall be composed of three arbitrators.
2. Within 10 days of the date of receipt by the Party complained against of the request for the establishment of an arbitration panel, the Parties shall consult in order to reach an agreement on the composition of the arbitration panel.
3. In the event that the Parties are unable to agree on the composition of the arbitration panel within the time frame laid down in paragraph 2 of this Article, each Party may appoint an arbitrator from its sub-list established under Article 370 of this Agreement within five days from the expiry of the timeframe established in paragraph 2 of this Article. If any of the Parties fails to appoint an arbitrator, the arbitrator shall, upon request of the other Party, be selected by lot by the chair of the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, or the chair's delegate, from the sub-list of that Party contained in the list established under Article 370 of this Agreement.

4. Unless the Parties reach an agreement concerning the chairperson of the arbitration panel within the timeframe established in paragraph 2 of this Article, the chair of the Political and Strategic Dialogue in Trade configuration or the chair's delegate shall, upon request of any of the Parties, select by lot the chairperson of the arbitration panel from the sub-list of chairpersons contained in the list established under Article 370 of this Agreement.
5. The chair of the Political and Strategic Dialogue in Trade configuration or the chair's delegate shall select the arbitrators within five days of the request by either Party referred to in paragraphs 3 and 4.
6. The date of establishment of the arbitration panel shall be the date on which the last of the three selected arbitrators accepts the appointment according to the Rules of Procedure in Annex XVI to this Agreement.
7. Should any of the lists provided for in Article 370 of this Agreement not be established or not contain sufficient names at the time a request is made pursuant to paragraphs 3 and 4 of this Article, the arbitrators shall be drawn by lot from the individuals who have been formally proposed by one or both of the Parties.
8. Unless the Parties agree otherwise, in respect of a dispute concerning Chapter 11 (Trade-related Energy) of Title V (Trade and Trade-related Matters) of this Agreement which a Party considers to be urgent because of an interruption, in full or in part, of any transport of natural gas, oil, or electricity or a threat thereof between the Parties, the second sentence of paragraph 3 and paragraph 4 shall apply without recourse to paragraph 2, and the period referred to in paragraph 5 shall be of two days.

ARTICLE 353

Preliminary ruling on urgency

If a Party so requests, the arbitration panel shall, within 10 days of its establishment, give a preliminary ruling on whether it deems the case to be urgent.

ARTICLE 354

Arbitration panel report

1. The arbitration panel shall notify an interim report to the Parties setting out the findings of fact, the applicability of relevant provisions and the basic rationale behind any findings and recommendations that it makes, not later than 90 days after the date of establishment of the arbitration panel. Where it considers that that deadline cannot be met, the chairperson of the arbitration panel shall notify the Parties and the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, in writing, stating the reasons for the delay and the date on which the arbitration panel plans to notify its interim report. Under no circumstances should the interim report be notified later than 120 days after the date of establishment of the arbitration panel.
2. A Party may submit a written request to the arbitration panel to review precise aspects of the interim report within 14 days of its notification.
3. In cases of urgency, including those involving perishable goods or seasonal goods or services, the arbitration panel shall make every effort to notify its interim report within 45 days and, in any case, no later than 60 days after the date of establishment of the arbitration panel. A Party may submit a written request to the arbitration panel to review precise aspects of the interim report, within 7 days of the notification of the interim report.
4. After considering any written comments by the Parties on the interim report, the arbitration panel may modify its report and make any further examination it considers appropriate. The findings of the final panel ruling shall include a sufficient discussion of the arguments made at the interim review stage, and shall answer clearly to the questions and observations of the Parties.
5. In respect of a dispute concerning Chapter 11 (Trade-related Energy) of Title V (Trade and Trade-related Matters) of this Agreement which a Party considers to be urgent because of an interruption, in full or in part, of any transport of natural gas, oil or electricity or a threat thereof between the Parties, the interim report shall be notified 20 days after the date of establishment of the arbitration panel, and any request pursuant to paragraph 2 of this Article shall be made within five days of the notification of the written report. The arbitration panel may also decide to dispense with the interim report.

ARTICLE 355

Conciliation for urgent energy disputes

1. In respect of a dispute concerning Chapter 11 (Trade-related Energy) of Title V (Trade and Trade-related Matters) of this Agreement which a Party considers to be urgent because of an interruption, in full or in part, of any transport of natural gas, oil, or electricity or a threat thereof between the Parties, either Party may request the chairperson of the arbitration panel to act as a conciliator concerning any matter related to the dispute by making a request to the arbitration panel.
2. The conciliator shall seek an agreed resolution of the dispute or seek to agree a procedure to achieve such resolution. If within 15 days of his/her appointment he/she has failed to secure such agreement, he/she shall recommend a resolution to the dispute or a procedure to achieve such resolution and shall decide on the terms and conditions to be observed from a date which he/she shall specify until the dispute is resolved.
3. The Parties and the entities under their control or jurisdiction shall respect recommendations made under paragraph 2 and any terms and conditions which may be stipulated.
4. The conciliator shall respect the Code of Conduct set out in Annex XVII to this Agreement.

