(b) a Qualifying Value Content (hereinafter referred to as "QVC") of not less than $40 \%$ of the FOB value; or
(c) a QVC of not less than $35 \%$ of the Ex-Works value.

(I) mere dilution with water or another substance that does not materially alter the characteristics of the goods.

## Article 3.7: Accumulation

1. An originating good of a Party which is used in the processing or production in the territory of the other Party as material for finished goods shall be deemed as a material originating in the territory of the latter Party where the working or processing of the finished goods has taken place.

## Article 3.8: Intermediate Goods

For a non-originating material that undergoes sufficient production in the territory of one or both Parties as provided in Article 3.4 (Not Wholly Obtained or Produced Goods), the total value of the resulting good shall be the originating value when that good is used in the subsequent production of another good.

## Article 3.9: De Minimis

1. A good that does not satisfy a change in tariff classification requirement as set out in PSR to be agreed pursuant to paragraph 2 of Article 3.4 (Not Wholly Obtained or Produced Goods) shall be considered as originating if:

## Article 3.11: Accessories, Spare Parts, and Tools

1. Accessories, spare parts, tools, and instructional or other information materials delivered with a good that form part of the good's standard accessories, spare parts, tools, and instructional or other information materials shall be regarded as a part of the good, and shall be disregarded in determining whether or not all the non-originating materials used in the production of the originating goods undergo the applicable change in tariff classification provided that:
(a) the accessories, spare parts, tools, and instructional or other information materials are classified with and not invoiced
separately from the good; and
(b) the quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the good are customary for the good.
2. Notwithstanding paragraph 1, if the goods are subject to a QVC requirement, the value of the accessories, spare parts, tools, and instructional or other information materials shall be taken into account as originating or non-originating materials, as the case may be, in calculating the QVC of the goods.

## Article 3.12: Treatment of Packages, Packing Materials, and Containers

1. If a good is subject to the QVC requirement, the value of the packages and packing materials for retail sale, shall be taken into account in determining the origin of such good as originating or nonoriginating, as the case may be, provided that the packages and packing materials are considered to be forming a whole with the good.
2. If a good is subject to the change in tariff classification criterion, packages and packing materials for retail sale classified together with the packaged good according to the General Rules for the Interpretation of the Harmonised System, shall not be taken into account in determining the origin of such good.
3. Packing materials and containers used exclusively for the transportation of a good shall not be taken into account in determining the origin of such good.

(ii) the good have not entered into trade or consumption there; and
(iii) the good have not undergone any operation there other than unloading and reloading or any operation required to keep them in good condition.
2. For the purposes of implementing paragraph 1 where transportation is effected through the territory of any non-Party, the customs authority of the importing Party may require importers who claim the preferential tariff treatment for the good to submit supporting documentation, such as:
(a) a single transport document covering the passage from the exporting Party to the importing Party; or

1. (e) the customs competent authority receiving the notification may postpone the proposed verification visit and notify the customs authority of the importing Party of such intention within 15 days from the date of receipt of the notification. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.
3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
4. Where authorisation is required for the supply of a service on which a specific commitment under this Chapter has been made, the competent authorities of each Party shall:
(a) in the case of an incomplete application, on request of the applicant, where practicable, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

5. In sectors in which a Party has undertaken specific commitments, with a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties agree that such requirements should be, inter alia:
(a) based on objective and transparent criteria, such as competence and the ability to supply the service;
(b) not more burdensome than necessary to ensure the quality of the service; and
(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
6. In sectors in which a Party has undertaken specific commitments, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:
(a) does not comply with the criteria outlined in subparagraphs 5(a), (b) or (c); and
(b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.
7. In determining whether a Party is in conformity with the obligation under paragraph 6, account shall be taken of international standards of relevant international organisations applied by that Party. ${ }^{15}$
8. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or may be accorded autonomously.
2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, on request, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should also be recognised.
3. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.
4. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements

[^12]met, or licences or certifications granted in the territory of a non-Party, nothing in this Chapter shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the territory of the other Party.
5. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to:
(a) establish dialogues with a view to recognizing professional and vocational qualifications, facilitating licensing or registration procedures, and working towards the development of mutually acceptable professional standards and criteria with respect to professional services in sectors of mutual importance to the Parties.
(b) take into account other relevant multilateral agreements, to which both countries are Parties, that relate to professional services in developing such arrangements on the recognition of professional qualifications, licensing and registration.

For purposes of transparency, on request of the other Party, a Party shall endeavour to, where practicable provide information concerning standards and criteria for the certification and licensing of professional service suppliers, or otherwise provide information concerning the appropriate regulatory or other body to consult regarding these standards and criteria.

1. If the respondent Party:
(a) fails to notify any measures taken to comply with the final report before the expiry of the reasonable period of time;
(b) notifies the complaining party in writing that it is not possible to comply with the final report within the reasonable period of time; or
(c) the original panel finds that no measure taken to comply exists or that the measure taken to comply with the final report as notified by the party complained against is inconsistent with the covered provisions;
the respondent Party shall, on request of the complaining Party, enter into consultations with a view to reaching a mutually satisfactory agreement or any necessary compensation.
2. If the Parties fail to reach a mutual satisfactory agreement or to agree on compensation within 20 days of the date of receipt of the request made in accordance with paragraph 1, the complaining Party may deliver a written notification to the respondent Party that it intends to suspend the application to that Party of benefits or other obligations under this Agreement. The notification shall specify the level of intended suspension of benefits or other obligations.
3. The complaining Party may begin the suspension of benefits or other obligations referred to in the preceding paragraph 20 days after the date on which it served notice to the respondent Party, unless the respondent Party made a request under paragraph 7.
4. The suspension of benefits or other obligations:
(a) shall be at a level equivalent to the nullification or impairment that is caused by the failure of the respondent Party to comply with the final report; and
(b) shall be restricted to benefits accruing to the respondent Party under this Agreement.
5. In considering what benefits to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:
(a) the complaining Party should first seek to suspend benefits in the same sector or sectors affected by the measure that the
panel has found to be inconsistent with this Agreement or have caused nullification or impairment; ${ }^{38}$
(b) the complaining Party may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits or other obligations in the same sector.
6. The suspension of benefits or other obligations shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions which has been found in the final report has been removed, or until the Parties have reached a mutually satisfactory agreement or any necessary compensation.
7. If the respondent Party considers that the suspension of benefits does not comply with paragraphs 4 and 5 , that Party may request in writing to the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify to the Parties its decision on the matter no later than 30 days of the receipt of the request from the respondent Party. The complaining Party shall not suspend benefits or other obligations until the original panel has delivered its decision. #### Abstract

of Non-Compliance), the complaining Party shall terminate the suspension of benefits or other obligations no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2; or (b) in a situation where necessary compensation has been agreed, the respondent Party may terminate the provision of such compensation no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2.

2. If the Parties do not reach an agreement on whether the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions within 30 days of the date of receipt of the notification, the complaining Party shall request in writing that the original panel examine the matter. That request shall be notified simultaneously to the respondent Party. The decision of the panel shall be notified to the Parties no later than 45 days of the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions, the complaining Party shall terminate the suspension of benefits or other obligations, or the respondent Party shall terminate the provision of the compensation, no later than 15 days of the date of the decision. If the panel determines that the notified measure achieves only partial compliance with the covered provisions, the level of suspension of benefits or other obligations, or of the compensation, shall be adapted in light of the decision of the panel.

## Article 16.25: Suspension and Termination of Proceedings

If both Parties so request, the panel shall suspend its work for a period agreed by the Parties and not exceeding 12 consecutive months.
