

Harnessing Investment for Sustainable Development Through Public–Private Partnerships (PPPs) in Infrastructure and Public Services: The economics and finance dimensions

Joint IISD–UNCTAD workshop

InterContinental Nairobi – Nairobi, Kenya – February 6, 2018

TRAINING MATERIAL

THE ECONOMICS DIMENSION

- Presentation slides “Measuring Investment in Infrastructure and Public Services Sectors: A data overview and data challenges,” by Kalman Kalotay (UNCTAD)
- Presentation slides “IISD’s Sustainable Asset Valuation (SAVi) Tool: Why sustainable assets can deliver better value for money and harness sustainable development,” by Martin Dietrich Brauch (IISD)

THE FINANCE DIMENSION

- Presentation slides “Financing Rural Infrastructure to End Hunger,” by Laura Turley
- Draft IISD paper “Financing Rural Infrastructure to End Hunger,” provided to participants as background reading in advance of the workshop for the session on financing rural infrastructure. Participants were invited to provide comments and feedback in writing in advance of the workshop as well as to raise concerns and make further comments during the session, moderated by Sarah Brewin (IISD).