ARTICLE 356

Notification of the ruling of the arbitration panel

1. The arbitration panel shall notify its final ruling to the Parties and to the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, within 120 days from the date of establishment of the arbitration panel. Where it considers that that deadline cannot be met, the chairperson of the arbitration panel shall notify the Parties and the Political and Strategic Dialogue in Trade configuration in writing, stating the reasons for the delay and the date on which the arbitration panel plans to notify its ruling. Under no circumstances should the ruling be notified later than 150 days after the date of establishment of the arbitration panel.
2. In cases of urgency, including those involving perishable goods or seasonal goods or services, the arbitration panel shall make every effort to notify its ruling within 60 days from the date of its establishment. Under no circumstances should the ruling be notified later than 75 days after the date of its establishment.

3. In respect of a dispute concerning Chapter 11 (Trade-related Energy) of Title V (Trade and Trade-related Matters) of this Agreement which a Party considers to be urgent because of an interruption, in full or in part, of any transport of natural gas, oil or electricity or a threat thereof between the Parties, the arbitration panel shall notify its ruling within 40 days from the date of its establishment.

SUB-SECTION 2

COMPLIANCE

ARTICLE 357

Compliance with the arbitration panel ruling

The Party complained against shall take any measure necessary to comply promptly and in good faith with the arbitration panel ruling.

ARTICLE 358

Reasonable period of time for compliance

1. If immediate compliance is not possible, the Parties shall endeavour to agree on the period of time to comply with the ruling. In such a case, the Party complained against shall, no later than 30 days after the receipt of the notification of the arbitration panel ruling to the Parties, notify the complaining Party and the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, of the time it will require for compliance ('reasonable period of time') and provide reasons for the proposed reasonable period of time.
2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within 20 days of the receipt of the notification made under paragraph 1 by the Party complained against, request in writing the original arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party and to the Political and Strategic Dialogue in Trade configuration. The original arbitration panel shall notify its ruling to the Parties and to the Political and Strategic Dialogue in Trade configuration within 20 days from the date of submission of the request.
3. The Party complained against shall inform the complaining Party in writing of its progress to comply with the arbitration panel ruling at least 30 days before the expiry of the reasonable period of time.
4. The reasonable period of time may be extended by mutual agreement of the Parties.

ARTICLE 359

Review of any measure taken to comply with the arbitration panel ruling

1. The Party complained against shall notify the complaining Party and the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.
2. In the event that there is disagreement between the Parties concerning the existence or the consistency of any measure taken to comply as notified in paragraph 1 with the provisions referred to in Article 348 of this Agreement, the complaining Party may request in writing the original arbitration panel to rule on the matter. Such request shall identify the specific measure at issue and explain how the measure is inconsistent with the provisions referred to in Article 348 of this Agreement, in a manner sufficient to present the legal basis for the complaint clearly. The original arbitration panel shall notify its ruling to the Parties and to the Political and Strategic Dialogue in Trade configuration within 45 days of the date of submission of the request.

ARTICLE 360

Temporary remedies in case of non-compliance

1. If the Party complained against fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that no measure taken to comply exists or that the measure notified under Article 359(1) of this Agreement is inconsistent with that Party's obligations under the provisions referred to in Article 348 of this Agreement, the Party complained against shall, if so requested by the complaining Party and after consultations with that Party, present an offer for temporary compensation.
2. If the complaining Party decides not to request an offer for temporary compensation under paragraph 1 of this Article, or, in case a request is made but no agreement on compensation is reached within 30 days from the end of the reasonable period of time or of the notification of the arbitration panel ruling under Article 359 of this Agreement that no measure taken to comply exists or that a measure taken to comply is inconsistent with the provisions referred to in Article 348 of this Agreement, the complaining Party shall be entitled, upon notification to the other Party and to the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, to suspend obligations arising from any provision referred to in Article 348 of this Agreement at a level equivalent to the nullification or impairment caused by the violation. The notification shall specify the level of suspension of obligations. The complaining Party may implement the suspension at any moment after the expiry of 10 days after the date of receipt of the notification by the Party complained against, unless the Party complained against has requested arbitration under paragraph 3 of this Article.

3. If the Party complained against considers that the level of suspension is not equivalent to the nullification or impairment caused by the violation, it may request in writing the original arbitration panel to rule on the matter. Such request shall be notified to the complaining Party and to the Political and Strategic Dialogue in Trade configuration before the expiry of the ten day period referred to in paragraph 2. The original arbitration panel shall notify its ruling on the level of the suspension of obligations to the Parties and to the Political and Strategic Dialogue in Trade configuration within 30 days of the date of submission of the request. Obligations shall not be suspended until the original arbitration panel has notified its ruling, and any suspension shall be consistent with the arbitration panel ruling.

4. The suspension of obligations and the compensation foreseen in this Article shall be temporary and shall not be applied after:

(a) the Parties have reached a mutually agreed solution pursuant to Article 365 of this Agreement;

(b) the Parties have agreed that the measure notified under Article 359(1) of this Agreement brings the Party complained against into conformity with the provisions referred to in Article 348 of this Agreement; or

(c) any measure found to be inconsistent with the provisions referred to in Article 348 of this Agreement has been withdrawn or amended so as to bring it in conformity with those provisions, as ruled under Article 359(1) of this Agreement.

ARTICLE 361

Remedies for urgent energy disputes

1. In respect of a dispute concerning Chapter 11 (Trade-related Energy) of Title V (Trade and Trade-related Matters) of this Agreement which a Party considers to be urgent because of an interruption, in full or in part, of any transport of natural gas, oil, or electricity or a threat thereof between the Parties, the provisions of this Article on remedies shall apply.

2. By way of derogation from Articles 358, 359, and 360 of this Agreement, the complaining Party may suspend obligations arising under Title V (Trade and Trade-related Matters) of this Agreement to a level equivalent to the nullification or impairment caused by the Party failing to bring itself into compliance with the arbitration panel ruling within 15 days of its notification. That suspension may take effect immediately. Such suspension may be maintained as long as the Party complained against has not complied with the arbitration panel ruling.

3. Should the Party complained against dispute the existence of a failure to comply or the level of suspension due to the failure to comply, it may initiate proceedings under Articles 360(3) and 362 of this Agreement which shall be examined expeditiously. The complaining Party shall be required to remove or adjust the suspension only after the arbitration panel has ruled on the matter, and may maintain the suspension pending the proceedings.

ARTICLE 362

Review of any measure taken to comply after the adoption of temporary remedies for non-compliance

1. The Party complained against shall notify the complaining Party and the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, of the measure it has taken to comply with the ruling of the arbitration panel following the suspension of concessions or following the application of temporary compensation, as the case may be. With the exception of cases under paragraph 2 of this Article, the complaining Party shall terminate the suspension of concessions within 30 days from the receipt of the notification. In cases where compensation has been applied, and with the exception of cases under paragraph 2, the Party complained against may terminate the application of such compensation within 30 days from its notification that it has complied with the ruling of the arbitration panel.

2. If the Parties do not reach an agreement on whether the notified measure brings the Party complained against into conformity with the provisions referred to in Article 348 of this Agreement within 30 days of the date of receipt of the notification, the complaining Party shall request in writing the original arbitration panel to rule on the matter. Such a request shall be notified simultaneously to the other Party and to the Political and Strategic Dialogue in Trade configuration. The arbitration panel ruling shall be notified to the Parties and to the Political and Strategic Dialogue in Trade configuration within 45 days of the date of submission of the request. If the arbitration panel rules that the measure taken to comply is in accordance with the provisions referred to in Article 348 of this Agreement, the suspension of obligations or compensation, as the case may be, shall be terminated. Where relevant, the complaining Party shall adapt the level of suspension of concessions to the level determined by the arbitration panel.

SUB-SECTION 3
COMMON PROVISIONS

ARTICLE 363

Replacement of arbitrators

If in an arbitration proceeding under this Chapter, the original arbitration panel, or some of its members, are unable to participate, withdraw, or need to be replaced because they do not comply with the requirements of the Code of Conduct set out in Annex XVII to this Agreement, the procedure set out in Article 352 of this Agreement shall apply. The timeframe-limit for the notification of the arbitration panel ruling shall be extended for the time necessary for the appointment of a new arbitrator but for no more than 20 days.

ARTICLE 364

Suspension and termination of arbitration and compliance procedures

The arbitration panel shall, at the written request of the Parties, suspend its work at any time for a period agreed by the Parties not exceeding 12 consecutive months. The arbitration panel shall resume its work before the end of that period at the written request of the Parties or at the end of that period at the written request of any Party. The requesting Party shall inform the Chairperson of the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, and the other Party, accordingly. If a Party does not request the resumption of the arbitration panel's work at the expiry of the agreed suspension period, the procedure shall be terminated. The suspension and termination of the arbitration panel's work are without prejudice to the rights of either Party in another proceeding subject to Article 371 of this Agreement.

ARTICLE 365

Mutually agreed solution

The Parties may reach a mutually agreed solution to a dispute under this Chapter at any time. They shall jointly notify the Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, and the chairperson of the arbitration panel, where applicable, of any such solution. If the solution requires approval pursuant to the relevant domestic procedures of either Party, the notification shall refer to this requirement, and the dispute settlement procedure shall be suspended. If such approval is not required, or if the completion of any such domestic procedures is notified, the dispute settlement procedure shall be terminated.

ARTICLE 366

Rules of procedure

1. Dispute settlement procedures under this Chapter shall be governed by the Rules of Procedure set out in Annex XVI to this Agreement and by the Code of Conduct set out in Annex XVII to this Agreement.
2. Any hearing of the arbitration panel shall be open to the public unless provided otherwise in the Rules of Procedure.

ARTICLE 367

Information and technical advice

At the request of a Party, or upon its own initiative, the arbitration panel may obtain any information it deems appropriate for the arbitration panel proceeding from any source, including the Parties involved in the dispute. The arbitration panel also has the right to seek the opinion of experts, as it deems appropriate. The arbitration panel shall consult the Parties before choosing such experts. Natural or legal persons established in the territory of a Party may submit *amicus curiae* briefs to the arbitration panel in accordance with the Rules of Procedure. Any information obtained under this Article shall be disclosed to each of the Parties and submitted for their comments.

ARTICLE 368

Rules of interpretation

The arbitration panel shall interpret the provisions referred to in Article 348 of this Agreement in accordance with customary rules of interpretation of public international law, including those codified in the Vienna Convention on the Law of Treaties. The arbitration panel shall also take into account relevant interpretations established in reports of panels and of the Appellate Body adopted by the Dispute Settlement Body of the WTO (DSB). The rulings of the arbitration panel cannot add to or diminish the rights and obligations of the Parties provided under this Agreement.

ARTICLE 369

Decisions and rulings of the arbitration panel

1. The arbitration panel shall make every effort to take any decision by consensus. Where, nevertheless, a decision cannot be arrived at by consensus, the matter at issue shall be decided by majority vote. However, in no case shall dissenting opinions of arbitrators be disclosed.

2. The rulings of the arbitration panel shall be unconditionally accepted by the Parties. They shall not create any rights or obligations for natural or legal persons. The rulings shall set out the findings of fact, the applicability of the relevant provisions referred to in Article 348 of this Agreement, and the basic rationale behind any findings and conclusions that they make. The Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, shall make the rulings of the arbitration panel publicly available in their entirety within 10 days of their notification, unless it decides not to do so in order to ensure the confidentiality of business confidential information.

SECTION 4
GENERAL PROVISIONS

ARTICLE 370

Lists of arbitrators

1. The Political and Strategic Dialogue in Trade configuration, as set out in Article 375(3) of this Agreement, shall, no later than six months after the entry into force of this Agreement, establish a list of at least 15 individuals who are willing and able to serve as arbitrators. The list shall be composed of three sub-lists: one sub-list for each Party and one sub-list of individuals that are not nationals of either Party and who may serve as chairperson to the arbitration panel. Each sub-list shall include at least five individuals. The Political and Strategic Dialogue in Trade configuration shall ensure that the list is always maintained at that level.

2. Arbitrators shall have specialised knowledge and experience of law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the government of any of the Parties, and shall comply with the Code of Conduct set out in Annex XVII to this Agreement.

3. The Political and Strategic Dialogue in Trade configuration may establish additional lists of 12 individuals with knowledge and experience in specific sectors covered by this Agreement. Subject to the agreement of the Parties, such additional lists shall be used to compose the arbitration panel in accordance with the procedure set out in Article 352 of this Agreement.

ARTICLE 371

Relation with WTO obligations

1. Recourse to the dispute settlement provisions of this Chapter shall be without prejudice to any action in the WTO framework, including dispute settlement proceedings.

2. However, a Party shall not, for any particular measure, seek redress for a substantially equivalent obligation under both this Agreement and the WTO Agreement in both fora. In such case, once a dispute settlement proceeding has been initiated, the Party shall not bring a claim seeking redress for the breach of the substantially equivalent obligation under the other Agreement to the other forum, unless the forum selected first fails for procedural or jurisdictional reasons to make findings on the claim seeking redress of that obligation.

3. For the purposes of paragraph 2 of this Article:
 - (a) dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO; and

PROCESS OF RECOGNITION OF EQUIVALENCE

1. Principles

- (a) Equivalence can be determined for an individual measure, or a group of measures, or a system related to a certain commodity, or a category of commodities or all of them;
- (b) The examination by the importing Party of a request for recognition of equivalence of measures pertaining to a certain commodity of the exporting Party shall not be a reason to disrupt trade or suspend on-going imports from the exporting Party of the commodity in question;
- (c) The process of recognition of equivalence of measures is an interactive process between the exporting Party and the importing Party. The process consists of an objective demonstration of equivalence of individual measures by the exporting Party and an objective assessment of the equivalence with a view to the possible recognition of equivalence by the importing Party;
- (d) The final recognition of equivalence of the relevant measures of the exporting Party rests solely with the importing Party.

2. Preconditions

- (a) The process depends on the health or pest status, the law and the effectiveness of the inspection and control system related to the commodity in the exporting Party. To this end the law in the sector concerned shall be taken into account, as well as the structure of the competent authority of the exporting Party, the command chain, the authority, the operational procedures and resources, and the effectiveness of the competent authorities as regards inspection and control systems, including the level of enforcement related to the commodity and the regularity and the rapidity of information flow to the importing Party in case of identified hazards. This recognition may be supported by documentation, verification and documents, reports and information related to past experiences, assessment and verifications;
- (b) The Parties may initiate the process of recognition of equivalence pursuant to Article 159 of this Agreement;
- (c) The exporting Party shall only initiate the process when no safeguard measures imposed by the importing Party apply to the exporting Party as regards the commodity.

3. The process

(a) The exporting Party initiates the process by submitting to the importing Party a request for recognition of equivalence of an individual measure or groups of measures or a system for a commodity or a category of commodities in a sector or sub-sector or all of them;

(b) When appropriate, this request includes also the request and the required documentation for approval by the importing Party on the basis of equivalence of any programme or plan of the exporting Party required by the importing Party regarding the measures or systems described in point (a) of this paragraph as a condition for allowing import of that commodity or a category of commodities;

(c) With this request, the exporting Party:

(i) explains the importance for trade of that commodity or a category of commodities;

(ii) identifies the individual measure(s) with which it can comply from all the measures expressed in the import conditions of the importing Party applicable to that commodity or a category of commodities;

(iii) identifies the individual measure(s) for which it seeks equivalence out of the total of the measures expressed in the import conditions of the importing Party, applicable to that commodity or a category of commodities;

(d) In reply to this request the importing Party explains the overall and individual objective and the rationale behind its measure(s), including the identification of the risk;

(e) With this explanation, the importing Party informs the exporting Party on the relationship of its domestic measures and the import conditions for that commodity;

(f) The exporting Party objectively demonstrates to the importing Party that the measures that it has identified are equivalent to the import conditions for that commodity or a category of commodities;

(g) The importing Party objectively assesses the demonstration of equivalence by the exporting Party;

(h) The importing Party concludes whether equivalence is achieved or not;

(i) The importing Party provides to the exporting Party full explanation and supporting data for its determination and decision if so required by the

exporting Party.

4. Demonstration of equivalence of measures by the exporting Party and assessment of this demonstration by the importing Party

(a) The exporting Party shall objectively demonstrate equivalence for each of the identified measures of the importing Party expressed in its import conditions. When appropriate, equivalence shall objectively be demonstrated for any plan or program required by the importing Party as a condition to allow import (e.g. residue plan);

(b) Objective demonstration and assessment in this context should be based, as far as possible, on:

- internationally recognised standards; and/or standards based on proper scientific evidence; and/or
- risk assessment; and/or
- documents, reports and information related to past experiences, assessments and verifications; and
- legal status or level of administrative status of the measures; and
- level of implementation and enforcement on the basis of in particular:
 - corresponding and relevant results of surveillance and monitoring programmes;
 - inspection results of the exporting Party;
 - results of analysis with recognised analysis methods;
 - verification and import check results by the importing Party;
 - the performance of the competent authorities of the exporting Party; and
 - earlier experiences.

5. Conclusions of the importing Party

In case the importing Party arrives at a negative conclusion, it shall provide the exporting Party with a detailed and reasoned explanation.

6. For plants and plant products, equivalence concerning phytosanitary measures, shall be based on the conditions referred into Article 159(6) of this Agreement.

In respect of certification of plants and plant products and other objects, the competent authorities shall apply the principles laid down in the relevant ISPMs

Animals and animal products:

1. The competent authorities of the Parties shall ensure that certifying officers have a satisfactory knowledge of the veterinary law as regards the animals or animal products to be certified and, in general, are informed about the rules to be followed for drawing up and issuing of the certificates and, if necessary, as to the nature and extent of the enquiries, tests or examinations which should be carried out before certification.

2. Certifying officers must not certify data of which they have no personal knowledge or which cannot be ascertained by them.

3. Certifying officers must not sign blank or incomplete certificates, or certificates relating to animals or animal products, which they have not inspected or which have passed out of their control. Where a certificate is signed on the basis of another certificate or attestation, the certifying officer shall be in possession of the latter document before signing.

4. A certifying officer may certify data which have been:

(a) ascertained on the basis of paragraphs 1 to 3 of this Annex by another person authorised by the competent authority and acting under the control of the latter authority, provided that the certifying officer can verify the accuracy of the data; or

(b) obtained, in the context of monitoring programmes, by reference to officially recognised quality assurance schemes or by means of an epidemiological surveillance system where this is authorised under veterinary legislation.

5. The competent authorities of the Parties shall take all necessary steps to ensure the integrity of certification. In particular they shall ensure that certifying officers designated by them:

(a) have a status which ensures their impartiality and have no direct commercial interest in the animals or products being certified or in the holdings or establishments in which they originate; and

(b) are fully aware of the significance of the contents of each certificate which they sign.

6. Certificates shall be drawn up in order to ensure that a specific certificate refers to a specific consignment in a language understood by the certifying officer and in at least one of the official languages of the importing Party as set out in part C of this Annex.

The date of signature of the certificate cannot be after the date of dispatch of the consignment(s).

7. Each competent authority shall be in a position to link a certificate with the relevant certifying officer and ensure that a copy of all certificates issued is available for a period to be determined by that competent authority.

8. Each Party shall introduce the checks and the controls necessary to prevent the issuing of false or misleading certifications and the fraudulent production or use of certificates purported to be issued for the purpose set out in the veterinary law.

9. Without prejudice to any judicial proceedings or penalties, the competent authorities shall carry out investigations or checks and take appropriate measures to penalise any instances of false or misleading certification, which are brought to their attention. Such measures may include the temporary suspension of the certifying officers from their duties until the investigation is over. In particular:

(a) if in the course of the checks it is found that a certifying officer has knowingly issued a fraudulent certificate, the competent authority shall take all necessary steps to ensure, as far as is possible, that the person concerned cannot repeat the offence;

(b) if in the course of the checks it is found that an individual or an undertaking has made fraudulent use of or has altered an official certificate, the competent authority shall take all necessary measures to ensure, as far as possible, that the individual or the undertaking cannot repeat the offence. LIST OF RESERVATIONS ON ESTABLISHMENT (UK)

2. In accordance with Article 177(3) of this Agreement, the list below does not include measures concerning subsidies granted by the Parties.

3. The rights and obligations arising from the list below shall have no self-executing effect and thus confer no rights directly on natural or juridical persons.

4. In accordance with Article 180 of this Agreement, non-discriminatory requirements, such as those concerning the legal form or the obligation to obtain licences or permits applicable to all providers operating on the territory without distinction based on nationality, residency or equivalent criteria, are not listed in this Annex as they are not prejudiced by the Agreement.

5. Where the UK maintains a reservation that requires that a service supplier be a national, permanent resident or resident of its territory as a condition to the supply of a service in its territory, a reservation listed in Annex XI-C to this Agreement shall operate as a reservation with respect to establishment under this Annex, to the extent applicable.

Horizontal reservations

Most Favoured Nation

The UK reserves the right to adopt or maintain any measure which accords differential treatment to a country pursuant to any existing or future bilateral or multilateral agreement which:

- (a) creates an internal market in services and investment;

An internal market on services and establishment means an area without internal frontiers in which the free movement of services, capital and persons is ensured.

The right of establishment shall include the right of nationals of the parties to the regional economic integration agreement to set up and operate enterprises under the same conditions provided for nationals under the law of the country where such establishment takes place.

The approximation of legislation means:

- (a) the alignment of the legislation of one or more of the parties to the regional economic integration agreement with the legislation of the other party or parties to that agreement; or
- (b) the incorporation of common legislation into the law of the parties to the regional economic integration agreement.

Such alignment or incorporation shall take place, and shall be deemed to have taken place, only at such time that it has been enacted in the law of the party or parties to the regional economic integration agreement.

- (a) the alignment of the legislation of one or more of the parties to the regional economic integration agreement with the legislation of the other Party or parties to that agreement; or
- (b) the incorporation of common legislation into the law of the parties to the regional economic integration agreement.

Such alignment or incorporation shall take place, and shall be deemed to have taken place, only at such time that it has been enacted in the law of the Party or Parties to the regional economic integration agreement.

MEDIATION MECHANISM

ARTICLE 1

Objective

The objective of this Annex is to facilitate a mutually agreed solution through a comprehensive and expeditious procedure with the assistance of a mediator.

SECTION 1

PROCEDURE UNDER THE MEDIATION MECHANISM

ARTICLE 2

Request for information

1. Before the initiation of the mediation procedure, a Party may request, at any time, in writing, information regarding a measure adversely affecting trade or investment between the Parties. The Party to which such request is made shall provide, within 20 days, a written response containing its comments on the information contained in the request.
2. Where the responding Party considers that a response within 20 days is not practicable, it shall inform the requesting Party of the reasons for the delay, together with an estimate of the shortest period within which it will be able to provide its response.

ARTICLE 3

Initiation of the procedure

1. A Party may request, at any time, that the Parties enter into a mediation procedure. Such request shall be addressed to the other Party in writing. The request shall be sufficiently detailed in order to clearly present the concerns of the requesting Party and shall:
 - (a) identify the specific measure at issue;
 - (b) provide a statement of the alleged adverse effects that the requesting Party believes the measure has, or will have, on trade or investment between the Parties; and
 - (c) explain how the requesting Party considers that those effects are linked to the measure.
2. The mediation procedure may only be initiated by mutual agreement of the Parties. The Party to which a request pursuant to paragraph 1 is addressed shall give sympathetic consideration to the request and reply by accepting or rejecting it in writing within 10 days of its receipt.

ARTICLE 4

Selection of the mediator

1. Upon the launch of the mediation procedure, the Parties shall endeavour to agree on a mediator no later than 15 days after the receipt of the reply to the request referred to in Article 3 of this Annex.

2. In the event that the Parties are unable to agree on the mediator within the time frame laid down in paragraph 1 of this Article, either Party may request the chair or co-chairs of the Political and Strategic Dialogue in Trade configuration as set out in Article 375(3) of this Agreement, or their delegates, to select the mediator, by drawing lots, from the list established under Article 370(1) of this Agreement. Representatives of both Parties shall be invited, with sufficient advance notice, to be present when the lots are drawn. In any event, the drawing of lots shall be carried out with the Party/Parties that is/are present.

3. The chair or co-chairs of the Political and Strategic Dialogue in Trade configuration as set out in Article 375(3) of this Agreement, or their delegates, shall select the mediator within five working days of the request made under paragraph 2 of this Article by either Party.

4. Should the list referred to in Article 370(1) of this Agreement not be established at the time a request is made pursuant to Article 3 of this Annex, the mediator shall be selected, by drawing lots, from the individuals which have been formally proposed by one or both of the Parties.

5. A mediator shall not be a citizen of either Party, unless the Parties agree otherwise.

6. The mediator shall assist, in an impartial and transparent manner, the Parties in bringing clarity to the measure and its possible trade effects, and in reaching a mutually agreed solution. The Code of Conduct for Arbitrators and Mediators set out in Annex XVII to this Agreement shall apply to mediators, *mutatis mutandis*. Rules 3 to 7 (Notifications) and 41 to 45 (Translation and interpretation) of the Rules of Procedure of Annex XVI to this Agreement shall also apply, *mutatis mutandis*.

ARTICLE 5

Rules of the mediation procedure

1. Within 10 days after the appointment of the mediator, the Party having invoked the mediation procedure shall present, in writing, a detailed description of the problem to the mediator and to the other Party, in particular of the operation of the measure at issue and its trade effects. Within 20 days after the date of delivery of this description, the other Party may provide, in writing, its comments on the description of the problem. Either Party may include in its description or comments any information that it deems relevant.

2. The mediator may decide on the most appropriate way of bringing clarity to the measure concerned and its possible trade effects. In particular, the mediator may organise meetings between the Parties, consult the Parties jointly or individually, seek the assistance of, or consult with, relevant experts and stakeholders and provide any additional support requested by the Parties. However, before seeking the assistance of, or consulting with, relevant experts and stakeholders, the mediator shall consult with the Parties.

3. The mediator may offer advice and propose a solution for the consideration of the Parties. The Parties may accept or reject the proposed solution or agree on a different solution. However, the mediator shall not advise or give comments on the consistency of the measure at issue with this Agreement.

4. The mediation procedure shall take place in the territory of the Party to which the request was addressed, or by mutual agreement in any other location or by any other means.

5. The Parties shall endeavour to reach a mutually agreed solution within 60 days from the appointment of the mediator. Pending a final agreement, the Parties may consider possible interim solutions, especially if the measure relates to perishable goods.

6. The solution may be adopted by means of a decision of the Political and Strategic Dialogue in Trade configuration as set out in Article 375(3) of this Agreement. Either Party may make such a solution subject to the completion of any necessary internal procedures. Mutually agreed solutions shall be made publicly available. The version disclosed to the public may not contain any information that a Party has designated as confidential.

7. On request of the Parties, the mediator shall issue to the Parties, in writing, a draft factual report, providing a brief summary of the measure at issue in these procedures, the procedures followed, and any mutually agreed solution reached as the final outcome of these procedures, including possible interim solutions. The mediator shall allow the Parties 15 days to comment on the draft report. After considering the comments of the Parties submitted within that period, the mediator shall submit, in writing, a final factual report to the Parties within 15 days. The factual report shall not include any interpretation of this Agreement.

8. The procedure shall be terminated:

(a) by the adoption of a mutually agreed solution by the Parties, on the date of its adoption;

(b) by mutual agreement of the Parties at any stage of the procedure, on the date of that agreement;

(c) by a written declaration of the mediator, after consultation with the Parties, that further efforts at mediation would be to no avail, on the date of that declaration; or

(d) by a written declaration of a Party after exploring mutually agreed solutions under the mediation procedure and after having considered any advice and proposed solutions by the mediator, on the date of that declaration.

Replacement

17. If an arbitrator is unable to participate in an arbitration panel proceeding, withdraws from it, or must be replaced because he/she does not comply with the requirements of the Code of Conduct, as set out in Annex XVII to this Agreement, a replacement shall be selected in accordance with Article 352 of this Agreement and rule 8 of these Rules.

Nothing in these Rules shall preclude a Party to the dispute from disclosing statements of its own positions to the public to the extent that, when making reference to information submitted by the other Party, it does not disclose any information designated by the other Party as confidential. The arbitration panel shall meet in closed session when the submission and the arguments of a Party contain confidential information. The Parties to the dispute and their advisers shall maintain the confidentiality of the arbitration panel hearings where the hearings are held in closed session.

42. If the Parties to the dispute are unable to agree on a common working language, each Party shall make its written submissions in its chosen language. In such case, that Party shall provide at the same time a translation in the language chosen by the other Party, unless its submissions are written in one of the working languages of the WTO. The Party complained against shall arrange for the interpretation of oral submissions into the languages chosen by the Parties to the dispute.

43. Arbitration panel rulings shall be notified in the language or languages chosen by the Parties to the dispute.

ARTICLE 24

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting Party, and shall be submitted within that period to the customs authorities of the importing Party.
2. Proofs of origin which are submitted to the customs authorities of the importing Party after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing Party may accept the proofs of origin where the products have been submitted before the said final date.

ARTICLE 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing Party in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

ARTICLE 26

Importation by instalments

Where, at the request of the importer and subject to the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

In the case of products sent by post that declaration may be made on the customs declaration CN22 / CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

ARTICLE 28

Supporting documents

The documents referred to in Articles 17(3) and 22(5) used for the purpose of proving that products covered by a movement certificate EUR.1 or EUR-MED, or an origin declaration or origin declaration EUR-MED may be considered as products originating in the United Kingdom, in the Republic of Moldova or in one of the other countries referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol may consist, *inter alia*, of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

ARTICLE 30

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors, such as typing errors, on a proof of origin shall not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

ARTICLE 31

Amounts expressed in euro

1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the countries referred to in Articles 3 and 4 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the Party concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October and shall apply from 1 January the following year. The Parties shall notify each other of the relevant amounts.

4. A Party may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5%. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15% in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Customs Sub-Committee at the request of any of the Parties. When carrying out this review, the Customs Sub-Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

The customs authorities of the United Kingdom and the Republic of Moldova shall provide each other with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and EUR-MED and with the addresses of the customs authorities responsible for verifying those certificates, origin declarations and origin declarations EUR-MED.

In order to ensure the proper application of this Protocol, the United Kingdom and the Republic of Moldova shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 and EUR-MED, the origin declarations and the origin declarations EUR-MED, and the correctness of the information given in these documents.

ARTICLE 33

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing Party have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing Party shall return the movement certificate EUR.1 or EUR-MED and the invoice, if it has been submitted, the origin declaration or the origin declaration EUR-MED, or a copy of these documents, to the customs authorities of the exporting Party giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting Party. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing Party decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in the United Kingdom, in the Republic of Moldova or in one of the other countries referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.

6. If, in cases of reasonable doubt, there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

In all cases, the settlement of disputes between the importer and the customs authorities of the importing Party shall take place under the legislation of that Party.

ARTICLE 36

Free zones

1. The United Kingdom and the Republic of Moldova shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By way of derogation from paragraph 1, when products originating in the United Kingdom or in the Republic of Moldova are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 or EUR-MED at the exporter's request, if the treatment or processing undergone complies with this Protocol.
